Evaluation

Previewed Date	9/10/2018
Evaluation Title	Evaluation of the Pilot MEND and RISE Cash Transfer Programmes in St. Kitts and Nevis
Evaluation Year	2018
Evaluation Report Sequence Number	2018/001
Region	LACR
Office	Barbados
Person In Charge For Follow Up to Management Response	Maya Fachrani Faisal

Overall Response

Overall Response to the Evaluation: The evaluation is focused on a pilot St. Kitts and Nevis government cash transfer programme and not one that was a specific stand alone UNICEF programme. Recommendations from the evaluation are intended to be used to advocate towards strengthening delivery and increase capacity of the Government to cover the most vulnerable population effectively and efficiently. Limitations of the evaluation is that this was done two years post the completion of the pilot.

Planned Use of the Evaluation: Recommendations of the evaluation will be used to guide strategic advocacy on social protection programme implementation in St. Kitts and Nevis for the remaining period of the ECA Multi-Country Programme focused on strengthening child focused and human rights-based approach. There is one recommendation for joint follow-up by UNICEF and Government of St. Kitts and Nevis, the rest of the recommendations are Government specific, which UNICEF will advocate for timely implementation.

Recommendations and Actions

Recommendation #1:

Update Social Protection Strategy with the involvement of civil society and think tanks in the country, strengthen and streamline coordination of social protection programmes and consider establishing a Social Protection Floor.

Management Response: **Agree**

Action #1:
