Violence continues to precipitate displacement across central and north Iraq. IDP movements remain dynamic and ongoing assessments indicate that displaced families continue to move, often on a daily basis. IDP settlements appear to be unorganized and some individuals reportedly conceal their displacement status, which makes it challenging to establish needs. Khazir check-point, a main entry gate into the KR-I has been closed today due to security concerns.

Violence in Telafar has displaced approximately 5,000 IDP families to Zimmar (north-west Dohuk). An additional 3,000 families have arrived in Sinjar. Both settlements are located in what are considered Internally Disputed Boundary areas where access is limited. Fighting in Tikrit and Salahadin resulted in displacement of an estimated 1,500 additional families. Field reports suggest that some IDPs are returning to Anbar. In Diyala, fighting has been reported in rural areas (Muqdadiya and Utheim).

Field reports indicate displacement in the south. Approximately 34 families have arrived in Missan (five from Babil, four from Diyala, six from Salahdeean, 14 from Ninava, five from Al Anbar), 58 in Al-Qadisiya (28 from Kirkuk, 25 from Ninava) and 31 in Al Najaf (23 from Ninava, seven from Salah Al-Deen, one from Kirkuk).

Site planning in Khazar Camp is expected to conclude on Wednesday and will include space for the provision of services to children, including child friendly spaces, indoor recreation facilities, schools and baby huts. Government authorities took rapid action to deal with an unexploded ordnance that was found at the site today.

Three new IDP camps are planned for Dohuk Govenorate: South of Badria checkpoint (no size estimate available) near Sahela (near the border with Syria, no size estimate available), and one in Sheikh (40,000 sq km, which will host approx. 10,000 people, 35km from Dohuk city). Site preparation is underway and UNHCR has mobilized 1,000 tents and 1,000 core relief items (CRIs) for this location.

UNICEF met with government representatives from Garmyan province & Sulaymaniyah Governorate and concluded the following:

Kurdish authorities report 1,325 IDP families (6,625 persons) in the Garmyan area, including 325 on the outskirts of Kalar and approximately 1,000 on the outskirts of Khanaqin. The government is considering the possibility of establishing a camp in Qorato (27 km north of Khanaqin). A request for relief items has been made, especially for water.
UNICEF
In coordination with IOM and WFP
distributed in Kalakchi

15-16 June 2014

350 HYGIENE KITS
ONE PER FAMILY

700 JERRY CANS
TWO PER FAMILY

15 HANDBALLS
FOR CHILDREN TO USE IN THE COMMUNAL AREAS

30 SKIPPING ROPES
FOR CHILDREN TO USE IN THE COMMUNAL AREAS
PROGRAMME UPDATE

HEALTH AND NUTRITION

The Ninewa EPI (Immunization) team succeeded in reaching the DOH vaccine store and confirmed that despite electricity interruptions which could have affected the integrity of the cold chain, all vaccines are intact. Reportedly, armed groups are preventing DOH staff from mobilizing any vaccine/medicines from the DOH warehouses for deployment to the areas of the disputed internal boundaries.

The second round of polio vaccination is ongoing, with the exception of some areas in Al-Qaim affected by the curfew. To date, the MoH with support from UNICEF has vaccinated a total of 439 children for polio and MMR at Shekhan entry point and Baadri camp.

WASH

UNICEF provided IDPs in Anbar with daily water trucking of 400,000 liters in Heet, Rutba, Habbaniyah, Qaim and Abu Ghraib. Garbage collection for 51,000 IDPs is ongoing in Rutba, Anah, Rawa, Haditha, Heet and Habbaniyah. UNICEF WASH supplies (hygiene, water kits and tanks) were successfully distributed to vulnerable families in Abo Ghraib.

As of 16 June, 1,600 IDPs were registered in Khazir camp. Six additional latrines were installed today. Each person is provided with 25 liters per day and water trucking will commence on 17 June.

EDUCATION

In Dohuk, three schools are occupied by IDPs: 100 families in Bapera Basic school (Alqush); 200 children in Bapera High school (Alqush); 200 children in Kani Sherren Basic School (Alqush).

CHILD PROTECTION

Leaflets on the Child Helpline are being translated into both Kurdish and Arabic to ensure IDP families and children have improved access to information. Sixty-one displaced children from Anbar participated in recreational activities organized by UNICEF Child Friendly Spaces in Khalidiya.
