Latin America & the Caribbean COVID-19 Education Response

[As of June 10th, 2020]

I. SITUATION ANALYSIS

As June 10th, many countries still have their schools closed, however, some countries, like Uruguay, and some countries and territories from the Eastern Caribbean Area, have started to open their schools.

COVID-19 Impact on Education in the Latin America & the Caribbean Region (LAC)
II. PROGRESS TOWARDS THE REOPENING OF SCHOOLS

Ministries of Education continue to support distance learning through flexible and distance home-based learning resources (on-line platforms, mobile phones, radio and TV learning content, broadcasts, learning content through social media, podcasts, etc.). However, most countries in the LAC region have already started to prepare for the reopening of schools -some countries are in the planning stages, whereas other have already initiated the reopening process in stages. Here are the last updates on schools’ closures and reopening plans:

- **Anguilla**: The MoE has defined the arrangements for the Term Three which begins on Monday 11th May and ends on 24th July.
- **Antigua y Barbuda**: Schools have opened at the fifth form level further to the completion of a sanitization programme. All schools have been outfitted with hand sanitizing stations and hand washing facilities have been installed at the entrance of each classroom.
- **Barbados**: Class Four students (around 3300) will return to the classrooms from Monday, June 15, in order to prepare for the 2020 Barbados Secondary Schools’ Entrance Examination to be held on Tuesday, July 14. The MoE has developed guidelines for the safe reopening of schools.
- **Chile**: The Ministry of Education is meeting with various actors to establish the criteria and measures for "operation return", which will begin once the epidemiological conditions improve. The return to classes will be mixed, combining face-to-face classes with distance activities.
- **Colombia**: The MoE has released the directive 011, giving guidance on the provision of education services in the framework of the health emergency of COVID-19, and the directive 012, which provides additional guidance for the provision of educational services for initial, pre-primary, basic and middle levels.
- **Costa Rica**: The Ministry of Education has set up an interdisciplinary and expert working team to assess the gradual and controlled return to attendance in the medium term, in accordance with the strictest prevention protocols and when health conditions permit.
• **Cuba:** The country is adopting all measures to ensure that students of Basic Secondary resume the academic year with the aim to meet the academic objectives programmed for over 303,700 students. The first three weeks will be focused on the systematization of content already taught for Basic Secondary Education, including the content covered via distance learning.

• **Dominican Republic:** The High-Level Commission created by the National Council of Education has launched the protocol to follow during the academic school year 2020-2021, which is planned to start on August 24. Such protocol includes measures on personal protection, use of transport, arrival conditions, measures for students, teachers and other education staff, etc.

• **Ecuador:** The MoE is currently analyzing the progression to the second phase of the National Plan of COVID-19, which consists in the semi-onsite modality. It will start with rural schools where there is limited connectivity.

• **Grenada:** The Ministry of Education, Human Resource Development, Religious Affairs and Information has developed guidelines for the reopening of schools.

• **Guyana:** Schools are planning to open from June 8 to August 15 to facilitate students preparing to write the National Grade Six Assessment (NGSA), Caribbean Secondary Education Certificate (CSEC) and Caribbean Advanced Proficiency Examination (CAPE) examinations.

• **Honduras:** The Secretary of Education has presented the protocol for the reopening of schools. Strategy for the Safe Return to Government and Non-Government Education Centres in the Face of the COVID-19 Crisis

• **Jamaica:** The MoE has issued new protocols established for students returning to the classroom. Jamaican students will sit the Caribbean Secondary Education Certificate (CSEC), and Caribbean Advanced Proficiency Examination (CAPE) tests starting July 27 and to that end welcomed back these external exam students in 5th and 6th form on June 8th. Students and teachers with underlying health conditions are encouraged to remain home. All public health and safety protocols are being observed system wide to ensure the safety of students and teachers.

• **Mexico:** The Public Secretary of Education has established that in order to take care of the health of children, adolescents and professors, public and private schools should continue their distant learning activities. The return to school for all levels will be defined by the health authority according to the health risk.

• **Panama:** Has presented its action plan of the MEDUCA strategy to address COVID-19. The strategy will align the efforts of the education sector, both public and private actors, to respond effectively to the challenges posed by the COVID-19 crisis.

• **Paraguay:** Schools will remain close until December.

• **Saint Vincent and the Grenadines:** Schools for fifth and sixth form students reopened on May 25th. The hours will be reduced to 9am –2pm.

• **Uruguay:** It is the only case of progressive reopening, which started with rural schools and will deepen its strategy in the coming weeks. Uruguay has developed the protocol of implementation for the return of students to schools. The country has also some recommendations for the return to school.
REOPENING OF SCHOOLS IN LATIN AMERICA & THE CARIBBEAN

JAMAICA
Jamaican students will sit the Caribbean Secondary Education Certificate (CSEC), and Caribbean Advanced Proficiency Examination (CAPE) tests starting July 27.

COSTA RICA
The MoE has set up an interdisciplinary and expert working team to assess the gradual and controlled return to attendance in the medium term, in accordance with the strictest prevention protocols and when health conditions allow.

ANGUILLA
The MoE defined the arrangements for Term Three, which begins on Monday, May 11, and ends on July 24.

ANTIGUA & BARBUDA
Schools have opened at the fifth form level further to the completion of a sanitation programme. All schools have been outfitted with hand sanitising stations and hand washing facilities have been installed at the entrance of each classroom.

ST. VINCENT & THE GRENADINES
Schools for fifth and sixth form students will reopen on May 25. The hours will be reduced to 9am - 1pm.

EL SALVADOR
The third phase of the educational continuity strategy will be implemented from May 15 until the end of the school year. Teachers will be trained in the use of Google Classroom.

NICARAGUA
No closure

COLOMBIA
Classes will continue by virtual mode until July 31. The reopening is expected in August using a combination of face-to-face classes with work at home.

URUGUAY
Uruguay is the only case of progressive reopening, which started with rural schools and will deepen its strategy in the coming weeks.

CHILE
The Ministry of Education is meeting with various actors to establish the criteria and measures for "operation return", which will begin once the epidemiological conditions improve. The return to classes will be mixed, combining face-to-face classes with distance activities.

SCHOOLS IN THE OTHER LAC COUNTRIES REMAIN CLOSE UNTIL FURTHER NOTICE.

IV. UNICEF COUNTRY OFFICE & GOVERNMENT COVID-19 EDUCATION ACTIONS

Since the start of the outbreak in the Latin America & the Caribbean region, the twenty-four UNICEF national offices in the region have supported the MoEs in their response to COVID-19.

Argentina: On 29th of May, the MoE created the Advisory Board for the Planning of the Return to Classrooms, through the resolution 423/2020. UNICEF Argentina is a member of this multisectoral board. Two meetings were held on the 2nd and 5th of June. On 5th of June, the MoE of Buenos Aires City created the Advisory Board for the Planning of the Return to Classrooms, where UNICEF will be a member of this board to support the reopening of schools.

Bolivia: UNICEF has massively developed and distributed an orientation booklet for parents so that they can support their children to continue educational activities. In alliance with Tigo, UNICEF is providing training to teachers to improve their skills and knowledge of tools to be able to carry out educational activities virtually. MoE has requested UNICEF to buy 700 hygiene (biosecurity) kits and educational materials. UNICEF is also supporting MoE on the content for the Virtual Education platform.

For any corrections or updates, kindly send your inputs to Tania G. Veiga (tgonzalez@unicef.org), with Ruth Custode and Juan Pinzón in copy. The next update will be on June 24th and we will be accepting COs updates until June 19th 12pm.
In addition, UNICEF has received requests for support from some Autonomous governments to contextualize and apply the framework for back to schools. MoE has legalized virtual education through a decree.

**Belize:** The Ministry of Education, Youth, Sports and Culture and UNICEF, in collaboration with the Ministry of Health and the Belize Red Cross, have focused their response on preparing for the school’s closure and facilitating the continuity of learning, including the implementation of UNICEF school operational guidance. For the medium-term response to COVID-19, schools, together with the assistance of the Government and UNICEF, will develop appropriate strategies to facilitate continuity of learning to enable children, teachers and schools to have flexible and distance learning materials available, such as reading materials, TV and/or radio content, online educational content.

**Brazil:** Brazil CO has supported local governments to develop and implement guidelines for safe school operations during the COVID-19 outbreak (e.g. promotion of hand and respiratory hygiene, screening and referral of suspected cases, as appropriate), and education about COVID-19 prevention, once schools reopen. UNICEF has also supported local governments (sub-national level) to develop and make available learning materials for children and adolescents once schools are closed adapted and implemented school active search strategy to reach out the students that eventually don’t go back to school when they reopen.

The support given by Brazil Country Office are being materialized by the following actions take to date:

**Educational Podcasts** - UNICEF has launched a podcast series to provide children aged 4 to 10 years and their families with educational opportunities in the context of the school closure. *Deixa que eu conte-*
https://open.spotify.com/show/09Oc1iE8GlmOzjdpcygrXo

**Mobilization Educational Podcasts** - UNICEF launched a series of educational podcasts focused on the culture of the people who live in the Amazon region.

National broadcast – https://www.facebook.com/UNICEFBrasil/videos/685229985632284. Till now more than 78 thousand people were reached.

Regional broadcast - https://www.youtube.com/watch?v=aqR35xNEPyE

More than 4 thousand people have already been reached with this content.

**Successful School Paths** - UNICEF is adapting the implementation of its Successful School Paths strategy to the context of the coronavirus pandemic.

More information - https://trajetoriaescolar.org.br/

**Out-School-Children** - UNICEF is engaging more than 3,000 municipalities use the opportunity of the school closure to train local staff on the School Active Search strategy that aims to identify and re-enroll out-of-school children to the public-school system. More information - https://buscaativaescolar.org.br

Inclusion - UNICEF is disseminating to municipalities contents produced in partnership with Sesame Street on inclusion of children with disability.

You can see the material at: https://www.unicef.org/brazil/incluir-brincando

**Always learning** – UNICEF and partners lunched a digital platform to support educational managers, teachers and family’s securer the right to learn of children and adolescents in the context of the coronavirus pandemic. Link: www.aprendendoempre.org

Mobilization – UNICEF is participating in different live sessions to mobilize municipal managers of education, technicians and teachers about the challenges of education during the coronavirus pandemic and how to reduce its impact. The live session can be accessed at: https://youtu.be/6Odd74rSvBw or https://www.facebook.com/convivaeducacao/videos/655126825051505/?vh=e
Costa Rica: UNICEF and various UN agencies have received different requests from the Ministry of Public Education (MEP) in the areas of WASH, education, violence and gender. UNICEF and UNESCO will support the immediate strengthening of MEP’s remote learning system as a priority, but with the intention of maintaining their support beyond the current emergency response phase in order to make the system ready and available for subsequent emergencies.

Chile: UNICEF - UNESCO -MoE collaboration in a series of Webinars, the first one on Socio-emotional learning in the context of a pandemic. UNICEF has collaborated with technical teams on the reopening of schools and statistics regarding adolescent concerns in the context of a pandemic. MoE has launched the remote learning platform “Aprendo en Línea” to support continuity of the educational processes. A free downloadable software “Learning to read with Bartolo” was available to support the learning of reading for students from 1st to 3rd grade. In addition, TVChannel #TVEducaChile, transmits cultural and curricular entertainment of the courses from 1 to 4 basic. MoE has also released graphic and audiovisual resources for socio-emotional support for teachers, students and families. Furthermore, curricular prioritization for all educational levels in response to the educational needs. MoE has launched a public announcement from the educational authority regarding the need to prepare schools for reopening.

Colombia: UNICEF Colombia has reached around 1,700 girls and boys accompanied by their tutors from home learning circles. Around 200 teachers have participated in remote awareness sessions and around 760 children continue their distance school reinforcement process. More than 577 food rations for children delivered in the past two weeks. Data collection began for the evaluation of La Aldea programme in Barranquilla with the World Bank. MoE has announced the partial reopening of schools as of August 1st, 2020. The MoE has released ministerial directive 011 with where guidelines are given for the opening of schools. Each local school secretariat and each school must have its protocol for this.

Cuba: Thanks to Global Thematic Funds, UNICEF Cuba is expecting materials for sanitizing schools for the reopening planned for mid-June. CO is also in the process of procuring essential school supplies for teachers and students (such as pens, chalk, among others). CO is also working on psycho-emotional support with an emphasis on children with disabilities. Regarding government education actions, the MoE has announced the reopening of schools for the month of September. UNICEF is supporting the MoE in the reopening with emphasis on social distancing, hygiene and sanitation measures, access to schools and curricular readjustments for the 2020-2021 school year. TV oriented classes will be held until June 29th, whereas an evaluation system will be carried out at the time of reopening (for about 8 weeks).

Dominican Republic: The Ministry of Education has developed a website for school continuity with educational guides and materials for all levels, including disabilities, and has supported food distribution at national level (bread, milk, HEBs to families with enrolled children). The CO has worked on the adaptation and design of posters for COVID-19 prevention and has supported the virtual educational proposal with 10 short story videos for children ages 5 to 12 with translation in sign language, which will reach families through educational TV and social networks. The CO is also providing technical support for the adaptation to COVID-19 of the program on psycho-emotional recovery called Retorno de la Alegría, which the MoE will implement with UNICEF’s support over the first four weeks of the school year when schools reopen on August 24. Lastly, the CO is also supporting
the revision of the protocol for the reopening of schools and supporting the MoE with the design of an educational program of didactic sequences of reading, writing and mathematics for primary school.

**Ecuador:** UNICEF is working with the Ministry of Education to ensure that more children and adolescents have access to quality educational content through radio and television and supporting pedagogical mentors and teachers from the remedial program in the implementation of distance education. UNICEF CO continues providing technical assistance to the MOE to strengthen education policies to ensure safe school operations, wellbeing and protection, and learning as part of the COVID-19 education response strategy. UNICEF will support the MOE in the elaboration of a rapid diagnosis tool to guide the plan for returning to school. The Ministry of Education together with the education authorities presented the Educational Plan "Aprendemos Juntos en casa", which will be implemented in the Costa-Galapagos regions for the school year 2020-2021.

**ECA:** UNICEF ECA supported around 130 schools with provision of hygiene kits to the most disadvantaged children including 7 in Anguilla, 60 Barbados 30 in Saint Lucia, 25 in Tobago and 8 in British Virgin Islands. UNICEF provided support to Ministry of Education St. Lucia for provision of distant learning for 13,000 primary school children through TV and Radio programmes. UNICEF ECA provided 639 digital devices for the most vulnerable children with devices to ensure their access to online education in the 6 island countries which include 43, in Anguilla, 120 in Barbados, 100 in Dominica, 50 in Tobago, 200 in Turks and Cacaos and 51 in Virgin Islands. In Trinidad, more than 600 migrant children have been provided with online distant education and during the month of May additional 277 migrant children received tablets and 240 received student kits. Sixteen Facilitators have been assigned to work directly with the Notes Master team to complete outstanding online content and to receive targeted technical support with the platform to better assist migrant children in accessing on-line education.

**El Salvador:** UNICEF is supporting the MOE in the adaptation of the Accelerated Education, Work initiation strategies to a multimodal and digital version for distance learning. UNICEF is also supporting the strengthening of connectivity for the continuity of the Academic Leveling Tutoring strategy. UNICEF will also support the adaptation of the “Soy Música” project, coordinated with the organization Musicians Without Borders, to be implemented in a multimodal distance learning manner. The Ministry of Education has a response strategy with actions identified in 3 phases: 1) facing the closure of schools, 2) recovery and educational continuity (Plan la Alegría de Volver a la escuela) and 3) transformation and improvement towards multimodal education. The activities of phase 1 are currently being implemented and include among other activities: establishing pedagogical guidelines, prioritizing the curriculum, digitalizing educational content and making available an Educational Platform and complementary resources for distance learning, as well as training teachers in the use of technologies.
**Guatemala:** The CO has carried out the second delivery of guides on self-learning in Spanish and in priority Mayan languages to support indigenous peoples for 45 days and has provided support for the design of Mineduc.digital, including online learning resources for primary and secondary students. The office has also designed an online course for teachers on psychosocial support and mental health and provided support with feedback and guidelines to organizations composed by families, teachers, school directors, etc. (in Spanish Organizaciones de Padres de Familia), which distribute food rations and the self-study guides. In addition, the office has also provided technical support to the MoE for the recovery phase, which includes initial protocols and phases for the progressive and staggered reopening of schools. Furthermore, the Education Cluster is active and counts with the participation of 55 members, the MoE has also activated 10 technical groups.

On its end, the MoE has designed the 2020-2021 emergency curriculum and continues working on the production of learning sessions for TV and radio, as well as on the design of formative assessment tools. Mineduc.gob.gt has made available to the learning community resources, a digital library, an education blog, and a digital magazine for teachers. The Ministry of Education has also provided pre-primary and primary students non-perishable food products for another 21 days (in total the MoE has provided them for 50 days). Lastly, the MoE has programmed virtual teacher training, that includes courses on accelerated learning, psychosocial support, implementation of the curricular adaptation and formative assessment tools.

**Guyana:** Together with UNICEF, the MoE is currently finalizing its protocols for school re-opening under three thematic areas: Wellbeing and Protection/Psychological support; Safe Operations and Learning. UNICEF will build capacity in Ministry of Education’s Crisis Management Team. The MoE is supporting 120,000 children with distance/home-based learning. From the total of people accessing educational services in the MoEs website, 59.7% are parents/guardians; 19% are students and 22% are teachers. Out of these people, 95% of these are in the coastal regions with 5% being from the hinterland.

**Haiti:** Last month, MoE launched its digital platform (http://pratic.menfp.gouv.ht/) with available learning resources for teachers and students and now a monitoring system is being put in place by the EiE local group to gather data on actual use of online platforms. Additionally, the MoE submitted a funding proposal to the GPE and is awaiting approval. As of today, the education sector is underfinanced to ensure learning continuity for all students. Regarding the reopening of schools, the MoE has announced 2 potential dates for reopening schools: 1- August 3rd to Sept 30th or 2- September 3rd to October 30th, depending on the COVID19 situation in the country. These 3 months will serve to catch-up the 2019-2020 academic school year. Furthermore, a working group is set up to develop school reopening guidelines.

The CO supported the MoE in the development of the GPE $10 million funding proposal as Grant Agent and has also provided technological devices such as laptops, WIFI modems, smartphones, printers etc. to MoE’s personnel to facilitate working from home modalities during confinement period. In addition, UNICEF is working with a local newspaper to produce a children's magazine to give more than 25,000 children access to free reading and learning materials for 6 months and is also working with the MoE to set-
up and support a working group for the development of home learning paper-based materials for children (Preschool and basic Education levels).

**Honduras:** UNICEF CO has supported the design and dissemination of the communication strategy to strengthen the support for parents in home activities and is providing technical assistance to the Education Secretary for the revision of reopening schools strategy. SEDUC has presented the reopening schools strategy but has not yet announced the date for the reopening. The Honduran Secretary of Education continues to disseminate educational content through TV programs and throughout the SEDUC platform. In addition, the Ministry of Education is preparing printed material to be distributed in the most dispersed areas and continues training teachers in the use of ICTs.

**Jamaica:** The JCO launched a virtual instructional leadership course with the National College for Educational Leadership, an agency of the Ministry of Education, Youth and Information, on June 7th. 500 school leaders are enrolled in the first cohort. The JCO is also working with the Ministry of Education by providing technical assistance towards the reopening of school which includes safe journeys to and from school and will soon be handing over 210 tablets targeting public schools for children with special needs and 50 handsets to effect a tele health/counselling program partnership between the Ministry of Education, Youth and Information and the Ministry of Health and Wellness.

In addition, guidelines have been shared with all schools detailing the phases of reopening beginning with the exam preparation stage (June 2020) and continuing with the planned full reopening on Sept 7th. The UNICEF/UNESCO/WB framework was heavily referenced in this document. On and Offline provision continues through July 7th (Tv, radio, printed material, including special data plans at reduced costs for students from telecoms providers as well as data free sites) with school feeding programs converted into cash transfers and tied into the government’s broader 19 response program. Lastly, teachers and school leaders continue to participate in scheduled trainings regarding online teaching and learning and assessment as well as public health protocols and the same is true for transport providers and cleaning staff.

**Mexico:** The Mexico CO is developing a dashboard to map the reopening of schools, absenteeism of teachers and students, causes of possible absences linked to COVID-19 and WASH infrastructure and functioning in schools. Mexico CO is working with the MoE in a learning recovery plan for basic education within the return to school framework (since it was not possible to the develop an emergency curriculum), which also complements the key learning outcomes identified by the MoE. In addition, the CO is developing a mental health, psychosocial and no-discrimination strategy with educational communities during the social distancing and back to school phases. The UNICEF CO Office presented to the MoE the Framework for the Reopening of schools launched by UNICEF, UNESCO and World Bank; and will be developing guidelines and orientations for the return to school. The CO has is organizing a webinar on Education in Emergencies, Preparedness and Recovery on school life, in collaboration with UNESCO and education authorities. The CO has disseminated videos and materials with different partners (national and regional) for early and preschool education with messages on COVID-19 addressed to children in this age group. Mexico CO is jointly working with the MoE and MoH, on a mass media campaign (Salud en tus Manos in Spanish) and a pedagogical and training package for students and teachers on risk communication, back to school protocols and strengthen hygiene practices. Lastly, Mexico CO with the MoE will distribute IK donations of hygiene
items in priority schools of Mexico City, Chiapas, Guerrero,Michoacán and Oaxaca. The tentative date indicated for the Secretary of Education to reopen schools at the deferral level is August 10, however, some states have stated that they will not reopen on that date.

**Nicaragua:** Until May, UNICEF has delivered a total of 6,150 cleaning kits to the Ministry of Education for the same number of schools, covering about 65 per cent of the schools in the country. Twenty-five technology kits have also been delivered to the same number of basic schools, which serve as teacher training centers at municipal level, supporting the online management and training, given the impossibility of carrying out face-to-face training. MINED has developed an educational plan in response to COVID-19, which considers the eventual closure of schools and non-face to face education, if the context requires. Until today, there is no official closure of schools.

**Peru:** The CO continues to reinforce key messages in the distance learning platform *Aprendo en Casa* with selfcare videos, guides for rural secondary, and general strategies to improve access. The office is also providing technical assistance to three reginal governments (Loreto, Ucayali y Huancavelica) in the design and implementation of the regional education response plan to COVID-19. Lastly, the office is also providing technical assistance to the MoE with (1) the pedagogical distance model use in rural areas, (2) with the pilot plan for schools without connectivity and without COVID-19 cases, and (3) with the strategic plan for the reopening of schools. The office has also supported an intensive working plan with 123 schools throughout 4 territories (14,000) students with a comprehensive system of accompanying schools to ensure distance learning, including migrant people.

Classes are still suspended in the country and there is no return date yet. However, there is a special plan for schools located in scattered areas without connectivity and without COVID-cases. The MoE is working on strengthening the strategy of *Aprendo en Casa* and it is purchasing a million tablets for areas without connectivity and for most vulnerable students. Furthermore, technical commissions have been established to define the route for students in their last year of secondary education. Lastly, a high-level group composed by UNICEF, UNESCO, the World Bank, the Inter-American Development Bank (BID) and the MoE to present a strategic plan on the reopening of schools.

**Panama:** Over the last few weeks, the Ministry of Education of Panama (MEDUCA) has made progress in its education response to COVID-19 in the country. The Ministry has focused its efforts on the education response strategy and plan for the current emergency, including the safe return to schools. In terms of learning continuity, the Ministry has provided new educational distance content through TV and radio (including inclusive formats) and is working on the adaptation of the emergency curriculum; it has optimized its educational distance portal and continues to support teacher training. Regarding the reopening of schools’ process, MEDUCA has developed the draft for the safe return to schools.

UNICEF PCO is providing technical assistance for the emergency response plan based on international standards. In addition, they are supporting the Ministry with advice on issues such as information management, C4D, generation of evidence, emergency curriculum, educational technology and school return. In addition, the PCO is also assisting with the adaptation of the emergency curriculum (providing guidance on its methodology, design, presenting examples to help prioritize content, etc.), as well as with
the learning continuity response by conveying educational content through their networks and physical materials.

Paraguay: As part of its education response to the crisis, the MOE in Paraguay (MEC) has made available the online platform “Your School at Home” through a partnership with Microsoft. Furthermore, MEC has also partnered with the state telecommunications company COPACO and VOX to give access to all state online resources without consuming any data. As part of its distance learning response, the MOE has handing out lunch kits at school for most vulnerable schools in Asuncion and has broadcasted TV content, developing lesson plans for every grade and subject. Regarding the opening of schools, the President of Paraguay has announced that schools will remain closed until December 2020. Lastly, the MoE has also drafted an emergency plan (“Plan de Educación En Tiempos de Pandemia” in Spanish), that describes two main education delivery mechanisms to reach children: virtual and non-virtual modality.

The Paraguay CO has developed substantive education content to ensure continuity of learning during COVID-19. The office has developed a guide for families on stimulation in early childhood with an inclusive approach and short videos and audios to promote reading at home for children from 0 to 6 years old, as well as math audios and videos and STEAM activities aimed at students from 1st to 6th grade. For those regions where internet access is limited, the CO is providing support to develop a distribution strategy to print materials, as well as the adaptation of resources to radio content. The CO has also worked on the reactivation of school feeding mechanisms in the region. This aim, the office has made available repository with information about school feeding, as well as guides for the stimulation and development of early childhood, COVID-19 prevention and free access online resources. Regarding the reopening of schools, the CO is carrying out advocacy work and developing a back to school plan to ensure proper pedagogical responses and the continuity of prevention practices in education institutions.

Suriname: In Suriname, the reopening of exam grades on June 1st has been postponed until further notice due to the fast increase in active cases as of May 26th (after the election on May 25th). In addition, MoE plans to establish a national learning platform, with adapted support through tablets offline for children in the interior and printed material. In the meantime, support via WhatsApp groups continues as well as the TV educational programming. The protocol for the reopening of schools has been developed and distributed to schools. Schools had already started to prepare for reopening on June 1st, however, progress halted because the country is in full lockdown for two weeks starting June 8th.

As part of its learning continuity response, the CO is supporting the strategic and technical review and selection process for a distance learning platform, is developing and disseminating e-learning material and e-teacher capacity strengthening and assisting with TV broadcasting of learning material. The office is also supporting the provision of printed materials for those areas where there is limited internet and TV connection and providing WASH support in schools. Lastly, the CO is providing technical support in the development of the protocol for the schools reopening and assisting the MoE with learning gaps, reprogramming the school calendar and the examinations.
Uruguay: Between April 22 and May 4th all rural schools been reopened. Some urban schools have reopened on June 1st, like for example special schools and schools for vulnerable children (A.P.R.E.D.E.R schools). The government has announced that all schools will be reopened on June 29. Furthermore, the national government has designed a protocol for the schools reopening process and elaborated guidelines for teachers during the reopening process. Learning support via WhatsApp groups continues as well as the TV programming.

On its end, UNICEF Uruguay is organizing a cycle of conferences with international speakers to promote educational continuity among teachers and supporting the National TV program organized by the Plan CEIBAL and the National Administration of Public Education (ANEP) to promote educational continuity. In collaboration with the National Administration of Public Education (ANEP), the CO is also designing a scholarship program to promote the return to schools among vulnerable adolescents affected by the economic crisis during the COVID-19 outbreak. Lastly, the office is providing key support in the systematization of the reopening process throughout the country and the best teacher practices using virtual learning methods. The CO is also designing a teacher training course on virtual learning with the collaboration of the National Administration of Public Education (ANEP) and the Plan CEIBAL.

Venezuela: The MoE in Venezuela has developed the ministerial instructions with weekly pedagogical guidance to support the implementation of educational activities, which are both in virtual and printed format. It is also implementing an emotional wellbeing campaign through TV, radio and social media. The campaign addresses psychosocial support topics and provides keys to keep positive during the quarantine. Furthermore, the MoE has launched the educational channel ViveTV and it expects to launch a new format for the beginning of the next academic year. Lastly, the government has also supported the cooperation and the exchange of technology between Universidad Nacional Experimental del Ministerio (UNEM) and la Universidad Abierta in Chile, focused on the development of capacities for teams and teachers in contexts of emergency. This process is also being supported by UNICEF and UNESCO offices.

The CO, along with the Education Cluster, LACRO and UNICEF COs of Argentina, Mexico and Cuba has developed the virtual TV seminar during the quarantine. In addition, along with the Education Cluster, the office has supported the exchange of good practices of civil society on distant learning and opened a space under the name of “Colaboratorio de transformacion pedagogica”. The office also provided technical support to the MoE for the publication of three reports of the virtual seminars. The CO, along with the education cluster and the support of LACRO, supported the opening of a coordination table with the MoE and the Universidad Nacional del Magisterio on capacities development. Lastly, the CO also supported with the development of a ministerial instruction for WASH interventions in schools and the distribution of bar soaps to students.
**V. REGIONAL OFFICE SUPPORT STRATEGY**

Over the last weeks, the Regional Office Education Team has been in constant communication with LAC Country Offices to assist with technical support, share information, and facilitate knowledge-sharing. The below are the main activities that UNICEF LACRO is focused on:

| **Education in Emergencies** | - Collation, organization, analysis and dissemination of relevant information (UNICEF reports, MoEs and COs updates, best practices, recommendations, and guidelines, etc.) with HQ, ROs and COs. All information has been stored and organized per categories in the regional share-point for information and knowledge sharing developed SharePoint’s LACRO COVID-19 Education section;  
- In the process of developing a guidance for national authorities and another for schools to ensure the safe opening of schools in the LAC region. The checklist will be available in the four main languages of the region. |
|-------------------------------|-----------------------------------------------------------------------------------------------------|
| **Disabilities**              | - As a result of integrated ECD-Communication and Education work with the guidance of the TASK-FROCE-TEAM for inclusion we have begun a rollout of the initiative "A House with Many Windows", consisting of a series of inclusive workshops, where children with and without disabilities and their families, will be participating and expressing through art, music and dance. The first workshops were inclusive drawing workshops with Gusti ([www.gustiart.com](http://www.gustiart.com); [www.windown.org](http://www.windown.org)--a plastic artist and disability rights activist). The first workshop was held with Colombian families and the second was coordinated with the Peru CO in which Peruvian families participated. The event was transmitted in Facebook live [https://www.facebook.com/UnicefLac/photos/a.261973903825969/3218213361535327/?type=3&theater](https://www.facebook.com/UnicefLac/photos/a.261973903825969/3218213361535327/?type=3&theater).  
- UNICEF and Special Olympics are sharing resources for families and frontline workers. The aim is to promote the rights and ensuring the well-being of persons with disabilities, with this particular work on those with intellectual disabilities (PCDI), in the face of the spread of COVID-19, creating a model that seeks to reduce disparities in equitable access to quality health and social protection services for people with disabilities in the face of this pandemic. | **Secondary-age Education and Skills Development** | - Together with America Solidaria, Caserta Foundation and the CONCAUSA Youth Network, LACRO launched the “Plan12 - Learn to transform”, campaign aiming to support adolescents in the region to develop transferable skills in the context of the COVID-19 pandemic. Based on the 12 skills included in our Global Framework on Transferable Skills, every week a podcast, a video and a challenge will be launched focused on one specific skill. In the podcasts and videos, adolescents interview experts and peers on the “Skill of the Week”, and every week adolescents from the region are invited to put into practice the same skill through a social media challenge. You can find all the weekly updates of Plan 12 here. The raw materials are also available in the SharePoint.  
- The “Skill of the Week” is **Empathy**, you can learn about the past activities for **Creativity** and **Critical Thinking** in the Plan12 webpage. |
Early Child Development (ECD)

- Dissemination of ECD LAC Strategic Orientation and Mapping of ECD activities;
- Co-organization (with UNESCO) of a webinar on the importance of Early Childhood Education (ECE) in COVID19 context and the efforts for safe reopening of centers on June 4rd.
- ECD LAC team, with the support of other sections, is working on the development of General guidance for reopening of ECD centers and services and the development of operational tools to support violence prevention, detection and referral via telephone calls.
- Afinadata’s pilot in Peru was approved by the CO senior management. The pilot will target three regions of the country and will provide remote support through health service providers to young children and their families.
- Dissemination of a guide to help parents combine teleworking with care of young children (available in Spanish, English, Portuguese and French).

VI. GLOBAL RESOURCES

At the headquarters level, several key documents have been developed to support the education response to COVID-19, all available here:

- The COVID-19 Education: Contingency planning, risk reduction, preparedness and response framework;
- The guide with key Messages and Actions for COVID-19 Prevention and Control in Schools;
- Several supplementary documents on key topics such as cleaning and supply, mental health and psychosocial support, child protection and accelerated education, to name a few and;
- The Framework for Reopening of Schools.

Other global resources:

- Global Education Cluster
- Safe back to School: A Practitioner’s Guide
- Sesame Street Materials COVID-19
- INEE COVID-19 Resources

VII. REGIONAL RESOURCES

At the regional level, the LACRO Education Section has translated and adapted to the region the key documents developed at the global level mentioned above. Here you can find the translation into Spanish, French and Portuguese of the documents, as well as a catalogue in English and Spanish with a brief overview of the documents’ content.

This material is available for UNICEF staff at LACRO COVID-19 Education Section in SharePoint
UNICEF LACRO Education repository: The LACRO Education team has also launched a **public access repository of documents** with materials available to support the educational response to COVID-19. This space will be updated frequently to include new resources. **The categories are:**

2. School reopening.
3. Education and learning (ECE).
4. Education and learning for adolescents.
5. Mental health and psychosocial support.
6. Inclusive education.

**Regional Coordination:** The regional Education Group (REWG)\(^3\) has been actively working to respond to the COVID-19 crisis. The group is advancing towards the development of several regional activities, aimed to support regional actors in reestablishing the education services in LAC. These activities are done in conjunction of most members of the REWG.

✓ A guidance to adapt the curriculum to the current COVID-19 crisis.
✓ Creation of the REWG website in OCHA’s *Humanitarian Response site*.
✓ An online teachers’ course to respond to the educational needs that emerge during and after the emergency of COVID-19.
✓ A regional repository of COVID-19 related documents, [hosted by UNESCO with all resources and tools by the REWG](#).
✓ Data on the [national education responses from all MoEs in the LAC region](#).

**VIII. NATIONAL RESOURCES**

At the national level, Ministries of Education have developed and/or started using their online learning platforms. You can access the list of MoEs remote learning platforms [here](#).

---

\(^3\) The REWG was established in 2011 under the framework of REDLAC (Risk Emergency Disaster Working group for Latin America and the Caribbean) to support Ministries of Education in their education in emergencies response (including risk management, disaster and migration), based on the Sendai Framework, the World Initiative for Safe Schools (WISS) and the Global Education Cluster, to ensure the right to education to all children in the LAC region. The Group is co-led by UNICEF and Save the Children and comprises the following members: AECID, ECHO, IFRC, INEE, IOM, NRC, OCHA, PLAN International, RET, UNAIDS, UNDRR, UNESCO, UNHCR, and UN WOMEN
