for every child

They say there is no manual for parenthood...
However, we have created the next best thing for you.

Foleja

**It's your pocket partner
in parenthood.**

Early Moments Matter

What is Foleja?

Foleja is all-in-one parenting app designed by UNICEF to support parents/caregivers by providing all the tools and expert advice you need in just one App to support your child's growth and development from birth to age 6!

unicef 
for every child

Through **Foleja** application, you can:

Track your child's progress in reaching the milestones recommended for children 0-6 years old.

Easily track and record your child's vaccinations. As well as setting reminders for scheduled vaccines.

Enter height and weight to monitor your child's growth and receive advice to support healthy growth.

Keep records of your child's doctor visits.

Find daily games and ideas to help your child thrive.

Access expert parenting advice on the go.
