## UNDAF OUTCOME 3: Quality Social Services -Results Matrix

**National Priority or Goal: Increased Access to Quality Social Services**

**Health and Nutrition Thematic Paper for the NDP, key priorities:**

- Promote health and prevent disease;
- Strengthen health systems;
- Focus on programs of national interest: reproductive health and child survival, HIV and AIDS, malaria and nutrition.

**Education Sector Goal:**

- Expanded and Equitable access
- Enhanced Education quality
- Enhanced effectiveness and efficiency in education delivery

**WASH priorities from Water and Sanitation sub-sector Working Paper:**

- Provision of Sustainable Safe Water Supply and Sanitation facilities, including hygienic use in rural areas
- Provision of Viable Urban Water Supply and Sewerage/Sanitation Systems for domestic, industrial and commercial uses
- Provision and effective use of Water for Production (agricultural production including crop irrigation, livestock and aquaculture; rural industries; hydropower; wildlife and tourism):
- Integrated and Sustainable Water Resources Management
- Healthy living conditions for all Ugandans living in both rural and urban areas:
- Effective Planning, Coordination and Management of the Water and Sanitation Sector

**HIV/AIDS NDP issues paper**

- To accelerate the prevention of transmission of HIV through established as well as new and innovative strategies
- Infrastructure development for equitable and timely access to HIV and AIDS services including ART by those in need and prevention and treatment of opportunistic infections
- Support to OVC, affected families and other vulnerable populations including access to formal and informal education, vocational and life-skills development, access to basic entitlements and appropriate legal, social and community safety nets
- Enhance livelihoods and economic empowerment of affected communities and households.
- Effective coordination and management of the response at various levels including mobilization of adequate resources and streamlined management for efficient utilization
- Collection, analysis, use and provision of information to enable tracking the epidemic and the response

**Social Development Working Paper for the NDP**

- Input national priorities for social protection

**UNDAF Outcome 3 Due by 2014:**

**Draft 8 JUNE 2009 (DOCUMENT STILL UNDER REVISION AND SUBJECT TO CHANGES)**

*Vulnerable populations in Uganda, especially in the north, have increased access to and use of sustainable and quality social services including social protection interventions, by 2014.*

**Definition of terms:**

'Social Services' refer to the preventive, promotive and curative components of the six key areas under the UN Basic Social services Act for all including: (1) population services, with special emphasis on reproductive health and family planning services, (2) primary health care, (3) nutrition services, (4) basic education, (5) drinking water and sanitation and (6) shelter as well as (7) the national response to HIV and AIDS.

**Social Protection:**

Social protection is a set of interventions whose objective is to reduce social and economic risk and vulnerability, and to alleviate extreme poverty and deprivation. Social protection should not be reduced to one particular intervention, but instead, a comprehensive social protection system should include the now familiar four broad sets of interventions:

- Protective programs that offer relief from economic and social deprivation, including alleviation of chronic and extreme poverty.
- Preventive programs that are designed to avert deprivation or to mitigate the impact of an adverse shock;
- Promotive programs which enhance assets, human capital and income earning capacity among the poor and marginalized;
- Transformative interventions which address power imbalances that create or sustain economic inequality and social exclusion

The 'north' shall include all districts under the PRDP, currently 41 districts

**Strategy Statement:** Strategies to implement outcome 3 include: capacity development, systems strengthening for improving quality and efficiency, communication for development and behaviour change, evidence based policy development, and knowledge generation and advocacy

**Related MD section and MDG:** All MDGs apply

*MDG 1: End Poverty and Hunger*

*MDG 2: Universal Primary Education*

*MDG 3: Gender Equality and Empowerment of Women*

*MDG 4: Child Mortality*

*MDG 5: Maternal Health*

*MDG 6: HIV/ AIDS, Malaria and other diseases*

*MDG 7: Environmental Sustainability*

*MDG 8: Develop a Global partnership for Development*

While this outcome area is inclusive of all MDG priorities, given that this UNDAF is instrumental in the countdown to 2015 special emphasis is required to achieve MDG 4, 5, and 7 – especially with regard to the poor access to sanitation services and MDG 3 - low gender parity in primary education. Uganda is significantly off –track.in meeting Millenium Development Goal targets 3,4,5,7, in addition to the recognized regional disparities in meeting overall MDG targets.

**Draft 8 JUNE 2009 (DOCUMENT STILL UNDER REVISION AND SUBJECT TO CHANGES)**
