

UNICEF's Programmes

Education

Working to ensure that all children have equitable access to education and quality learning opportunities.

Health

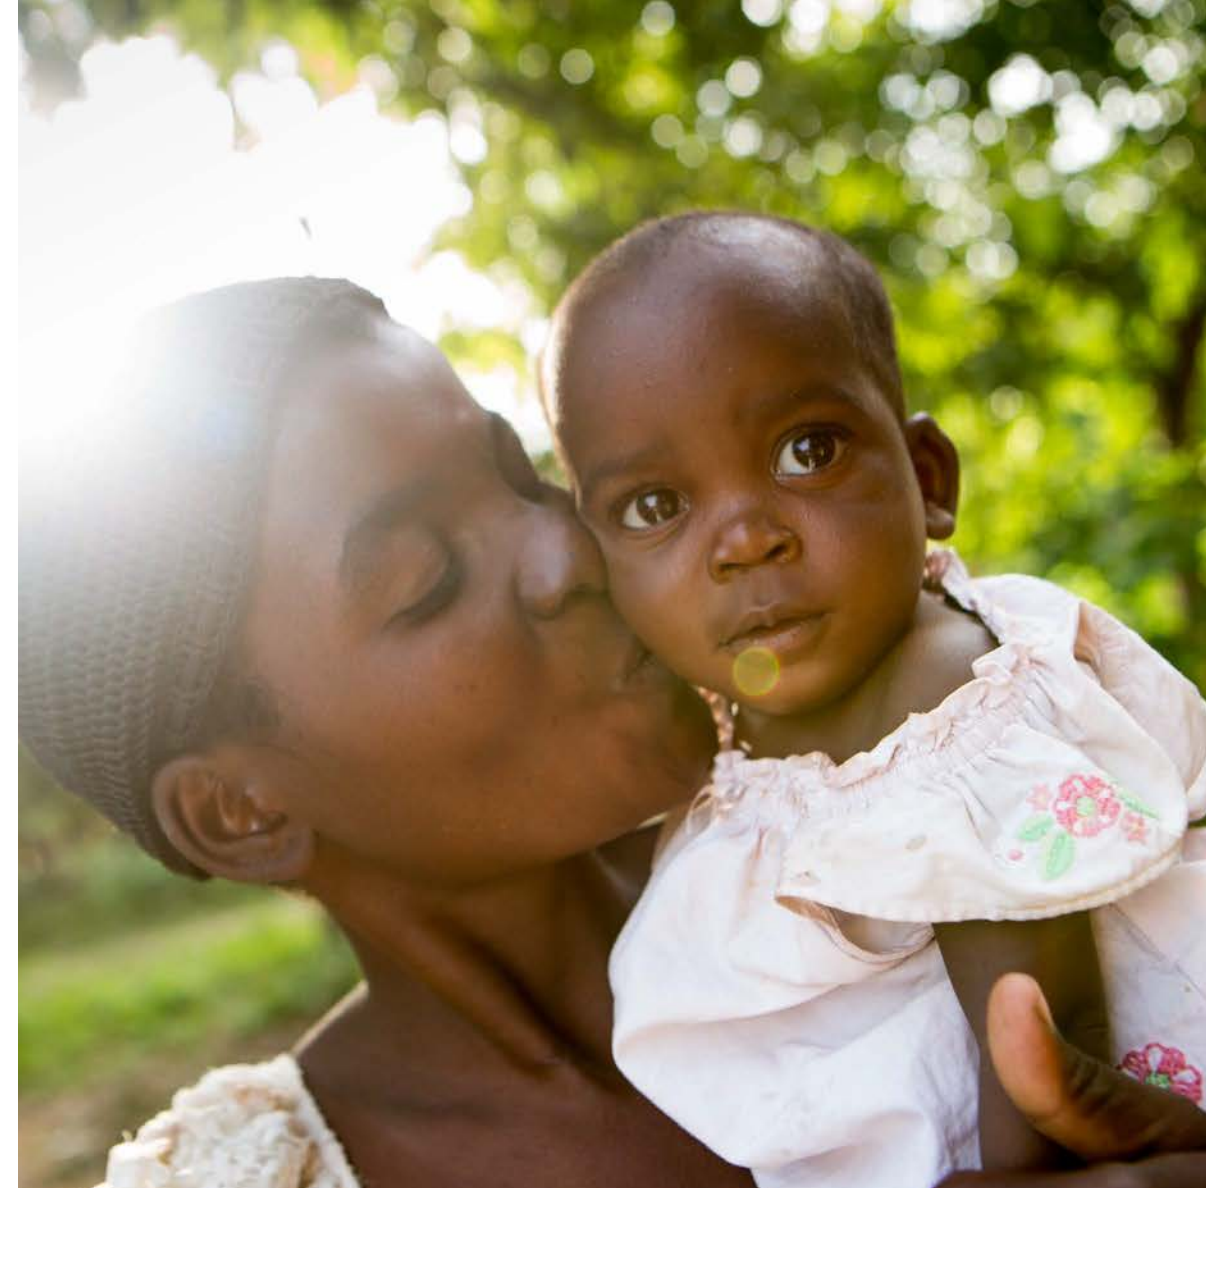

Working to ensure the right to survival, growth, and development for all children.

Nutrition

Working to prevent all forms of malnutrition by improving children's access to nutritious, safe, affordable, and sustainable diets.

Child Protection

Protecting children from all forms of violence and exploitation through working closely with stakeholders and partners to build strong child protection systems.

Water and Sanitation Hygiene (WASH)

Providing children with access to clean water and reliable sanitation facilities, along with promoting essential hygiene practices in both rural and urban settings, including during emergency situations.

Humanitarian response

Making interventions aimed at saving lives, alleviating suffering, maintaining human dignity and protecting the rights of children, wherever there are humanitarian needs.

Social Policy

Supporting countries in strengthening their social protection systems and building the capacity of local governments to generate data, plan services, and monitor results for children

Adolescent Development and Participation ADAP

Empowering youth through engagement opportunities, fostering meaningful interaction to build their capacities, and reducing frustration and disempowerment.

Gender Equality

Working to ensure equal rights and opportunities for girls and boys, we focus on producing quality data and evidence as a global resource, while reinforcing collaborations with girl-led networks and organizations.

UNICEF in The Gulf Area

The mission of UNICEF Gulf is to expedite the fulfillment of child rights and reinforce strategic alliances in Bahrain, Kuwait, Saudi Arabia, and the UAE. Our endeavors are harmoniously aligned with the respective national development agendas and the global Sustainable Development Goals (SDGs).

GAO Strategic Priorities

Early Childhood Development (ECD)

Develop national policies and build institutional technical capacities
