Director, Emergency Operations  
*UNICEF's contribution is to support the countries to be better prepared and modifying their national policies to ensure the populations are better prepared, communities, government systems and operations in a way that we can mitigate the impact of climate change.*

UNICEF estimates that 175 million children will suffer from climate-related disasters in the next ten years.

To meet these and other challenges UNICEF is developing ways to work more effectively with its partners and to build its own capacity to prepare for and respond to emergencies that affect the lives of all children wherever they are in the world.

15) SOT: Interview with Louis-George Arsenault, UNICEF Director of Emergency Operations  
*This is the first year that HAR has become a flagship for UNICEF and that is a recognition that humanitarian crises around the world are increasing and hence the importance for us to increase our advocacy.*

Bossaso, Puntland, Somalia, August 2008

16) Med shot, doctor attending to mother and child

East Harerghe, Ethiopia, May 2008

17) Med shot, father giving milk to child

18) Med/wide shot, girl sitting in IDP camp

Sirba, Sudan, February 2008

19) Wide shot, destruction

Antanvarivo, Madagascar, November 2007

20) Wide shot, distribution centre

21) Wide shot, people gathered around distribution centre

Maputo, Mozambique, January 2008

22) Moving pan, man throwing bag of grain onto truck
