**Hi friends! My name is Eziz.  
Do you go to kindergarten?  
I have been going for a long time already!**

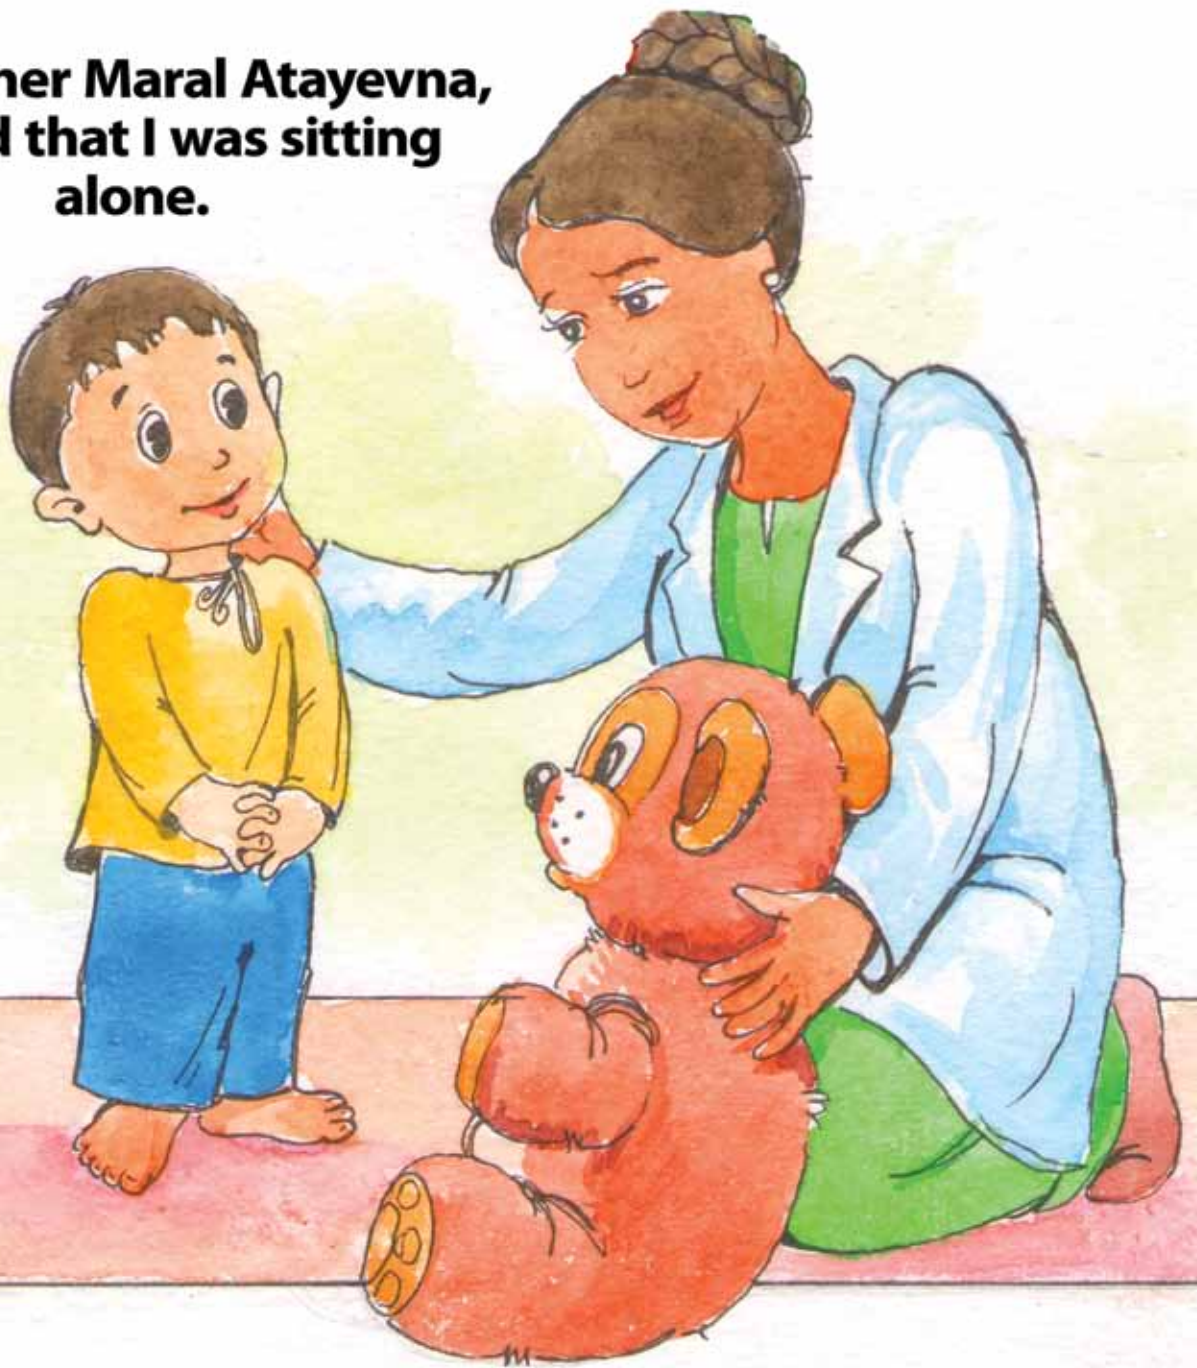

**At the beginning I was afraid.  
I didn't think that there was anyone besides  
my mommy and daddy who really loved me.**

**Once I saw how others were playing.  
Then I also wanted to play with them.**

**Our teacher Maral Atayevna,  
noticed that I was sitting  
alone.**

**She came up to me and asked:  
- Why don't you play with others?**

**Our teacher called all children together and said:  
- Children, we are all going to play a fun game.  
The game is called "Kindergarten".**

**Maral Atayevna tenderly took me up to the seat  
and she dressed me as a teacher.  
She said: - Today Eziz will be the teacher!**

**I felt the warmness of her hands, they were tender and warm just like my dear mommy's. Now I thought: "She is very much like my mommy!"**

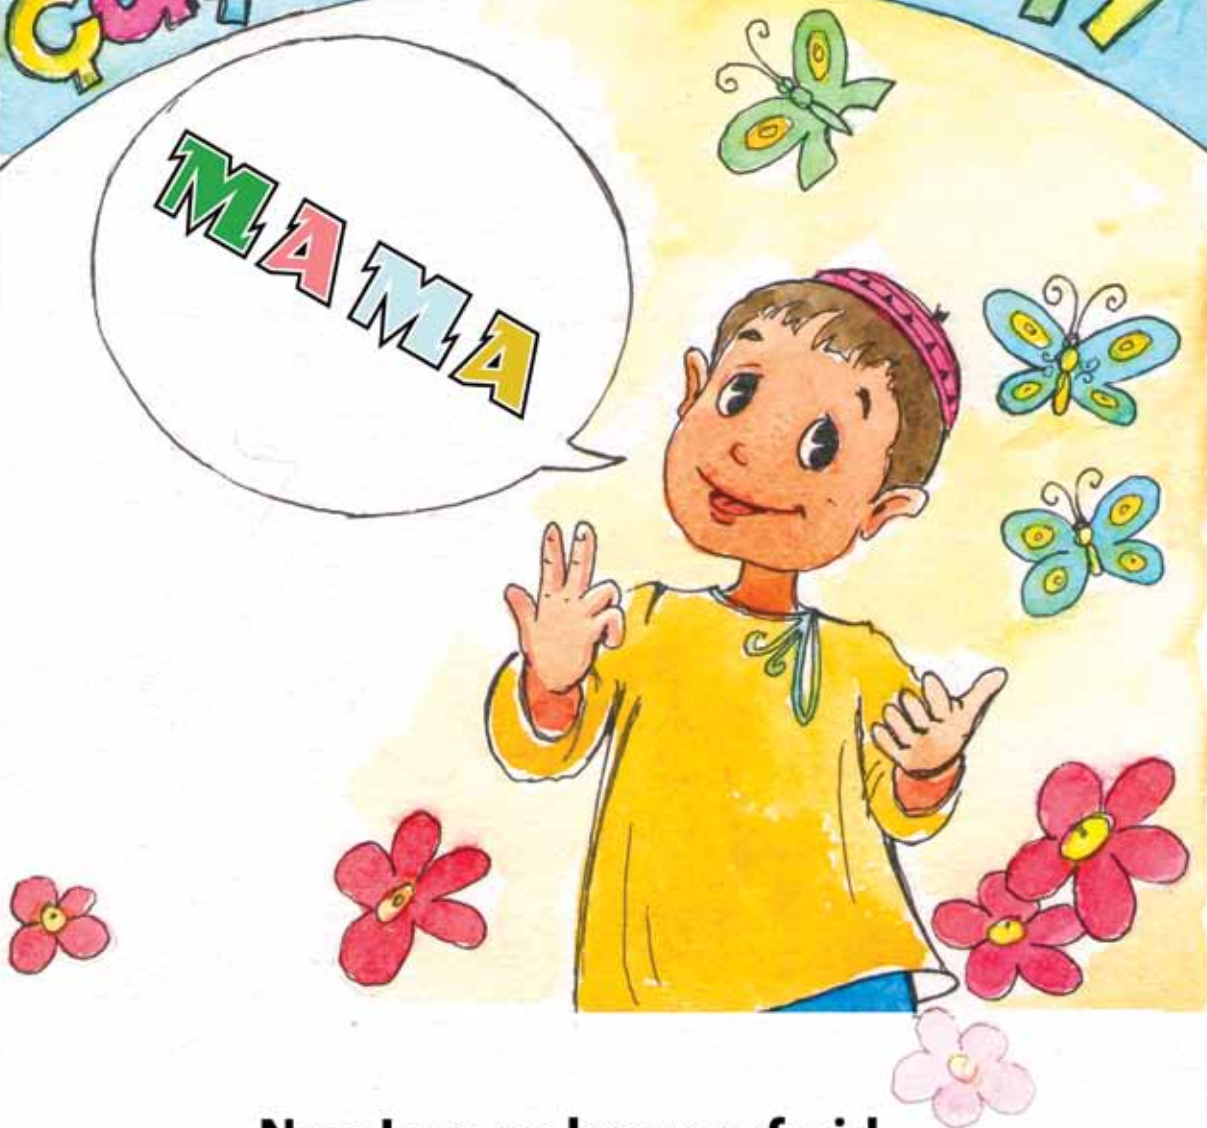

**I was standing on the seat and started telling a story about my mommy.**

**All children liked my story.  
And then, other children told stories about their  
parents too. We laughed a lot and it was fun  
for everyone.**

MAMA

**Now I am no longer afraid.  
Now I know that I also have a mommy in the kindergarten!**

**Dear mothers and fathers, grandparents, teachers!**

**This book is a part of an innovative series of materials for children aged 0-7 years, as well as their parents and caregivers in Turkmenistan. All the materials in this series will help make the first years of your child's life magical. After reading this book you will better understand how to benefit from time jointly spent with your child, for example, doing simple but very useful things that will help your children become healthy, vibrant, self-confident and feel secure. Our materials are the continuation of reforms in the field of early childhood development in Turkmenistan, including a part of the implementation of standards for early childhood development. The adopted standards are necessary to ensure that every child is able to realize his/her full potential. Furthermore, the rules of early childhood development are the criteria of child development for parents and caregivers; they promote love, tender care and education, play and learning.**

**We hope that our work will help you in upbringing and educating your children.**

**Love your children! Give your love from generation to generation!**
