Financial Quote / BoQ / Technical Proposal

Wastewater Management and Disposal/Treatment for Azraq Refugee Camp

The contractor must propose a unit rate per cubic meter of wastewater, covering all activities and a comprehensive wastewater management and disposal/treatment service for Azraq Refugee Camp. Estimated desludged quantity 650-750 m³/d which is calculated based on the monthly desludged quantity (19500-22,500 m³/month). Contractor should submit monthly report with invoices/bills and proof vouchers to claim the monthly payment.

The daily amount is changeable according to updates of returnees' numbers; this will be communicated by UNICEF accordingly.

The unit rate must include planning, organization, operation, and monitoring of the desludging of all septic tanks in Azraq Refugee Camp, and any wastewater produced with a 7 days service for 12 months. The unit rate must include all transportation, disposal and treatment costs and all wastewater and sludge in official, authorized, operational and environmental compliant wastewater disposal/treatment facilities.

All prices/costs indicated must be in Jordanian Dinar JOD (Jordanian Dinar).

Desludging and Internal Trucking only, if the new proposed wastewater plant constructed and operated within the contract period (expected not before end of 2026): Unit price including administrative and operational costs (clarified within attached ToR) per m³ of wastewater for desludging and internal transport from villages and agencies holding tank to the the wastewater transfer station (inside Azraq Refugee Camp).	
Total Internal and external Trucking per m³ (including gate/treatment fees)/ Ein Ghazal WWTP Unit price including administrative and operational costs (clarified within attached ToR) per m³ of wastewater from the wastewater transfer station or from villages and agencies holding tanks in Azraq Refugee Camp to Ein Ghazal wastewater treatment plant (90 km away from Azraq camp)	
Total Internal and external Trucking per m³ (including gate/treatment fees)/ Dhulail WWTP: Unit price including administrative and operational costs (clarified within attached ToR) per m³ of wastewater from the wastewater transfer station or from villages and agencies holding tanks in Azraq Refugee Camp to Dhulail wastewater treatment plant (50 km away from Azraq camp)	

Annex C - BOQ - UNICEF LRPS-2025-9200916

As tenderer, I hereby confirm that I have understood the scope of works, that the unit rate is the only payment by UNICEF (UNITED NATIONS CHILDREN S FUND) done for all services related to wastewater management and disposal/treatment to be provided/covered under this contract. No additional costs/payments are applicable.
