

Costed evaluation plan – Benin – UNICEF country programme of cooperation, 2019–2023

The table draws from the Integrated Monitoring and Evaluation Plan to cover present evaluations planned for the duration of the programme cycle. Additional guidance on financial resources for evaluation is outlined in the revised evaluation policy of UNICEF ([E/ICEF/2018/14](#)).

| <i>Evaluation title</i> | <i>United Nations Development Assistance Framework (or equivalent) outcome</i> | <i>UNICEF Strategic Plan, 2018–2021 outcome</i> | <i>Criteria used for selection</i> | <i>Intended use of evaluation findings</i> | <i>Expected start date</i> | <i>Anticipated cost and provisional source of funding (regular resources (RR), or other resources (OR)) in United States dollars</i> |
|---|---|--|--|--|----------------------------|--|
| Evaluation of the child survival and development component of the Benin-UNICEF country programme of cooperation, 2014–2018. | UNDAF outcome 2: By 2023, people, and especially the most vulnerable, make greater use of high-quality basic social services comprising universal health coverage, inclusive and comprehensive basic education, protection against all forms of violence and abuse, and equitable and sustainable access to drinking water, hygiene and basic sanitation. | Girls and boys, especially those who are marginalized or living in emergency humanitarian situations, have access to high-impact health, nutrition, HIV and early childhood development interventions from birth to adolescence. | Extended programme implementation periods not evaluated. | The evaluation findings will be used to assess how the child survival and development component has contributed towards the infant and child mortality reduction targets, with a view to adjusting strategies where necessary. | 2020 | RR: 300 000 |
| Evaluation of the chronic malnutrition reduction strategy. | UNDAF outcome 1: By 2023, people, and especially the most vulnerable, live in a prosperous, resilient economy and have improved their standard of living through access to decent work, food and nutrition security, clean, efficient, low-cost energy, and sustainable production factors, and through responsible and sustainable management of natural resources, the adverse effects of climate change, crises and disasters. | Girls and boys, especially those who are marginalized or living in emergency humanitarian situations, have access to high-impact health, nutrition, HIV and early childhood development interventions from birth to adolescence. | Programme component with expenditure of \$10 million. | The evaluation findings will be used to measure progress on reducing malnutrition, and to inform decision-making where necessary. | 2023 | OR: 200 000 |
| Evaluation of the basic education component, 2019–2023. | UNDAF outcome 2: By 2023, people, and especially the most vulnerable, make greater use of high-quality | Girls and boys, especially the most marginalized or those most affected by emergency humanitarian | Programme replication or scale-up. | The evaluation findings will be used to measure progress towards | 2021 | RR: 200 000 |
