## COLOURING BOOK

In June 2021, a team comprised of the Rebirth Embassy / Third Paradise Cuba, Galleria Continua Habana, and Cittadellarte - Fondazione Pistoletto, with the Resident Coordinator's Office of the United Nations System in Cuba, the United Nations International Children's Emergency Fund (UNICEF), and the United Nations Population Fund (UNFPA), launched an open call. Through the latter we invited artists and designers to submit "Illustrations for kids to color based on the themes of the UN's Sustainable Development Goals (SDG)". This project's main goal was to create a book for kids, teenagers and anyone who wants to color and learn about the 2030's Agenda for the Sustainable Development and its 17 goals, which aim at improving our planet.

The four-months open call encouraged artists, designers and our community in Cuba and abroad to submit their illustrations inspired by the SDGs and to imagine a more healthy and sustainable planet for the next generations. We received 92 illustrations. They were analyzed by a jury of experts from each organization that selected (not without some struggle) the 20 pieces that would be published in this book. The style of each illustration is different as it is influenced by the age, origin and background of each author. This provides the book with a unique visual heterogeneity that stems from the work of all the people that collaborated in it.

The selected illustrations will also be exhibited in "Arte al Centro", a project organized by and hosted in Cittadellarte - Fondazione Pistoletto (Biella, Italy). Moreover, starting from October, 2021, they can be downloaded from the websites of the Rebirth Embassy / Third Paradise Cuba, Galleria Continua, and Cittadellarte. In addition, they will be available on the Third Paradise Cuba's Educopedia, a collectively-created virtual database that gathers educational content and it is constantly updated.

From the Coordinators' team, we would like to thank all the participants and all those thanks to whom we have this book in our hands today. It will surely be the children who enjoy it the most, since it is for them that we created it.

## **DEDICATED TO THE LITTLE ONES**

### **HI KIDS!**

In this book you may find many illustrations to color however you want. They were drawn with love (and creativity) for you to have a great time filling them with colors and joy. Each of them was inspired by the world we aim to have by 2030 and the way we wish to achieve it. Everyone should do their part in order to make this planet a better place, including, of course, the kids. **Without further ado, let's get to it, learn and color!**
