

2007 AD SYRINGES PROJECTIONS: QUANTITIES AND PRICING

As of September 2007

AD syringes	Type	Total Awarded Quantity (units)	Weighted Average Price per unit (USD)
0.5m IAD syringe 	For immunization injections of all 0.5m I dose vaccines	1,195,000,000	\$0.056
0.1 m IAD syringe 	For immunization injections of BCG vaccine	2,800,000	\$0.076
0.05m IAD syringe 	For immunization injections of BCG vaccine	102,900,000	\$0.070

Notes:

- 1) The above represents the weighted average prices based on the awards per product type. The weighted average prices are based on FCA containerized International Seaport and DDU UNICEF Warehouse Copenhagen.
- 2) The weighted average prices represents a range of different product designs and characteristics.
- 3) Due to varying price ranges within each syringe volume the prices indicated may not reflect the actual price. UNICEF country offices are requested to contact Supply Division for specific budget request needs.
- 4) Projected quantities will be adjusted throughout the year, subject to change in country needs and forecasts and results of new tenders.
