Overall Response

Person In Charge For Follow Up to Management Response

Friday Nwaigwe;

Overall Response to the Evaluation

UNICEF - Viet Nam Country Office acknowledges the main findings of the evaluation of the Project titled "UNICEF Viet Nam Rural Sanitation and Hygiene Programme (RSHP) 2012 – 2016". We note both strengths and key recommendations to improve relevance, effectiveness, efficiency and sustainability. We are particularly interested in the social norms /behaviour change and the WASH-Nutrition nexus.

Planned Use of the Evaluation

Provide strategic framework to guide for Vietnam to achieve ODF Vietnam by 2025 sustainably and Vietnam SDG targets 6 by 2030;
Provide evidences to guide UNICEF and Government counterparts to improve WASH programming.

Allowed Editor

Nguyen Quynh Trang; Hoa Ngo;

Recommendations and Actions

Create New Recommendation

No.	Recommendation / Action	Response	
1	Align and harmonize the current monitoring indicators, tools and reporting system for water safety and quality with SDG 6.1 targets and indicators;	Agree	View/Edit Delete New Action
2	Continue advocacy with MARD to support local businesses and entrepreneurs for innovation and cost reductions for localised water-safety products and additional public-sector investments for BCC campaigning to influence people's behaviour.	Agree	View/Edit Delete New Action
3	Enable relevant public-sector partners to explore, establish and support partnerships with private sector research entities, academia, and businesses for technology innovation and contextualisation.	Partially Agree	View/Edit Delete New Action
4	Continue advocating and lobbying with national and provincial governments for approval of 'Provincial ODF Plans' and allocation of adequate resources for implementation of plans; and provide technical support to VIHEMA/DoH where required for effective CLTS/CATS implementation	Agree	View/Edit Delete New Action
5	Review the successes, bottlenecks and opportunities in the implementation of CLTS/CATS for creation of 'social norm' (for handwashing with soap and latrine use) considering the existing capacities of local government tiers and the communities as well	Partially Agree	View/Edit Delete New Action
6	Encourage and where required extend technical support to PO MARD to play its due role effectively in public advocacy, sector coordination, increased resources allocation and research and evidence creation.	Partially Agree	View/Edit Delete New Action
7	Extend technical assistance in revamping of rural sanitation related 'Monitoring System' to enable sector partners draw relevant, usable and timely (monitoring) information and evidences to inform the decision-making.	Agree	View/Edit Delete New Action
