

## Regional trends towards the MDG sanitation target

Middle East/North Africa, East Asia/Pacific and Latin America/Caribbean are on track to meet the target of halving the proportion of people without access to basic sanitation. West/Central Africa, Eastern/Southern Africa and CEE/CIS are not on track, and South Asia has made progress – but not enough to reach the target.

The solid lines show coverage levels in 1990 and 2004. Dotted lines show progress that will need to be made to reach the targets.
