

Access to formal education for refugee and migrant children residing in urban accommodation (apartments, shelters and hotels for UAC) - January 2020

73% of assessed refugee and migrant children 4-17 years old, residing in urban accommodation, are enrolled in formal school

Based on the percentage it is estimated that **6,650** children out of 9,100 children 4-17 years old living in apartments, shelters and hotels for UAC

Enrolment rate of children 4-17 years old in urban accommodation, per region

The assessment provides a snapshot of the enrolment situation of children 4-17 years old in urban accommodation, during January 2020. A total of **8,253** children out of **9,100** were assessed: 4,401 in Attica, 1,871 in Central Macedonia, 526 in Epirus, 448 in Thessaly, 357 in Crete, 286 in North Aegean, 187 in Central Greece, 55 in Eastern Macedonia and Thrace, 52 in South Aegean, 51 in Western Macedonia and 19 in Western Greece.

Limitations: not all urban accommodation-providers communicated requested information for this assessment, and therefore the number of enrolled children (6,650) is an estimation for operational purposes.

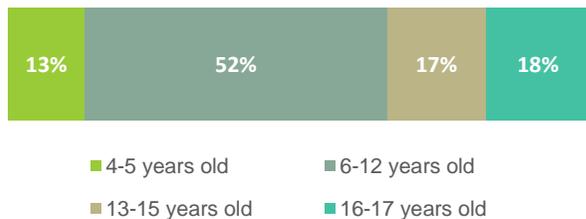

Findings are based on information for children living in apartments (7,108), in shelters for UAC (729) and in hotels for UAC (416). This snapshot does not contain information from mainland open accommodation sites, Reception and Identification Centers, other urban accommodation etc.

Access to formal education for refugee and migrant children residing in urban accommodation (apartments, shelters and hotels for UAC) - January 2020

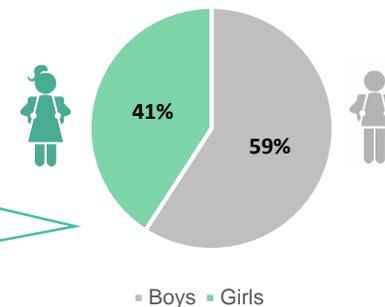

Age and sex (children 4-17 years old)

Age groups of enrolled children

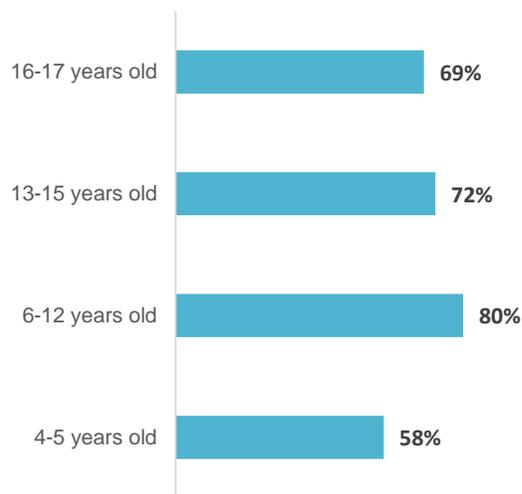

The percentage of enrolled boys and girls among all age groups is similar, indicating gender does not affect enrolment rates regardless of the age of the children

Sex of enrolled children 4-17 years old

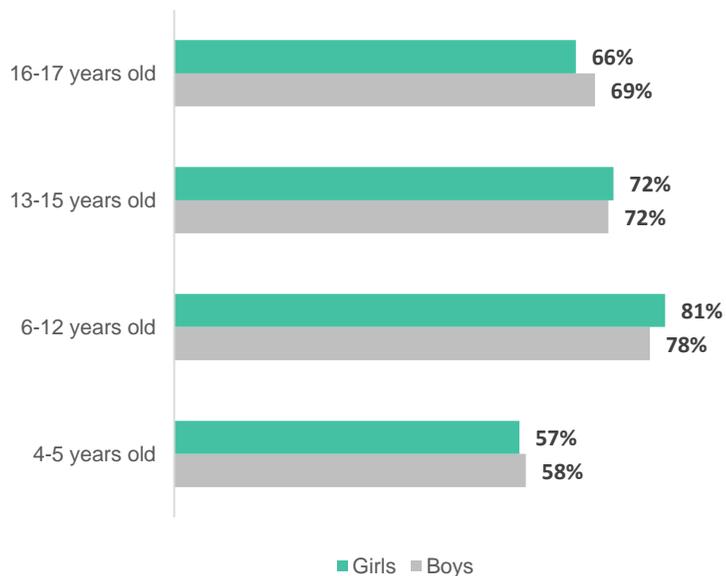

Of the total enrolled children, the majority are boys, aligning with the fact that among assessed children 60% are boys and 40% are girls

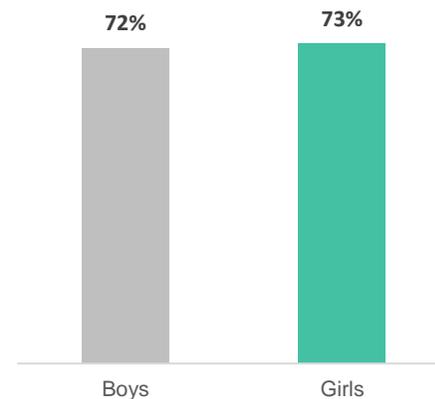

Enrolment rate per age group

Enrolment rate per age group, per sex

Enrolment rate among boys and girls 4-17 years old

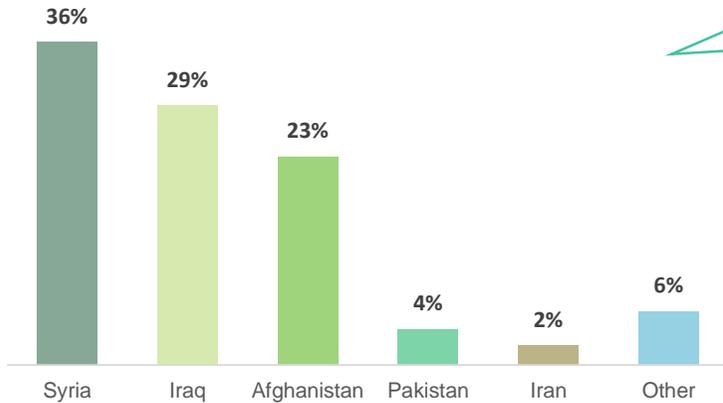

Out of all children assessed, 17% were 4-5 years old, 48% were 6-12 years old, 17% were 13-15 years old and 18% were 16-17 years old.

Access to formal education for refugee and migrant children residing in urban accommodation (apartments, shelters and hotels for UAC) - January 2020

Countries of origin (children 4-17 years old)

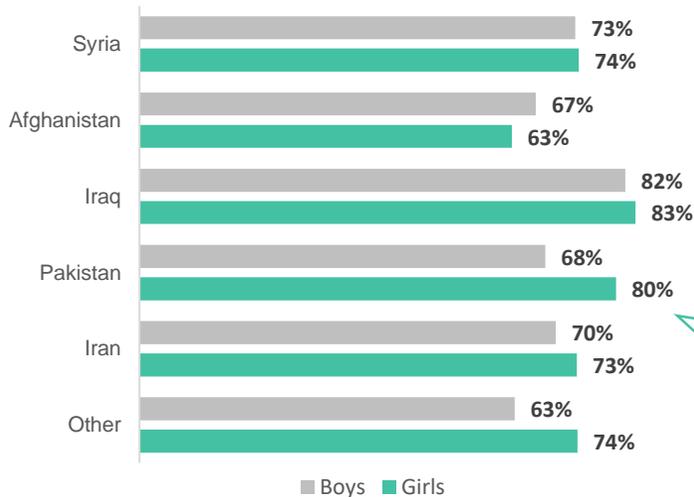

Countries of origin of enrolled children 4-17 years old

The majority of enrolled children originated from Syria, Iraq and Afghanistan; this was also the ratio for children assessed.

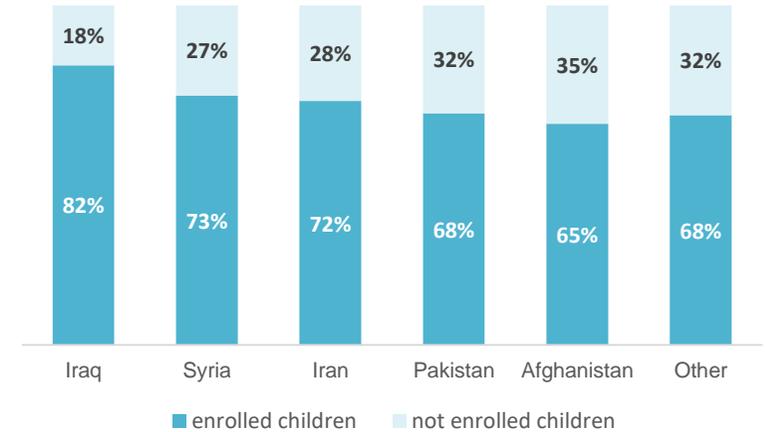

Children originating from Iraq and Syria seem to have the highest enrolment rate, while the lowest enrolment rate concerns children originating from Afghanistan. The enrolment rate of boys and girls from Afghanistan living in hotels for UAC was 73%, for those living in shelters for UAC was 70% while for those living in apartments was 63%.

Enrolment rate of boys and girls 4-17 years old per country of origin

Enrolment rate for boys and girls among all nationalities is similar, also indicating gender equality. In the case of Pakistan, the enrolment rate of girls is calculated based on 10 assessed girls only.

Enrolment rate of children 4-17 years old per country of origin
