**Section X: Closing Questions/Recommendations**

We plan to come up with recommendations that could help improve schools.

Q: What advice would you like us to pass along to them that you think would make this school better for girls who are menstruating?

Q: What could teachers do to support the girls in school?

Please tell me something more about:
- Your plans to continue education (to which level, will/confidence to continue beyond secondary)
- Family support (norms, financial ability)
- What can be done at school level to improve attendance, learning outcomes

Thank you for your participation. Your involvement is really important to us, and we appreciate you.
sharing your personal experiences. Before we end, do you have any questions for me about the project, the interview, or other information we discussed?

### Section X: Closing Questions

We have talked about many different aspects of menstruation today and we are coming to the final questions.

Q: Do you have anything else you would like to add to the discussion that we have not yet covered?

Q: Do you have any questions for us? We may not be able to answer them all, but we can do our best.

To end our discussion, I want to thank all of you for your time and speaking with me today. We really learned a lot from you! Before we leave for today, does anyone have opinion, ideas, or thoughts they would like to add or ask? Is there something you would like to talk about? Is there something we talked about today that you would like to know more about? Thank you for participating.
