

## VACCINE SUPPLIER MEETING

### Objectives:

- Provide the Vaccine Industry with an update on current immunization programmes and to specify related UNICEF demand forecast for the individual vaccines
- Provide and discuss expected new vaccine introduction in the short and long term and provide an update on the changing context of immunization financing
- Provide an update to industry on WHO technical specifications and pre-qualification processes
- Provide an opportunity for manufacturers to provide feedback on these areas as well as any other areas related to vaccine procurement

Day 1: 3rd April 2008

Venue: Blue Conference Room
