

Access to formal education for refugee and migrant children residing in urban accommodation (apartments, shelters and hotels for UAC, SIL apartments) - June 2019

67% of assessed refugee and migrant children 4-17 years old, residing in urban accommodation, are enrolled in formal school

Based on the percentage it is estimated that **5,800** children out of 8,600 children 4-17 years old living in apartments, shelters and hotels for UAC and SIL apartments

Enrolment rate of children 4-17 years old in urban accommodation, per region

The assessment provides a snapshot of the enrolment situation of children 4-17 years old in urban accommodation, during June 2019.

A total of **6,821** children out of **8,600** were assessed: 4,056 in Attica, 1,198 in Central Macedonia, 396 in Epirus, 298 in Thessaly, 290 in Northern Aegean, 253 in Crete, 191 in Central Greece, 119 in Peloponnese and 20 in Western Greece. Assessed children were living in apartments (5,751), in shelters for UAC (589), in hotels for UAC (432) and SIL apartments (49).

Limitations: not all urban accommodation-providers communicated requested information for this assessment, and therefore the number of enrolled children (5,800) is an estimation for operational purposes.

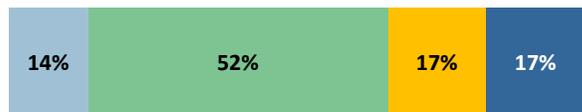

Note: According to the Ministry of Education and Religious Affairs, as of June 2019, 12,800 refugee and migrant children 4-17 years old were enrolled in schools across Greece

Age and sex (children 4-17 years old)

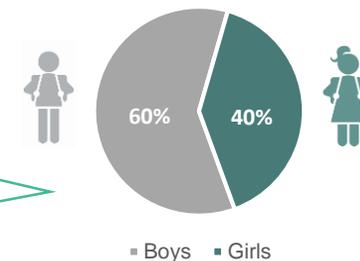

Age groups of enrolled children

- 4-5 years old
- 6-12 years old
- 13-15 years old
- 16-17 years old

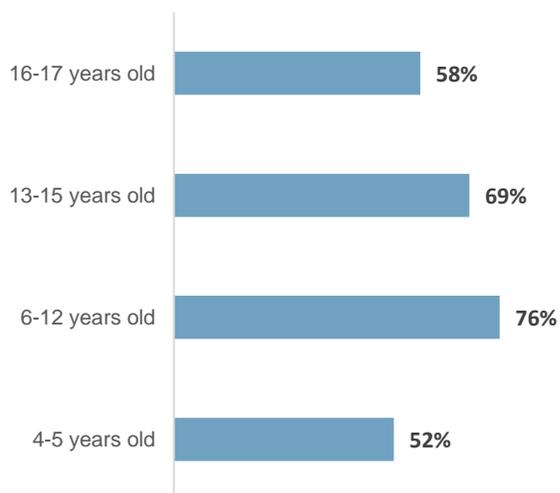

The percentage of enrolled boys and girls among all age groups is similar, indicating gender equality in school enrolments among boys and girls, regardless of their age.

Sex of enrolled children 4-17 years old

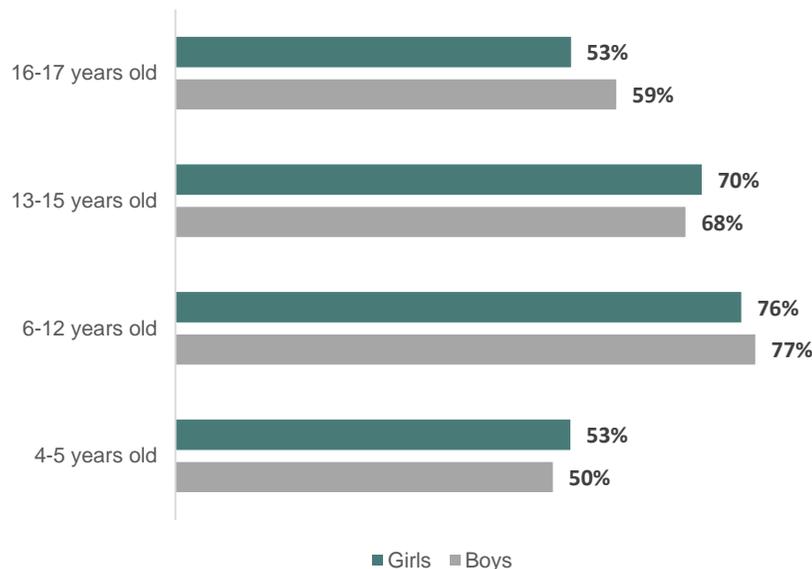

Of the total enrolled children, the majority are boys, as the majority of assessed children are boys (60%).

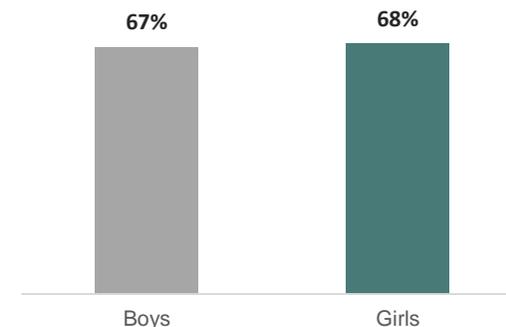

Enrolment rate per age group

Enrolment rate per age group, per sex

Enrolment rate per sex of enrolled children 4-17 years old

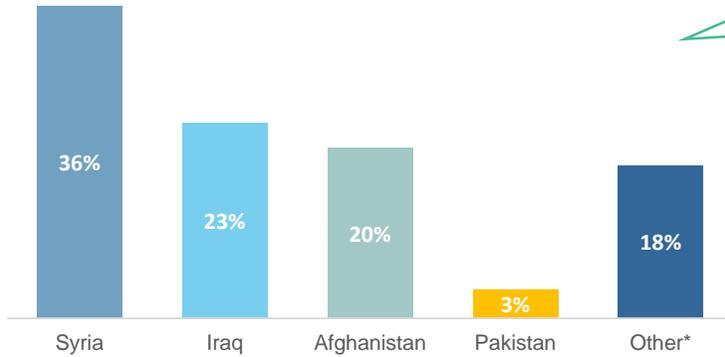

Out of all 6,821 children assessed, 18% were 4-5 years old, 45% were 6-12 years old, 17% were 13-15 years old and 20% were 16-17 years old.

Countries of origin (children 4-17 years old)

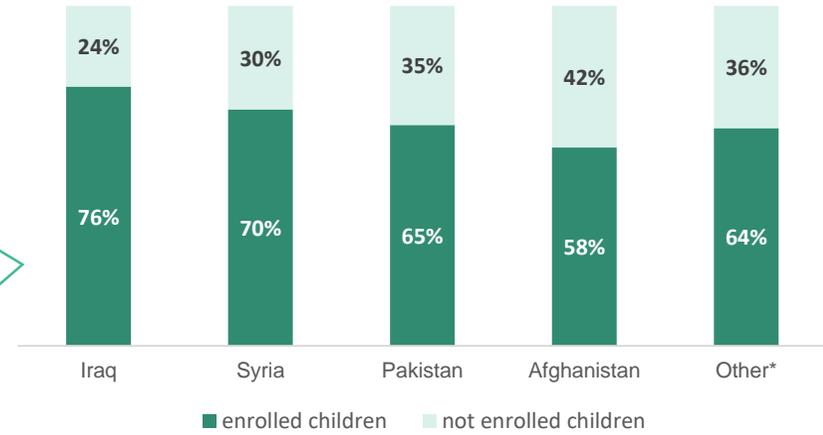

Countries of origin of enrolled children age 4-17 years old

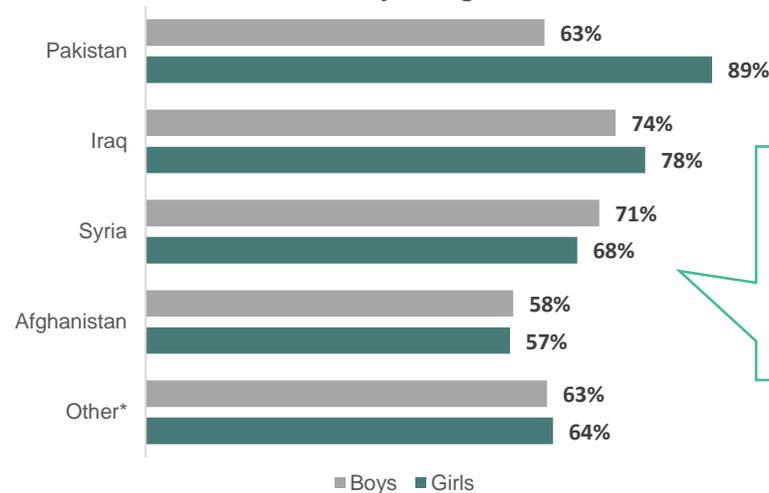

The majority of enrolled children originated from Syria, Iraq and Afghanistan; this was also the ratio for children assessed.

Children originating from Iraq and Syria seem to have the highest enrolment rate, while the lowest enrolment rate concerns children originating from Afghanistan. The enrolment rate of boys and girls from Afghanistan living in hotels for UAC was 42%, for those living in shelters for UAC was 58% while for those living in apartments was 60%.

Enrolment rate of children age 4-17 years old per country of origin

Enrolment rate of boys and girls 4-17 years old per country of origin

Enrolment rate for boys and girls among all nationalities is similar, also indicating gender equality. In the case of Pakistan, the enrolment rate of girls is calculated based on 9 assessed girls only.
