

Costed evaluation plan – Guinea-Bissau – UNICEF country programme of cooperation, 2016–2020

The table draws from the Integrated Monitoring and Evaluation Plan to cover present evaluations planned for the duration of the programme cycle. Additional guidance on financial resources for evaluation are outlined in the revised [Evaluation Policy \(E/ICEF/2013/14\)](#).

Evaluation title	UNDAF (or equivalent) outcome	UNICEF Strategic Plan outcome	Criteria used for selection	Intended use of evaluation findings	Expected start date	Anticipated cost and provisional source of funding (regular resources, RR, other resources, OR)
Evaluation of two pilot test community- based child and maternal health projects: Integrated Maternal and Child Health (PIMI) and Accelerating Progress in Maternal and Newborn Health (H4+)	All citizens, especially the most marginalized and vulnerable, have equitable and sustainable access to and use of quality and appropriate health, nutrition, HIV and AIDS, water, sanitation and hygiene, education and protection services.	Health. HIV/AIDS and nutrition	(a) Potential to feed into national policy dialogue and advocacy for replication and scale up to larger coverage in-country; (b) No major evaluation of general health programme/projects has been done in the previous country programme document.	Policy dialogue and advocacy for scale up of community-based maternal and child health package to vulnerable populations throughout the country. Provide evidence to reformulate health policy related to community health workers' approach and elimination of user fees.	Last quarter of 2016	\$150,000 (OR + RR), including an international evaluator plus two national consultants. Costs include data collection and analysis; communication, publication and dissemination.
Evaluation of the Joint Programme with UNFPA to accelerate the abandonment of female genital mutilation/cutting (FGM/C)	All citizens, especially the most marginalized and vulnerable, have equitable and sustainable access to and use of quality and appropriate health, nutrition, HIV and AIDS, water, sanitation and hygiene, education	Child protection	(a) Potential for replication or scale up; (b) Generate evidence-based information for advocacy and fundraising.	Advocacy with all stakeholders (government, religious leaders, non-governmental organizations and donors) to accelerate abandonment and for reformulation of programme as per the government's national strategy.	Second half of 2017	\$120,000 (OR) split between UNICEF and UNFPA External evaluator and two national consultants through collaboration with INEP (Instituto Nacional de Estudos e Pesquisa, National Research and Studies Institute), including stakeholder consultations, data collection

	and protection services.			Improvement and scale-up of FGM/C programming, including learning.		and analysis, communication, publication and dissemination.
Evaluation of the Community Approaches to Total Sanitation (CATS) component of the water, sanitation and hygiene (WASH) programme in terms of impact on the progress towards the elimination of open defecation	All citizens, especially the most marginalized and vulnerable, have equitable and sustainable access to, and use of, quality and appropriate health, nutrition, HIV and AIDS, water, sanitation and hygiene, education and protection services.	WASH	Support strengthening the National Sanitation and Hygiene Policy, based on evidence of the progress on the elimination of open defecation.	Inform decision-making on policies, development and organizational effectiveness and programme design. Enhance UNICEF accountability to key stakeholders and contribute to learning and knowledge-sharing on community-based sanitation approaches.	First half of 2018	\$200,000 (OR+RR) Two external evaluators and two national experts from NGOs; stakeholder consultations; data collection and analysis; communication, publication and dissemination.
Evaluation of the Child Friendly Schools (CFS) initiative integrated in the Education Equity and Quality Programme	All citizens, especially the most marginalized and vulnerable, have equitable and sustainable access to and use of quality and appropriate health, nutrition, HIV and AIDS, water, sanitation and hygiene, education and protection services.	Education	(a) This initiative has been under way for four years as a pilot, but has never been evaluated; (b) Results will contribute to policy dialogue and advocacy for sustainable scale up by other stakeholders, with support from UNICEF.	Inform decision-making on education policy, development and advocacy with Government and donor partners. Enhance UNICEF accountability to key stakeholders and contribute to learning and knowledge-sharing on holistic approaches to education.	Second half of 2017	\$100,000 (OR) External evaluator and national consultant; Stakeholder consultations; data collection and analysis; communication, publication and dissemination.
