

Child Friendly School Reconstruction Project

Name of School: Al Bahadur Vidyalaya

25th October, 2006

Introductory

Under the three-year Rebuilding with Children recovery plan, UNICEF at request of the Ministry of Education committed to build 28 schools to replace facilities damaged or destroyed by the tsunami. The United Nations Office for Project Services has signed an agreement with UNICEF to manage these projects. UNICEF has recently agreed on supporting the construction of an additional 7 schools where other

'Child-friendly school' design concept developed by the Ministry of Education, UNICEF and UNOPS is being implemented. It focuses on the creation of child friendly learning spaces, which provide a learning environment that stimulates development of intellectual, social and physical capacities of children. This was developed in accordance with the Child Friendly School Concept as agreed in the MOU between UNICEF and the Ministry of Education.

Current Status as of October 2006

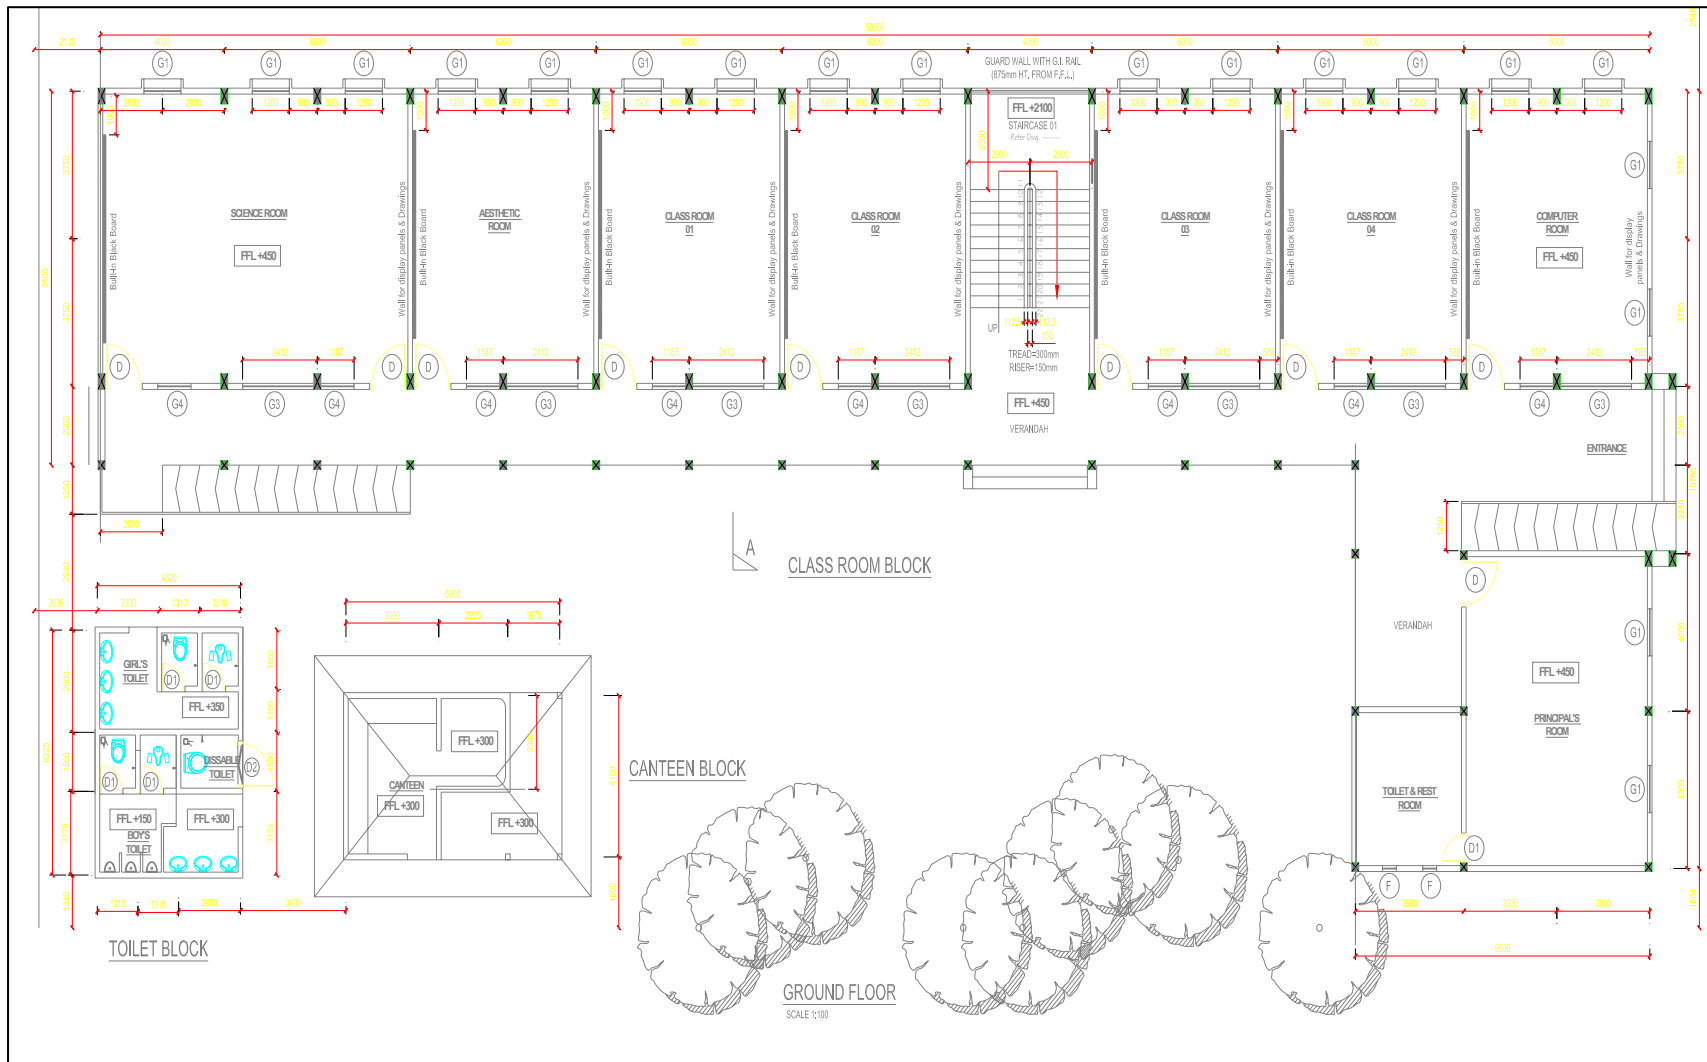

Land was made available in April '06 but the amount of land was insufficient for the number of students that needed to be accommodated in the building. As a result of this existing designs had to be modified and new master plans have been prepared and handed over to ZDE for approval.

No pictures from site as work has no begun

Milestones

- Land made available – 7- April-2006
