

Mid Term Review of the Strategic Plan 2014-2017 Revision of the Results Framework¹

Draft as of February 1, 2016

- **Green** cells: wording of indicator has been modified for ease of data collection
- **Blue** cells: baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results
- **Pink** cells: indicator has been added to strengthen the Theory of Change or dropped due to lack of reliable data
- * indicates data provided for missing targets labelled "TBD"

¹ This version of the Results Framework reflects changes to baselines and indicator wording that were endorsed by the Executive Board in March 2015, and subsequently presented in the Executive Director's Annual Report and the Data Companion for consideration at the Annual Session of the Executive Board in June 2015.

Impact: Realizing the rights of every child, especially the most disadvantaged			
Impact indicators	Baseline	Target	Disaggregation
1: Health			
1a. Under-five mortality rate (as pledged in A Promise Renewed)	47 per 1,000 live births (2012)	43 per 1,000 live births (2017) 15 (2035) (global average) 20 (2035) (maximum at country level)	M/F
1b. Neonatal mortality rate	21 per 1,000 live births (2012)	17 per 1,000 live births (2017) 7 (2035)	M/F
2: HIV and AIDS			
2a. Number of new HIV infections among children under 15 years (2012 United Nations General Assembly Political Declaration on HIV/AIDS)	280,000 (2012)	93,000 (2017) 40,000 (2015)	NA
2b. Percentage of children under 15 years living with HIV receiving antiretroviral therapy ²	23% (2012)	50% (2017) 90% by 2015	NA
3: Water, sanitation and hygiene			
3a. Proportion of population practising open defecation	15% (2011)	10%	U/R
3b. Proportion of population using an improved source of drinking water	89% (2011)	93% 92%	U/R
4: Nutrition			
4a. Number of children under 5 years who are moderately and severely stunted	169 million (2010)	approx. 100 million (2025) approx. 100 million (2022)	U/R, WQ

² Based on Global Plan for 22 EMTCT Priority Countries.

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Impact: Realizing the rights of every child, especially the most disadvantaged			
4b. Percentage of women of reproductive age with anaemia	38% pregnant, 29% non-pregnant (1995-2011)	50% reduction of anaemia in women of reproductive age*	NA
5: Education			
5a. Number of primary school-age children out of school and related gender parity index (GPI)	T= 57.8 million F = 30.5 million M = 27.3 million GPI = 0.89 (2012)	T= 35.6 million F = 17.8 million M = 17.8 million GPI = 1.00 (2017) ∅ 1.0 (2015)	M/F
5b. Primary completion rate (expressed as Gross Intake Ratio in the last grade of primary) and related GPI	T = 92% F = 91% M = 93% GPI = 0.98 (2012)	T = 98% F = 98% M = 98% GPI = 1.00 (2017) 100% 1.0 (2015)	M/F

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Impact: Realizing the rights of every child, especially the most disadvantaged			
6: Child protection			
6a. Number of violent deaths per 100,000 children ³	2.0 Male 1.9 Female	Awaiting data from WHO*	NA
6b. Percentage of women 20-24 who were married or in a union by age 18	34% (2005-2012) ⁴	24%*	NA
6c. Percentage of children under five whose birth is registered#	65% (2005-2012)	75%*	U/R, WQ
7: Social inclusion			
7a. Countries ⁵ where social protection systems have a positive impact on children's well-being	35	53	NA
7b. Countries that have ratified the Convention on the Rights of the Child and its Optional Protocols, the Convention on the Elimination of All Forms of Discrimination against Women and the Convention on the Rights of Persons with Disabilities	CRC – 190 CRC OP1 – 153 CRC OP2 – 165 CRC OP3 – 10 CEDAW – 186 CRPD – 141	CRC – 197 CRC OP1: 175 CRC OP2: 165 CRC OP3: 24 CEDAW – 193 CRPD – 169 193	NA
7c. Number of children living in extreme poverty	550 million (2010)	447 million	NA

³ Baseline and target are being computed with data from a new source (WHO) to improve quality of reporting.

⁴ Excludes China.

⁵ Unless otherwise specified, the term “countries” in this results framework refers to countries with which UNICEF cooperates in pursuit of a particular output or to whose efforts UNICEF is contributing in pursuit of a particular outcome or impact.

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Outcome 1: Health

Outcome indicators	Baseline	Target^	Source	Disaggregation
P1. Outcome: Improved and equitable use of high-impact maternal and child health interventions from pregnancy to adolescence and promotion of healthy behaviours.				
P1.1 Countries with at least 80% of live births attended by a skilled health personnel (doctor, nurse, midwife or auxiliary midwife)	51 (2010-latest)	At least 60	GD	U/R; Age and WQ where feasible for country monitoring
P1.2 Countries with at least 80% of women attended at least four times during their pregnancy by any provider (skilled or unskilled) for reasons related to the pregnancy	18 (2010- latest)	At least 25	GD	U/R; Age and WQ where feasible for country monitoring
P1.3 Countries that are verified/validated as having eliminated maternal and neonatal tetanus	34	54	GD	NA
P1.4 Polio-endemic or newly infected countries that become polio-free	Endemic countries: 3 Re-infected countries:5 (as of 1 January 2014)	All Polio-endemic and newly infected countries	GD	NA
P1.5 Countries with at least 90% coverage at national level, at least 80% coverage in every district or equivalent administrative unit for children < 1 year receiving (a) measles-containing vaccine, (b) DTP containing vaccine# <i>(Number and percentage of children immunized with measles in humanitarian situations will be reported separately)</i>	Measles: i. 131 ii. 60 DTP: i. 135 ii. 63	157	GD	M/F; U/R; and WQ where feasible for country monitoring
P1.6 Countries with at least 80% of children aged 0-59 months with diarrhoea receiving ORS	0	20	GD	
P1.7 Countries with at least 80% of children aged 0-59 months with symptoms of pneumonia taken to an appropriate health provider	7 (2010-latest)	20	GD	M/F; U/R; and WQ where feasible

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Outcome indicators	Baseline	Target^	Source	Disaggregation
P1.8 Countries with at least 80% of children aged 0-59 months with fever who had a finger- or heel-stick for malaria testing	0 (2010-latest)	15	GD	M/F; U/R; and WQ where feasible
P1.9 Malaria-endemic countries with at least 80% of children aged 0-59 months sleeping under an insecticide-treated net	0 (2010-latest)	25	CO	M/F; U/R; and WQ where feasible
P1.10 Countries with at least 60% of a) mothers and b) newborns receiving postnatal care within two days of childbirth	(a) 16 out of 51 UNICEF programme countries with data (2010-2014) (b) 20 out of 57 UNICEF programme countries with data (2010-2014)	(a) 25 (b) 25	GD	NA

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
Output a: Enhanced support for children and caregivers, from pregnancy to adolescence, for improved healthy behaviours						
P1.a.1 Countries in which a MNCH communication plan has been developed, budgeted and implemented	16	44	46	48	CO	NA
P1.a.2 Polio-affected countries with less than 1% of children under 5 years missing polio vaccination due to refusal	12 (2014)	23	35	45 3	CO	NA
Output b: Increased national capacity to provide access to essential high-impact maternal and child health interventions						
P1.b.1 Countries without stockouts lasting more than one month at national level for ORS	117	120	126	132 157	CO	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
P1.b.2 Countries without stockouts lasting more than one month at national level of (a) DTP containing vaccine; (b) measles vaccine	a) 148 b) 142	a) 148 b) 145	b) 148 b) 145	a) 148 * b) 145*	GD	NA
P1.b.3 Countries in which the target number of community health workers are trained to implement integrated community case management#	22	24	30	40	CO	NA
P1.b.4 Countries with 100% of BEmONC facilities are operational on 24/7 basis	35 (2014)	41	47	54	CO	NA
P1.b.5 Countries where 80% of women of reproductive age in high risk areas receive 2 doses of tetanus vaccine through campaigns	25% (2014)	100%	100%	100%	CO	NA
P1.b.6 Malaria endemic countries in which target number of health workers in UNICEF supported programmes are trained in rapid diagnostic testing (RDT) for malaria in children	5 (2014)	6	8	10	CO	NA
P1.b.7 Polio priority countries (endemic, outbreak, other) where planned Supplemental Implementation Activities (SIAs) were cancelled, postponed or reduced in size, during the previous 6 months due to gaps in vaccine supply	2 (2014)	1	1	0	CO	NA
Output c: Strengthened political commitment, accountability and national capacity to legislate, plan and budget for scaling up of health interventions						
P1.c.1 Countries in which barriers and bottlenecks related to child survival are monitored in at least 80% of DHSS targeted districts	9	24	32	40*	CO	NA
P1.c.2 Countries in which all relevant (out of the 13) essential commodities are a) registered and b) with guidelines for use in facilities and communities	a) 45 b) 45 (2014)	a) 49 b) 46	a) 53 b) 47	a) 57 100 b) 49 80	CO	NA
P1.c.3 Countries in which a policy for community health workers to provide antibiotics for pneumonia is in place	66	72	86	100	CO	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
P1.c.4 Countries with costed implementation plans for maternal, newborn and child health care	52	66	70	75*	CO	NA
P1.c.5 Countries in which a policy for home visits of newborns is developed and/or revised, adopted and in use	68 (2014)	72	76	80*	CO	NA
P1.c.6 Countries that have mainstreamed risk reduction/resilience, inclusive of climate change into national health strategies and plans	27	36	38	40 60	CO	NA
P1.c.7 Countries for which a policy on Focused Antenatal Care has been developed, adopted and implemented	99 (2014)	106	113	120	CO	NA
Output d: Increased country capacity and delivery of services to prevent excess mortality among girls, boys and women in humanitarian situations						
P1.d.1 Cholera-endemic (or at risk for cholera) countries with comprehensive multi-sectoral cholera preparedness plans	26 (2014)	30	35	40	CO	NA
P1.d.2 UNICEF-targeted children 6-59 months (or 6 months to 15 years in affected areas) in humanitarian situations vaccinated against measles	70%	6-59 months: 83% 6 months to 15 years: 79%	6-59 months: 89% 6 months to 15 years: 87%	6-59 months: 95% 6 months to 15 years: 95%	CO	M/F where feasible
P1.d.3 UNICEF-targeted families in humanitarian situations that receive two insecticide-treated nets in malaria-endemic areas	30%	84%	92%	100%	CO	NA
Output e: Increased capacity of governments and partners, as duty-bearers, to identify and respond to key human rights and gender equality dimensions of maternal and child health						
P1.e.1 Countries that have plans with budgets allocated to reduce adolescent pregnancy	83 (2014)	86	89	93*	CO	NA
P1.e.2 Countries that produce an analysis of sex-differentiated infant and child mortality estimates	42 (2014)	48	55	62	CO	NA
Output f: Enhanced global and regional capacity to accelerate progress in child health						
P1.f.1 Peer-reviewed journal or research publications by UNICEF on maternal, newborn, child or adolescent health	40 (2014)	41	43	45	CO, RO and HQ	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target[^]	Source	Disaggregation
P1.f.2 Countries that have conducted a launch of A Promise Renewed followed by annual review	59 (2014)	62	66	69*	CO	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Outcome 2: HIV and AIDS

Outcome indicators	Baseline	Target [^]	Source	Disaggregation
P2. Outcome: Improved and equitable use of proven HIV prevention and treatment interventions by children, pregnant women and adolescents				
P2.1 Countries with at least 80% coverage of antiretroviral treatment (ART) among all children aged 0-14 years and adolescent girls and boys aged 10-19 years living with HIV	0-14 years old: 0 (2012) 10-19 years old: data not available (2012)	9 UNAIDS priority countries 38 UNAIDS priority countries	GD	M/F and age where feasible
P2.2 Countries providing at least 80% coverage of lifelong ART for all pregnant women living with HIV	1 (2012)	9 Global Plan for EMTCT priority countries 22 Global Plan for EMTCT priority countries	GD	Age where feasible
P2.3 Countries where at least 50% of the overall HIV and AIDS spending is funded through domestic resources	32% (2010-2014)	40% 144	UNAIDS global report	NA
P2.4 Countries with at least a 60% coverage in condom use at last sexual encounter among adolescents aged 15-19 years reporting multiple partners in last year, disaggregated by sex	Males: 10 out of 14 Females: 1 of 13	38 UNAIDS priority countries	GD	M/F; U/R; WQ where feasible

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target [^]	Source	Disaggregation
Output a: Enhanced support for children and caregivers for healthy behaviours related to HIV and AIDS and to use of relevant services, consistent with UNAIDS Unified Budget, Results and Accountability Framework						
P2.a.1 Countries that have comprehensive behaviour change communication strategies for	19	20	30	38	CO	N/A

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
adolescents and youth including those from key populations						
P2.a.2 Countries with at least 80% of adolescents aged 10-19 years have comprehensive knowledge about HIV and AIDS	0	2	3	6 38	GD	M/F
Output b: Increased national capacity to provide access to essential service delivery systems for scaling up HIV interventions						
P2.b.1 Countries with at least 80% of eligible adolescents 10-19 years receiving voluntary male medical circumcision	0	2	9	16	CO	NA
P2.b.2 Countries with at least 80% of antenatal care settings/facilities in targeted areas offering ART	9	12	17	22	CO	NA
P2.b.3 Countries implementing task-shifting or -sharing for non-physician health care providers to provide ART	10	20	21	22	CO	NA
P2.b.4 Countries where at least 50% of facilities in targeted areas offer provider-initiated testing and counseling to children aged 0-19 years	20 (2014)	26	32	38	CO	NA
P2.b.5 Countries where 80% of health facilities are providing paediatric ART	9 (2014)	13	17	22	CO	NA
Output c: Strengthened political commitment, accountability and national capacity to legislate, plan and budget to scale up HIV and AIDS prevention and treatment interventions						
P2.c.1 Countries reporting age- and sex-disaggregated data on HIV testing and counselling among adolescents 10-19 years and by sex	18	29	33	38	GD	NA
P2.c.2 Countries with national HIV/AIDS strategies that include proven high-impact evidence-based interventions to address HIV among adolescents	26 (2014)	30	34	38	CO	Age
P2.c.3 Countries with national policies to implement sexuality or life skills-based HIV education in upper primary schools	28	34	36	38	CO	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
P2.c.4 Countries with either a national child protection strategy or a national social protection strategy that includes elements focused on HIV	22	28	33	38	CO	NA
Output d: Increased country capacity and delivery of services to ensure vulnerability to HIV infection is not increased and HIV-related care, support and treatment needs are met in humanitarian situations						
P2.d.1 HIV-positive pregnant women (out of those targeted by UNICEF) in humanitarian situations who receive treatment (either initiated or continuing) to prevent mother-to-child-transmission of HIV	54%	60%	70%	80%	CO	NA
P2.d.2 HIV positive children (out of those targeted by UNICEF) in humanitarian situations who receive ART	34%	46%	60%	80%	CO	M/F
Output e: Increased capacity of governments and partners, as duty-bearers, to identify and respond to key human rights and gender equality dimensions of HIV and AIDS						
P2.e.1 Countries with national household survey based data on HIV disaggregated by age and sex collected within the preceding 5 years	18	23	30	38	GD	NA
P2.e.2 Countries that have undertaken a gender review of the HIV policy/strategy of the current national development plan with UNICEF support	18	20	25	38	CO	NA
Output f: Enhanced global and regional capacity to accelerate progress in HIV and AIDS						
P2.f.1 Peer reviewed journal or research publications by UNICEF on HIV and AIDS	17 (2014)	18	19	20	CO, RO and HQ	NA
P2.f.2 Key global and regional HIV/AIDS initiatives in which UNICEF is a co-chair or provides coordination support	6	6	6	6	HQ	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Outcome 3: Water, sanitation and hygiene

Outcome indicators	Baseline	Target^	Source	Disaggregation
P3. Outcome: Improved and equitable use of safe drinking water, sanitation, and improved hygiene practices				
P3.1 Countries in which more than 75% of households have an improved source of drinking water#	115 (2011)	131 125	GD	U/R
P3.2 Countries in which more than 50% of the population has an improved sanitation facility	105 (2011)	120 137	GD	U/R
P3.3 Countries in which more than 50% of primary schools have WASH facilities meeting national standards	26 (2014)	100 137	CO	U/R
P3.4 Countries in which proportion of households with handwashing with soap and water has increased by 10%	Out of 51 countries with data (2014)	23 20	GD	U/R
P3.5 Countries in which more than 33% of the population practises open defecation#	21 (2011)	8 15	GD	NA
P3.6 People in humanitarian situations who access and use (a) safe drinking water, (b) adequate sanitation and hygiene facilities, (c) handwashing facilities	(a) 74% (b) 56% (c) 53% (2014)	80%	CO	M/F where feasible

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
Output a: Enhanced support for children and families leading to sustained use of safe drinking water, adoption of adequate sanitation and good hygiene practices						
P3.a.1 Countries implementing community-based hand-washing behaviour change communication programmes on a national scale	53 (2014)	79	82	86	CO	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
P3.a.2 Countries implementing water safety plans at community level	35 (2014)	50	60	65	CO	NA
Output b: Increased national capacity to provide access to sustainable safe drinking water and adequate sanitation						
P3.b.1 Countries with an established target to provide access to drinking water to unserved populations	74	80	90	100	CO	NA
P3.b.2 Countries implementing a national strategy to eliminate open defecation	45 (2014)	50	55	57 35	CO	NA
P3.b.3 Countries with at least 50% of primary schools having access to adequate sanitation facilities for girls	32 (2014)	50	60	65	CO	NA
Output c: Strengthened political commitment, accountability and national capacity to legislate, plan and budget for scaling-up of interventions to promote safe drinking water, adequate sanitation and good hygiene practices						
P3.c.1 Countries implementing a “sustainability compact” or sustainability plan for WASH with evidence of continuous monitoring	5	9	12	15	CO	NA
P3.c.2 Countries integrating climate resilient development and/or risk management strategies into WASH sector plans	55 (2014)	60	63	65 57	CO	NA
P3.c.3 Countries with a an annual budget for basic sanitation that is at least 0.5% of GDP	2 (2010)			10	CO	NA
Output d: Increased country capacity and delivery of services to ensure girls, boys and women have protected and reliable access to sufficient safe water, sanitation and hygiene facilities in humanitarian situations						
P3.d.1 UNICEF-targeted population in humanitarian situations (a) accessing sufficient quantity of water of appropriate quality for drinking, cooking and personal hygiene; (b) using appropriate sanitation facilities and living in environments free of open defecation; (c) able to practice appropriate handwashing and menstrual	(a) 92% (b) 56% (c) 62% (d) 76% (2014)	(a) 100% (b) 70% (c) 70% (d) 80%	(a) 100% (b) 80% (c) 80% (d) 85%	(a) 100% (b) 90% (c) 90% (d) 90% 80% of UNICEF	CO	M/F where feasible

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
hygiene; (d) accessing appropriate WASH facilities and hygiene education in schools, temporary learning spaces and other child-friendly space				targeted population		
P3.d.2 Countries in humanitarian action where country cluster coordination mechanism for WASH meet CCC standards for coordination	57% (2014)	100%	100%	100%	HQ	NA
Output e: Increased capacity of governments and partners, as duty-bearers, to identify and respond to key human rights and gender equality dimensions of water, sanitation and hygiene practices						
P3.e.1 Countries with national monitoring systems reporting on equity of access to WASH services	37 (2014)	40	43	47 43	CO	NA
P3.e.2 Countries implementing menstrual hygiene management in WASH in schools programmes	22 (2014)	40	43	48 50	CO	NA
Output f: Enhanced global and regional capacity to accelerate progress in safe water, sanitation and hygiene practices						
P3.f.1 Peer reviewed journal or research publications by UNICEF on WASH and children	23 (2014)	32	32	32 &	CO, RO and HQ	NA
P3.f.2 Key global and regional WASH initiatives in which UNICEF is the co-chair or provides coordination support	5	5	5	5	HQ	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF’s contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Outcome 4: Nutrition

Outcome indicators	Baseline	Target^	Source	Disaggregation
P4. Outcome: Improved and equitable use of nutritional support and improved nutrition and care practices				
P4.1 Countries with a current exclusive breastfeeding rate among children 0-5 months old $\geq 50\%$ and no recent significant decline	27 (2007-2013)	40	GD	NA
P4.2 Countries with at least 90% of households consuming iodized salt	Updated baseline is being calculated	25 40	GD	NA
P4.3 Countries with at least 80% of primary caregivers engaged in early childhood stimulation for 3-5 years olds (36-59 months) at home.	16 (2005-2013)	30 50	GD	M/F
P4.4 Children 6-59 months covered with 2 annual dosages of vitamin A supplements' in vitamin A priority countries#	68% (2011)	80% 44	GD	NA
P4.5 Children between 6-59 months affected by SAM reached with quality treatment, defined as children who recovered#	2.7million admissions (2012) 85% recovered (2012)	Admissions: 4 million Recovered: 75%	GD	M/F where feasible

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
Output a: Enhanced support for children and caregivers and communities for improved nutrition and care practices.						
P4.a.1 Countries with capacities to provide infant and young child feeding counselling services to at least 70% of communities	14	27	34	40	CO	NA
Output b: Increased national capacity to provide access to nutrition interventions						
P4.b.1 Countries with sufficient supply to provide two annual doses of Vitamin A supplements to all children aged 6-59 months	72 (2012)	77	80	82	CO	M/F where feasible

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target [^]	Source	Disaggregation
Output c: Strengthened political commitment, accountability and national capacity to legislate, plan and budget for scaling-up nutrition interventions						
P4.c.1 Countries where the International Code on Marketing of Breastmilk substitutes is adopted as legislation	64	75	80	85 72	HQ	NA
P4.c.2 Countries with a policy or plan targeting anaemia reduction in women and girls	Women: 70 Girls: 27	Women: 85 Girls: 39	Women: 93 Girls: 44	Women: 100 Girls: 50	CO	NA
P4.c.3 Countries that have a nutrition sector plan or policy developed or revised that includes a risk management strategy to address disaster/ crisis risks (e.g. natural disaster/climate/conflict)	50	60	65	70	CO	NA
P4.c.4 Countries with a national iodine deficiencies disorder (IDD) coordination body that was functioning effectively over the previous year	19	35	40	45	CO	NA
P4.c.5 Countries that have legislation to mandate fortification of at least one industrially milled cereal grain	79 (2014)	83	87	90	HQ	NA
Output d: Increased country capacity and delivery of services to ensure protection of the nutritional status of girls, boys and women from effects of humanitarian situations						
P4.d.1 UNICEF-targeted children aged 6-59 months with severe acute malnutrition in humanitarian situations are admitted to programmes for management of acute malnutrition and recover	Admission 81% Recovery rate 74% (2014)	Admission 85% Recovery rate > 75%	Admission 90% Recovery rate > 75%	Admission 95% Recovery rate > 75% ⁶	CO	M/F where feasible
P4.d.2 Countries in humanitarian action where country cluster coordination mechanism for Nutrition meet CCC standards for coordination	100% (2014)	100%	100%	100%	HQ	NA
P4.d.3 UNICEF-targeted caregivers of children aged 0-23 months in humanitarian situations who are accessing infant and young child feeding	45% (2014)	48%	51%	55%*	CO	M/F where feasible

⁶ This is a globally agreed upon recovery rate in humanitarian settings (SPHERE).

Outcome 7: Social inclusion

Outcome indicators	Baseline	Target^	Source	Disaggregation
Outcome: Improved policy environment and systems for disadvantaged and excluded children, guided by improved knowledge and data				
P7.1 Countries with disaggregated national household survey data on birth registration collected within the preceding 5 years (such as MICS, DHS, etc.)	80	90	CO	NA
P7.1 Countries that expand the number of children covered by social protection systems#	37 (2014)	52	CO	NA
P7.2 Countries with improved capacity to develop, implement and finance integrated social protection systems	32	50 60	CO	NA
P7.3 Countries in which social spending on a per capita basis is being maintained or increasing	24	50	CO	NA
P7.5 Countries in humanitarian situations that systematically consult affected populations as part of humanitarian interventions	59 (2014)	NA	CO	NA

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
Output a: Enhanced support for disadvantaged and marginalized children and families to use social protection systems and participate in decision-making processes affecting them						
P7.a.1 Countries with functional mechanism for participation of children to influence development agendas in the local, subnational or national plans that affect the most disadvantaged and marginalized	92 (2014)	94	97	102 47	CO	NA
Output b: Increased national capacity to provide access to inclusive systems that protect children and adolescents from poverty and promote social inclusion						
P7.b.1 Countries that track effectiveness of social protection on at least one child outcome	35	50	55	60 78	CO	NA

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
P7.b.2 Countries with large urban populations (of 1 million or more) that produce and utilize disaggregated data on the most excluded (e.g., urban poor/slums)	53 (2014)	58	63	68*	CO	NA
P7.b.3 Young children that have access to affordable (free or subsidized or reasonably priced and accessible to low-income families) quality child care	25% (2014)	26%	28%	30%	CO	NA
Output c: Strengthened political commitment, accountability and national capacity to legislate, plan and budget for inclusive social policies and social protection measures, including in risk-prone and fragile contexts						
P7.c.1 Countries with policy and/or budgetary frameworks that explicitly address child poverty and disparities	15 (2014)	30	45	60	CO	NA
P7.c.2 Countries that incorporate children's rights in the policy discourse on environmental sustainability, including climate change	34 (2014)	38	44	50 40	CO	NA
Output d: Improved country capacity and national systems to promote resilience and strengthen response to humanitarian situations						
P7.d.1 UNICEF country offices having undertaken minimum preparedness actions in the past 12 months	76 % ⁷ (2014)	75%	80%	100%	CO	NA
P7.d.2 Countries in humanitarian situations with systems to monitor UNICEF humanitarian results	97% ⁸ (2014)	98%	100%	100%	CO	NA
P7.d.3 Countries with planning and monitoring systems that explicitly address risks (a) at national level; and (b) at subnational level	a) 64% b) 43% (2014)	a) 66% b) 45%	a) 69% b) 47%	a) 74% b) 51% 100%	CO	NA

⁷ Number of Country Offices having undertaken minimum preparedness actions in compliance with UNICEF guidance on emergency preparedness for response and reported in on-line reporting systems. Guidance and the on-line system are under review, to be tested and rolled out through 2016. Baselines are adjusted in line with initial assessment against new guidance.

⁸ Percentages of Country Offices with standalone appeals in the Humanitarian Action for Children 2014 who reported results per programme targets during the year

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Output indicators	Baseline	2015 Milestone	2016 Milestone	2017 Target^	Source	Disaggregation
P7.d.4 Countries (a) in which humanitarian action has contributed to the development of social protection programmes/systems or (b) in which UNICEF-supported social protection programming has contributed to humanitarian action responses	a) 45% b) 31% (2014)	a) 46% b) 33%	a) 48% b) 36%	a) 50% b) 40%	CO	NA
Output e: Increased capacity of governments and partners, as duty-bearers, to identify and respond to key human rights and gender equality dimensions of social inclusion						
P7.e.1 Countries that have revised domestic legislation and administrative guidance in line with the concluding observations of the i) CRC, ii) CEDAW and iii) CRPD committees	i) 74 ii) 55 iii) 23	i) 115 ii) 90 iii) 55	i) 130 ii) 100 iii) 65	i) 157 ii) 110 iii) 72 157	CO	NA
P7.e.2 Countries with national social protection strategy or plan that includes elements focused on gender	40 (2014)	42	45	50 60	CO	NA
Output f: Enhanced global and regional capacity to accelerate progress towards social inclusion						
P7.f.1 Peer-reviewed journal or research publications by UNICEF on social protection, social inclusion, social policy, child poverty, and human rights	16 (2014)	26	36	46*	CO, RO and HQ	NA
P7.f.2 Key global and regional social protection, social inclusion, social policy, child poverty and human rights initiatives in which UNICEF is the co-chair or provides coordination support	11	13	16	19	GD	NA
P7.f.3 Countries with disaggregated national household survey data on child-focused targets of the SDGs collected within the preceding 5 years (such as MICS, DHS, etc.)	Baseline being analyzed	Target being set	Target being set	Target being set	GD	NA

^The target corresponds to the number of countries where UNICEF provides support in the respective programme area.

Green cells – wording of indicator has been modified for ease of data collection;

Blue cells – baseline and/or target has been adjusted to reflect more recent data and/or application of stricter guidance on UNICEF's contribution to results;

Pink cells – indicator has been dropped if reliable data remains unavailable or has been added to strengthen the Theory of Change

Organizational effectiveness and efficiency

Result	Key performance indicator	Baseline	2015 Milestone	2016 Milestone	2017 Target	Source
Result: Higher quality programmes through results-based management
