

## EMERGENCIES – UNICEF IN ACTION

### SUPPLIES FOR EMERGENCIES

#### HEALTH AND IMMUNISATION

##### Emergency Health Kits

**RM 18,840**

The kit provides three months of health care for up to 1,000 people in emergency situations. The kit contains medicine, medical supplies, and basic medical equipment to bring relief to people struggling to survive a disaster.

It has been designed for general medicine provision under primitive conditions such as those found during emergency situations, including refugee camps and large centers for displaced people.

##### Measles Vaccine

**RM 72.25**

Each year, measles kills around 800,000 children worldwide, and those who are lucky enough to survive may be left with life-long disabilities.

Your gift will provide enough vaccine to give 50 children the two doses required to protect them from this deadly disease.

##### Retinol / Vitamin A

**RM 84.80**

Vitamin A capsules are used for the prevention and treatment of vitamin A deficiency, a cause of poor sight and even blindness amongst toddlers and young children. They are also used for the prevention of complications as a result of measles. During emergencies, measles immunisation and vitamin A distribution are often combined.

Your gift will protect hundreds of toddlers against blindness for six months or more.

## EMERGENCIES – UNICEF IN ACTION

### SUPPLIES FOR EMERGENCIES

#### Insecticide Treated Mosquito Net

**RM 50**

A simple mosquito net can decrease malaria infection rates by 50 percent.

Your purchase will provide two nets treated with long-lasting insect repellent to protect children from mosquitoes and other biting insects.

## SHELTER AND EMERGENCY SUPPLIES

#### Tent

**RM 2,555**

Millions of children are displaced because their homes have been destroyed by natural disaster, or their families have become refugees fleeing violence and the effects of warfare.

This purchase will provide simple, lifesaving shelter. With a tent, children can be protected from cold and the elements, and a family can feel like a family because they have a place of their own.

#### Wool Blankets

**RM 12**

Natural disasters can destroy a child's home and sense of security. These wool-blend blankets provide warmth that protects children against the bitter cold and provide a sense of emotional security and hope.

Your purchase will provide 2 blankets to help keep children warm and protected from the elements. They are used in hospitals and health centers, daycare centers and distributed in emergency situations.

## EMERGENCIES – UNICEF IN ACTION SUPPLIES FOR EMERGENCIES

### WATER AND SANITATION

#### Water Containers

**RM 84**

These collapsible containers, which hold 20 litres of water, are widely used, especially in emergencies. Because they are collapsible, they take less room once packed and it is cheaper for UNICEF to ship them to wherever they are needed.

Your gift will help 5 families collect and store water safely.

#### Basic Family Water Kits

**RM 320**

Clean water is precious, especially in emergency situations.

Each basic water kit contains buckets, collapsible water containers, soap, and water purification tablets.

Your gift will enable UNICEF to provide water kits to 10 families, ensuring children are able to eat, drink, and wash.

#### Water Pumps

**RM 1,285**

It is estimated that nearly 6,000 children die every day from diarrhea caused by poor sanitation and contaminated drinking water.

By purchasing a water pump you will help provide clean, safe drinking water for a whole community.

This reliable and durable deep-well hand pump was designed by UNICEF and to date, more than 1 million pumps have been installed in communities around the world.

## EMERGENCIES – UNICEF IN ACTION SUPPLIES FOR EMERGENCIES

### NUTRITION

#### Oral Rehydration Salts (ORS)

**RM 50** (50 sachets)

Approximately 3,500 children die each day from dehydration caused by acute diarrhea. Oral rehydration salts (ORS) is a life-saving solution, containing sugar and salt. When mixed with safe, clean water, oral rehydration salts can be used to treat dehydrated children suffering from diarrhea caused by dehydration.

ORS is a simple and cost-effective solution used both in emergency and development situations. Save the lives of hundreds of young children today with ORS.

#### High Energy / Protein Biscuits

**RM 95**

These high energy/protein biscuits contain minerals and vitamins and have been developed for malnourished children during emergencies. They are easy to distribute and provide a simple solution to quickly improving the level of nutrition.

Your purchase will provide 2 cartons (800g) of high energy/protein biscuits, especially developed for young children caught-up in emergency situations.

#### Therapeutic Milk

**RM 54.50**

While UNICEF strongly supports and encourages breastfeeding, this therapeutic milk-based powder is used for treatment of severe child malnutrition. This successful formula which includes added vegetable fats, carbohydrates, vitamins and minerals boosts the chances of child survival. It is used in emergency feeding centers and refugee camps where food security is affected by famine, drought and crop failure.

Buy this gift and help provide lifesaving therapeutic milk that saves the lives of severely malnourished children. Your gift will provide almost 50 liters of milk.

## EMERGENCIES – UNICEF IN ACTION

### SUPPLIES FOR EMERGENCIES

#### EDUCATION AND PROTECTION

##### Recreation Kit

**RM 886**

This UNICEF created kit is filled with basic sports equipment that brings a sense of normalcy to children during emergencies, providing them with a sense of hope. Items include balls for several types of games, colored vests for different teams, chalk and measuring tape for marking play areas, a whistle and scoring slate.

Your purchase will allow up to 90 children to engage in team sports activities and interact with other children and have fun!

##### School-in-the-Box Kit

**RM 800**

UNICEF's innovative School-in-a-Box includes basic school supplies such as exercise books, pencils, erasers and scissors, a wooden teaching clock, plastic cubes for counting and a set of three laminated posters (alphabet, multiplication and number tables). The kit is supplied in a lockable aluminum box, the lid of which doubles as a blackboard when coated with the special paint included in the kit.

Your gift of a "School-in-a-Box" will help UNICEF set up a temporary school for at least 80 children during times of emergency, allowing them to continue their education during the most extreme crisis.
