**Highlights**

- From January to 11 June 2014, Guinea has recorded a total of 389 suspected cases of Ebola virus disease with 241 deaths -- a case fatality rate of 63%. Ebola confirmed cases and deaths have risen to 244 and 138, respectively.
- Since May 31st we have seen a 19% increase in cumulative cases (suspected and confirmed).
- UNICEF and our partners have sensitized 3,114,392 people in the affected areas in Guinea and is continuing the campaign.
- 48 children under 15 are among the suspected cases;
- UNICEF has procured and/or distributed 1,143,450 bars of soaps, 483,600 bottles of chlorine, 260 megaphones and 510 sprayers.
- UNICEF has received a total of US$ $1,579,038 (US$ 523,602 from Japan Government, US$ 200,000 form OFDA/USAID, US$ 100,000 from Japan Natcom, $250,000 from GAC and US$ 505,436 from CERF)
- Many children have lost one or two of their parents to the Ebola Virus Disease. UNICEF has undertaken a mapping to identify these children and has been providing assistance to some of them in collaboration with WFP and the Government.
