Dear Sir,

RE: VISA Approval

Reference is made to your letter dated May 20th, 2016 requesting for authorization to conduct a study on “*Comprehensive Evaluation of the community Health Program in Rwanda*”.

After examining your request and according to the law N° 45/2013 of 16/06/2013, stating on statistical activities organization in Rwanda, we have the pleasure to inform you that the Visa is granted, with the conditions that the data and final report will be submitted to the NISR before the publication. However, since the study is targeting the programme intervention area, the findings should not be generalized beyond the scope of the program. NISR would also encourage you to work closely with the Ministry of Health and Rwanda Biomedical Center for contextual support.

Thank you for your collaboration.

Yusuf MURANGWA
