It is fine to say “We don’t know, but we are working on it; or we don’t know, ‘but we think’.” Use this as an opportunity to learn something new with your child!

Allow your child to talk freely. Ask them open questions and find out how much they already know.

Always answer their questions truthfully. Think about how old your child is and how much they can understand.

Your child may be scared or confused. Give them space to share how they are feeling and let them know you are there for them.

Some may not be true. Use trustworthy sites: [WHO](https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public) and [UNICEF](https://www.unicef.org/coronavirus/covid-19) from WHO and UNICEF.

Explain that COVID-19 has nothing to do with the way someone looks, where they are from, or what language they speak. Tell your child that we can be compassionate to people who are sick and those who are caring for them.

Look for stories of people who are working to stop the outbreak and are caring for sick people.

Check to see if your child is okay. Remind them that you care and that they can talk to you anytime. Then do something fun together!
