---

**UNICEF response to date**

- All the 8 IDP camps in Maiduguri are providing Community-Based Management of Acute Malnutrition (CMAM) services and offered treatment to 1,207 children among the IDPs between November 2014 and January 2015. Similarly, 62 children were admitted into treatment sites in 4 IDP camps in Adamawa state in the month of January 2015.
- The psychosocial support programme, which has been running since September in Borno State, was scaled up to Adamawa in 2015 where it as reached 2,717 children. The programme will be implemented in Yobe from March.
- 3 States are supported to provide emergency integrated package of health services through health camps, strengthening primary health care service delivery and community mobilization.
- 20,549 IDPs provided with emergency health services in 5 IDP camps in Adamawa including immunization, antenatal and delivery services.
- 29,789 women and children benefited from high impact maternal, newborn and child health interventions in Yobe, Borno and Adamawa States.
- WASH Coordination meeting held with sector partners including NGOs in Adamawa state and joint assessment carried out in Adamawa IDPs camps by the WASH In Emergencies working group from 9-10th January 2015.
- At end of January 2015 among 31,717 school-aged IDP Learners profiled in Borno, Adamawa and Gombe states, 28,679 at primary school levels are currently accessing educational opportunities through the double shift school programme. A total of 1,692 displaced children have been enrolled at Junior Secondary school level of Basic Education. A total of 498 qualified teachers (364-Maiduguri, 81-Adamawa, and 25-Gombe) that are not on government payroll have been identified for deployment to support Education Supply in schools hosting the double shift programme. Through a new (Phase 3) assessment undertaken at the end of January under the Safe Schools Initiative an additional 7,656 children resident in IDP camps (in the 3 states) have been found to be out of school.
