In 2007, UNICEF's top twenty donors of all categories include ten governments, seven National Committees, two foundations (UN foundation and GAVI with US$72 and US$48 million contributions to ORR respectively) and one inter-governmental organization - European Commission (EC). EC contributions, including funding from European Community Humanitarian Aid Office, amounted to US$128 million of which 30% was received for humanitarian funding. Contributions from EC increased by 13% from 2006 when UNICEF received US$113 from this donor.

Contributions received through inter-organizational arrangements are excluded from this ranking as they mostly originate from the same group of major UNICEF government donors. These funds are pooled and transferred among the UN agencies. It is worth mentioning however that the amount of US$99 million is received through OCHA, of which US$ 94 million is Central Emergency Response Fund, and US$75 million is received through UNDP almost all of which represents multi-donor pooled funds.

Note:
Ranking does not include funds received through transfers from UN agencies
