Evaluation of the demonstrative model for Integrated Early Childhood Development at municipal level	Priority area 1: Inclusive social development for the development of an integral human being.	Goal area 1: Every child survives and thrives	The initiative is the core strategy for the first programme component of the CPD and it aims to design, implement and evaluate a model to be scaled up at departmental and national level if successful.	Evaluation findings will be used to inform governmental stakeholders on the replication and scaling-up of the model. In addition, results will contribute to the internal knowledge management. Evaluation of associated factors of learning outcomes	Priority area 1: Inclusive social development for the development of an integral human being.	Goal area 2: Every child learns	Improving the quality of education is part of UNICEF's core goal for the CPD. In this line, the evaluation is part of the strategy to support the Government in gathering evidence on the current practices to improve quality of education, and what is necessary to be changed in the sector reform.	Evaluation results will be used for the Plurinational Education Quality Observatory, and for the Education System, at national and local level, in order to improve teaching plans and school management.	March 2019	35 000 (RR) 40 000 (OR)
Evaluation of the referral system within the child protection system at local level, with particular emphasis on the synergies with the education and health sectors.	Priority area 3: Public management and plural justice	Goal area 3: Every child is protected from violence and exploitation	In the previous CPD, UNICEF identified important gaps in the child protection system, especially with regard to reporting and referral with the education and health systems. The evaluation will support the strengthening of the child protection system in its broader sense to prevent and respond to violence against children.	Evaluate efficiency of referral mechanism within the child protection system and produce evidence for policy changes and increase of budget allocation.	April 2021	90 000 (OR)
