Executive Board

Second regular session 2004

13-17 September 2004

Item 17 of the provisional agenda*

**Financial report and statements for the biennium ended
31 December 2003***Summary*

The present document, submitted for review and noting by the Executive Board, contains the financial report on the accounts of UNICEF for the biennium ended 31 December 2003. The document, comprised of the financial report and 10 statements supported by notes and 3 schedules, summarizes the financial results of transactions made in 2002 and 2003. In line with General Assembly resolution 50/204 of 23 December 1995, and the formats agreed upon by the Chief Executives Board (formally the Administrative Committee on Coordination), the document is prepared to harmonize the presentation of the accounts of the agencies in the United Nations system. A summary of significant accounting policies and other information is included in the notes to the financial statement.

I. Financial report for the biennium ended 31 December 2003

Introduction

1. The Executive Director of the United Nations Children's Fund (UNICEF) submits herewith the financial report of UNICEF, accompanied by 10 statements and supported by 3 schedules. Of these, statements I, II, III and IV are presented in line with the formats agreed upon by the Chief Executives Board (CEB) as a step towards harmonizing the accounts of agencies in the United Nations system. The financial report provides the financial results of UNICEF activities in 2002 and 2003. Highlights are summarized in the following paragraphs.

Income

2. UNICEF income in the biennium 2002-2003 totalled \$3,127 million. Virtually all Governments of both industrialized and developing countries contributed to UNICEF in the period 2002-2003. Income comprised \$1,425 million for regular resources, \$1,018 million for other resources (regular) and \$684 million in other resources (emergency). The breakdown of UNICEF income by source is as follows: 65 per cent (\$2,034 million) from Governments; 31 per cent (\$958 million) from fund-raising campaigns, the sale of greeting cards and individual donations; and 3 per cent (\$96 million) from miscellaneous sources, including interest and exchange rate revaluation of assets and liabilities. A total of \$39 million (1 per cent) was contributed under inter-organizational arrangements.

Expenditures

3. UNICEF expenditures in the biennium 2002-2003 were \$2,736 million. This amount consisted of \$1,040 million for programme cooperation from regular resources, \$924 million for programme cooperation from other resources (regular), and \$606 million for other resources (emergency). The remaining expenditures of \$166 million were for management and administration.

Donations -in-kind

4. Donations-in-kind valued by donors at \$335 million were delivered by UNICEF to projects during the biennium 2002-2003. These deliveries are not reflected in the financial accounts of UNICEF, although they are handled through the administrative structures of the organization.

Trust funds

5. Trust funds not related to programmes approved by the UNICEF Executive Board are not entered in the financial accounts of UNICEF as income and expenditures. These funds are used mainly to cover the cost of goods and services purchased and delivered on a reimbursable basis by UNICEF on behalf of Governments, other agencies in the United Nations system and non-governmental organizations (NGOs). In the biennium 2002-2003, UNICEF received cash of

\$981 million for these trust funds. Disbursements and obligations totalled \$835 million.

Cash holdings

6. UNICEF has total cash of \$961 million (which includes the unspent balances from trust funds in the amount of \$289 million). An amount of \$960 million is held in first-class banks, comprising \$927 million in interest-bearing term deposit accounts and \$33 million in current bank accounts. Cash on hand amounts to \$1 million.

Approved programmes

7. During the biennium 2002-2003, the Executive Board approved the amount of \$3,186 million for new programmes for children in countries with which UNICEF cooperates, as well as for regional and interregional projects. This total includes \$1,411 million in programmes to be funded from UNICEF regular resources and \$1,057 million for projects that the Board approved as worthy of support and that were financed by pledges of supplementary funds made in 2002-2003. The total also includes \$718 million for projects financed by pledges for emergency relief and rehabilitation.

Notes to the financial statements

Note 1

Statement of the objectives and activities of UNICEF

1. UNICEF is mandated by the United Nations General Assembly to advocate for the protection of children's rights, to help meet their basic needs and to expand their opportunities to reach their full potential. The organization mobilizes political will and material resources to help countries, particularly developing countries, ensure a "first call for children" and build their capacity to form appropriate policies and deliver services for children and their families.

Note 2

Summary of significant accounting policies

Accounting Convention

2. The financial statements are prepared in accordance with the Financial Regulations and Rules of UNICEF and the United Nations system accounting standards.

3. In line with the goal of achieving harmonization of the presentation of the accounts by agencies in the United Nations system, the financial statements are presented in line with the formats agreed upon by the CEB.

Financial period

4. In accordance with the UNICEF Financial Regulations and Rules, the accounts are maintained on a biennial basis.

Unit of account

5. The accounting unit is the United States dollar. The equivalent in United States dollars of other currencies is established on the basis of the United Nations operational rate of exchange.

Translation of currencies

6. Differences between the valuation of the currencies when entered into the accounts and when actual transactions are completed are accounted for as gains or losses on exchange transactions. Periodically, assets and liabilities in currencies other than United States dollars are revalued for accounting purposes at the prevailing United Nations operational rates of exchange. Any variance due to fluctuation of those rates is accounted for as income or loss and shown separately in the statement of income and expenditure. In accordance with UNICEF Executive Board decision 1990/28 (E/ICEF/1990/13), differences resulting from the payment of contributions pledged in currencies other than United States dollars are recorded against the contributions.

Income

7. Income consists of regular resources, supplementary funds and funds for emergency relief and rehabilitation. Regular resources include funds from the voluntary annual contributions of Governments, intergovernmental organizations, NGOs, the net income from the Private Sector Division (PSD), unearmarked funds contributed by the public and other income. Supplementary funds are those contributed to UNICEF by Governments, intergovernmental organizations, NGOs and the United Nations system for specific purposes within the programmes approved by the UNICEF Executive Board. Emergency relief and rehabilitation funds include those contributed for emergency operations.

8. Income is recorded on the basis of funds or pledges received for the current year. Pledges received for future years for purposes specified by donors are considered deferred income and recorded as "contributions received in advance".

9. Contributions income received from National Committees for UNICEF is accounted for on a cash basis, with the exception of contributions for supplementary funds and for emergency relief and rehabilitation, which may be recorded on the basis of a valid pledge from a National Committee. The validity of the pledge is determined by the existence of funds raised and a statement from the National Committee that it is committing funds to UNICEF in the form of a pledge.

10. The statement of income and expenditures does not include funds received and disbursements made from trust funds. Those transactions that do not require commitments by the Executive Board are maintained as trust funds.

11. All other income received by UNICEF is classified as miscellaneous income and is credited as regular resources.

12. Contributions-in-kind (supplies) are valued by management and reflect the cost UNICEF would normally pay for similar items.

13. Donations-in-kind are not reflected in the financial accounts of UNICEF, although they are handled through the administrative structures of the organization.

Expenditure

14. All expenditures of UNICEF are accounted for on an accrual basis, except for those relating to staff entitlements, which are accounted for on the basis of cash disbursements only.

15. Deferred charges comprise expenditure items which are not properly chargeable in the current financial period and which will be charged as expenditure in a subsequent financial period.

16. No provision is made for such staff entitlements as repatriation, which will take place in the future or to meet contingencies under appendix D of the United Nations Staff Rules, as funds are provided in the budget appropriations as required.

Cash

17. All funds received are deposited into UNICEF bank accounts, including those under trust fund arrangements and reflected as cash holdings.

Stock

18. The stock of programme supplies at the UNICEF Supply Division warehouse at Copenhagen is shown at average cost. All costs associated with bringing the goods to the warehouse are considered as part of the average cost. Goods in transit to the warehouse are valued at actual cost.

Non-expendable property

19. Furniture, equipment and other non-expendable property are not included in the assets of the organization. Acquisitions are charged against budgetary accounts in the year of purchase.

Capital asset reserve

20. By its decision 1990/26 (E/ICEF/1990/13), the Executive Board approved the establishment of a capital asset reserve fund to better control the future purchases of UNICEF capital assets, mainly buildings to be purchased for office accommodations and staff housing in the field. At such time as may be necessary, additional authorized appropriations will be made to replenish the capital asset reserve.

Consolidation of PSD accounts

21. The financial report and accounts reflect UNICEF income, expenditure, assets and liabilities, including the net operating income, assets and liabilities of PSD. Inter-office transactions between UNICEF and PSD are eliminated for PSD consolidation purposes.

PSD accounting conventions

22. The PSD accounts are maintained in accordance with the Financial Regulations and Rules of UNICEF and the Greeting Card Operation special supplement.

PSD translation of currencies

23. Gross proceeds are recorded in local currency based on current year deliveries. They are converted into United States dollars at the United Nations operational rates of exchange prevailing on 31 December.

PSD allowance for exchange rate fluctuation and doubtful accounts receivable

24. The policy of making an allowance of 10 per cent of non-United States dollar-denominated outstanding accounts receivable as at 31 December as a provision for delays in the collection thereof, is discontinued effective 31 December 2003. In accordance with PSD accounting policy, a provision to cover accounts receivable that are considered doubtful for collection may be established.

PSD inventories

25. The inventory of work in process and finished goods are valued at standard cost, while raw materials are valued at moving average cost. It is PSD policy to write-down unsold cards and dated products at the end of the first sales campaign year and all other products at the end of the second sales campaign year. Products

that have been written-down and carried forward are valued at their add-on cost. All publicity and promotion materials produced in the current campaign year but relating to future campaign years are shown at standard cost and included in inventory.

PSD capital assets

26. Capital assets costing \$100,000 or more are capitalized and depreciated over their estimated useful life.

PSD liabilities

27. Liabilities are accrued in the PSD accounts following recognized accounting standards, and appropriate cut-off procedures are followed consistently.

PSD income

28. Gross proceeds from the sale of cards and products are recorded in foreign currency and accrued on the basis of the provisional sales reports received from the sales partners at year-end. They are converted into United States dollars at the United Nations operational rates of exchange prevailing on 31 December of the year in question. The accrual is adjusted in the following year on receipt of the final sales report. In case the provisional sales report is not received from a sales partner by end-of-year closure, gross proceeds are accrued on the basis of that sales partner's average sales-to-delivery ratio for the current year.

29. Income from private sector fund-raising activities and related expenses are recorded separately in the PSD accounts. The net proceeds raised by National Committees from private sector fund-raising activities are recorded on the basis of the reports they submit at year's end, while the net proceeds raised by field offices from private sector fund-raising activities are recorded upon receipt of funds.

Note 3

Transfer to the biennium support budget

30. A transfer is made from income to biennium support budget, in keeping with the budget harmonization of the United Nations Development Programme (UNDP), the United Nations Population Fund (UNFPA) and UNICEF, as follows:

	<i>2002-2003</i>	<i>2000-2001</i>
	(In thousands of United States dollars)	
Government contributions towards local costs	571	646

Note 4

PSD income

31. Net income from PSD for the biennium ended 31 December 2003 was \$570,796,000, broken down as follows:

Total	38 543	41 711

Note 6

Currency exchange adjustment

32. The currency exchange adjustments line no longer reflects all exchange adjustments and therefore direct comparison with the previous biennium is not possible. In 2002-2003, all exchange adjustments related to other resources are recorded against those contributions. This is in line with Financial Regulation 4.10 and UNICEF Executive Board decision 1990/28 (E/ICEF/1990/13).

33. If the disclosure rules had been strictly applied, the figure for currency adjustments for 2000-2001 would have been \$6.75 million less, a total of (\$16,756 million), with no impact on the UNICEF net excess of income over expenditure.

37. The Medical Insurance Plan is a health and dental insurance plan operated by the United Nations, UNDP, the Office of the United Nations Commissioner for Refugees (UNHCR) and UNICEF at designated duty stations for the benefit of locally-recruited General Service staff members, national Professional officers, former staff members and their eligible family members. Staff and the organization share in the cost of the premiums. The balance represents premiums less expenses.

Note 18

Reserve for procurement services — staff and related costs

38. In 1993, the Executive Board authorized the establishment of a reserve for procurement services at \$2 million (E/ICEF/1993/AB/L.11 and E/ICEF/1993/14, decision 1993/19). There were no movements in the reserve during 2002-2003.

39. The income and expenditures relating to procurement services amounted to:

	<i>2002-2003</i>	<i>2000-2001</i>
	(In thousands of United States dollars)	
Funds received	12 160	10 425

Note 19

Insurance reserves

Reserve for losses of programme supplies and equipment

40. In 1950, the Executive Board authorized the establishment of a reserve for insurance of \$200,000 to absorb losses of UNICEF programme supplies and equipment not covered by commercial insurance. The reserve balance at the end of 2001 was \$104,010. There was an increase of \$11,161.89 in the reserve during 2002-2003.

Reserve for property loss

41. In 1987, UNICEF established a reserve of \$100,000 to self-insure for property losses. The reserve balance at the end of 2001 was \$26,399. There were no movements in the reserve during 2002-2003.

Note 20

After-service health insurance reserve

42. In order to gain a better understanding of the financial dimensions of the organization's liability for after-service health insurance, a consulting actuary was engaged in 2003 to carry out an actuarial valuation of post-retirement health insurance benefits as at 31 December 2003. On the basis of that study, it has been estimated that UNICEF liability as at 31 December 2003 for after-service health insurance benefits covering all participants is as follows:

	<i>Present value of future benefits As at 31 December 2003</i>	<i>Accrued liability As at 31 December 2003</i>
	(In thousands of United States dollars)	
Gross liability	339 309	233 428
Offset from retirees	73 294	50 971
Total	266 015	182 457

43. The present value of future benefits is the discounted value of all benefits, less retiree contributions, to be paid in the future to all current retirees and active employees expected to retire in the future. In actuarial terminology, it is called the expected post-retirement benefit obligation, or EPBO.

44. The accrued liability for future benefits represents that portion of the present value of benefits that has accrued from the employee's date of hire until the valuation date. An active employee's benefit is fully accrued when that employee has reached the date of full eligibility for benefits. Thus, for retirees and active employees who are eligible to retire with benefits, the present value of future benefits and the accrued liability are equal. In actuarial terminology, the accrued liability is called the accumulated post-retirement benefit obligation, or APBO.

45. In 2003, the Executive Board authorized the establishment of a funded reserve for after-service health insurance with an initial contribution of \$30 million. Currently disbursements for current retirees are charged against the budget appropriations of the periods when actual payments are made.

Note 21

Other end-of-service liabilities

46. The net contingent liability for staff benefits as at 31 December 2003 is estimated at \$66,952,000, consisting of the following:

	2003	2001
	(In thousands of United States dollars)	
Accumulated leave	33 041	35 839
Repatriation grant	33 911	20 655
Total	66 952	56 494

47. There is no provision in the accounts for the above amount. The expenditures will be charged against the budget appropriations of the periods when actual payments are made.

Note 22

United Nations Joint Staff Pension Fund

48. UNICEF is a member organization participating in the United Nations Joint Staff Pension Fund, which was established by the General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded defined benefit plan. The financial obligations of the organization to the consist of its mandated contribution at the rate established by the General Assembly, together with any share of any actuarial deficiency payments under Article 26 of the Regulations and rules of the Fund. Such deficiency payments are payable only if and when the General Assembly has invoked the provision of Article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Funds as of the valuation date.

49. At the time of this report, the General Assembly has not invoked this provision.

50. All non-expendable property is charged against current year expenditure at the time of acquisition.

Note 24

Liquidity

51. UNICEF internal liquidity guidelines recommend a year-end regular resources convertible cash balance equal to at least 10 per cent of projected regular resources income for the following year.

52. The financial plan for 2003 recommended a minimum regular resources convertible cash balance of \$66 million.

53. For the purpose of meeting this internal guideline, UNICEF cash balances, excluding trust funds, are estimated to be split between regular resources and other resources as follows:

	<i>Regular resources</i>	<i>Other resources</i>
(In thousands of United States dollars)		
Convertible cash balance	201 887	462 816
Non-convertible cash balance	7 259	
Total	209 146	462 816

54. UNICEF met its internal liquidity guideline for the year 2003.

Note 25

Annex II

Glossary of selected UNICEF terminology

Accounts, audited. The financial statements of the organization for a specified period or at a specified date audited by the External Auditors (United Nations Board of Auditors).

Accrual basis of accounting. The accrual basis of accounting for revenue in each financial period means that income is recognized when it is due and not when it is received. Accrual of expenditures in each financial period means that costs are recognized when obligations arise or liabilities are incurred and not when payments are made.

Asset. An asset is a resource owned by or due to the organization as a result of past events.

Budget. A plan in financial terms for carrying out proposed activities in a specified time. The term “budget” is used to refer to UNICEF programme support, management and administration costs, programme assistance as well as to PSD. However, the Executive Board approves an appropriation of funds only for the UNICEF support budget and the regular resources part of inter-country programmes.

Budget appropriations. The total appropriation of funds approved by the Executive Board for UNICEF programme support, management and administration costs, and programme assistance against which obligations may be incurred for those purposes up to the amount so approved.

Budget estimates. Estimates of the costs of proposed programme support, management and administration, and programme assistance prepared for submission to the UNICEF Executive Board for the approval of relevant appropriations.

Budget estimates, revised. Resulting from Executive Board approval of “supplementary estimates” proposed to adjust an approved budget.

Cash holdings. The aggregation of all the funds of the organization, including coins, bank notes, cheques, balances in current and call accounts, savings accounts and interest-bearing deposits.

Cash-in-transit. Cash transfers between one or more UNICEF bank accounts at a specified time.

Cash in current bank accounts. The aggregate of money maintained in UNICEF bank accounts, as reflected in the UNICEF books of account, to sustain operational requirements.

Cash in interest-bearing deposits. Funds temporarily available, over those needed for immediate requirement, held in short-term, interest-bearing deposits and ready to be drawn down when needed.

Cash-on-hand (also called “petty cash”). Cash kept on hand by authorized officers as a convenience for making small payments on behalf of the organization.

Contributions, voluntary. Contributions to UNICEF that are offered and accepted without reference to a scale of assessment determined by any United Nations legislative body.

Contributions receivable. Contributions pledged to UNICEF but not received until a future time.

Currencies of “restricted use” for UNICEF. Currencies, the use of which (mainly in respect of transferability and convertibility) is limited because of foreign exchange regulations or a donor’s wish. When those limitations do not exist, the currencies are considered by UNICEF as “unrestricted” because these are fully convertible.

Earmarked. To give expression to a restriction imposed by agreement or by administrative action on the use of an account or of an equivalent amount of assets.

Expenditures. Expenditure for a financial period is the sum of the disbursements and valid unliquidated obligations made against the appropriation/allocation of the period.

Financial periods. The operating period of the organization, covered by the financial statements, is on a biennial basis.

Financial regulations. Until 31 December 1987, UNICEF accounts were maintained in accordance with the Financial Regulations of the United Nations, with such modifications as required by the nature of UNICEF work. Since 1 January 1988, UNICEF accounts have been maintained in accordance with the UNICEF Financial Regulations and Rules.

Fund balance. Fund balances and reserves represent the difference between the assets and the liabilities of the organization. Consists of funds available for the implementation of programmes funded by regular resources and supplementary funds as well as funds available for the acquisition of capital assets.

Income. Income for a financial period is defined as money or money equivalent received or accrued during the financial period which increases existing net assets. UNICEF income is recorded on the basis of funds or pledges received for the current year. It comprises funds classified as “regular resources”, “supplementary funds” and “emergency relief and rehabilitation”.

Income, deferred. Funds received or pledges recorded as receivable, attributable to future financial periods and, therefore, not credited to the income account of the period reported on.

Income, regular resources. Unearmarked income which includes funds from voluntary annual contributions of Governments, the net income from PSD, funds contributed by the public and certain “other (or miscellaneous) income”.

Income, other. Also referred to as “miscellaneous income” for regular resources. Miscellaneous income is defined in the United Nations system as income other than (a) the value of assessed or voluntary contributions; and (b) such other income items as may be excluded under the organization’s financial regulations and rules. In UNICEF, this includes income other than the value of the voluntary contributions and the net income of PSD.

Income, supplementary funds. Specific contributions for programmes approved by the UNICEF Executive Board, in addition to regular resources, which then become part of UNICEF programmes. Consists of funds contributed to UNICEF by Governments, NGOs and United Nations agencies for specific purposes.

Income, emergency relief and rehabilitation. Consists of funds contributed to UNICEF by Governments, NGOs and United Nations agencies for emergency appeals.

Inventory. The value of supplies and equipment for programmes owned by the organization, as well as PSD materials at the end of an accounting or financial period.

Liability. A liability is a present obligation of the organization arising from past events, the settlement of which is expected to result in an outflow of resources from the organization.

Liquidity policy. Owing to the nature of programme implementation and UNICEF cash flows, there may occur, from time to time, short-term imbalances between regular resources cash disbursements and cash receipts. The UNICEF liquidity policy allows these temporary imbalances to be offset by up to one half of the balance of supplementary cash-on-hand.

Liquidity requirement. In order to meet UNICEF liquidity requirements, regular resources convertible cash balances, at the end of each fiscal year, are required to equal 10 per cent of projected regular resources income for the next fiscal year.

Local currency. The currency of the country or area in which the local financial records of an activity are kept and/or in which its local financial transactions take place.

Non-expendable property. Items of property and equipment charged to the administrative budget with an individual unit cost of at least \$1,500.

Obligation. Obligations are amounts of orders placed, contracts awarded, services received and other transactions which involve a charge against the resources of the current financial period. Obligations may be maintained either for that period or until liquidated or cancelled.

Pledge. A written commitment by a prospective donor to make a voluntary contribution to UNICEF. A written commitment which is subject to the need to secure an appropriate national legislative approval is considered a pledge.

Procurement services. UNICEF assists Governments, United Nations agencies and NGOs working in the fields of benefit to children by undertaking, on request and on a reimbursable basis, the procurement of goods and services. A small handling charge is added by UNICEF to the cost of the supplies and services to cover the costs of extra administration and documentation (see trust funds).

Rates of exchange. The UNICEF accounts are maintained in United States dollars. Transactions in other currencies are converted for recording into United States dollars, in principle, at the United Nations operational rates of exchange.

Reserve for insurance. A reserve of \$200,000 was established by the Executive Board in November 1950 when UNICEF adopted a policy of self-insurance for programme supplies. UNICEF also has a reserve for third-party liability, which has a balance as of 31 December 2003 of \$26,399.

Schedule. Explanatory or supporting analyses accompanying financial statements.

Trust funds. Funds accepted by UNICEF mainly to cover the costs of procurement of supplies and services undertaken by UNICEF on behalf of others. They also

include financing provided by sponsors to cover the costs of Junior Professional Officers as well as those relating to projects funded by the World Bank, the Oil for Food Programme in Iraq and the Global Alliance for Vaccines and Immunization. These funds are not considered to be UNICEF income.

Specific contributions. Programme recommendations are often prepared in excess of the input available from regular resources. These recommendations are approved by the Executive Board as suitable for funding by supplementary contributions and contributions for emergency relief and rehabilitation from donors. When a contribution for specific purposes is made for such a programme, the corresponding commitment enters into effect (usually between Executive Board sessions).

Unencumbered balance. That portion of the approved budget that has not been expended at the end of the year. The unspent balance at the end of the biennium is cancelled and reported to the Executive Board.

Write-off. An adjustment to the accounts in order to record the loss of or reduction in the value of an asset.
