Ukraine Programme Targets and Results for 2022¹

Results from previous reporting period 

Increase during current reporting period 

Health and Nutrition

children and women accessing primary health care in UNICEF-supported facilities

Water, Sanitation and Hygiene

people accessing a sufficient quantity of safe water for drinking and domestic needs

Education

children accessing formal or non-formal education, including early learning

people reached with critical WASH supplies

children accessing psychosocial support, social and emotional learning, or life skills education

Child Protection, Gender Based Violence and Prevention of Sexual Exploitation and Abuse

children and caregivers accessing mental health and psychosocial support

Cross-sectoral

people reached through messaging on access to services

children who have received individual case management

people sharing their concerns and asking questions/clarifications to address their needs through established feedback mechanisms

women, girls and boys accessing GBV/VAC response interventions

Social Protection

of households reached with UNICEF funded multi-purpose humanitarian cash transfers

¹ 6 months target until August 2022.

² This result is calculated based on the delivery of supplies from UNICEF to implementing partners.

³ Overachievement reported on the case management indicator is mainly due to: (i) under-estimation of target at the planning stage, to be adjusted in a future revision; and (ii) the increase of the coverage of case management through hotlines, 50 multidisciplinary mobile teams and social workers from NGO partners.

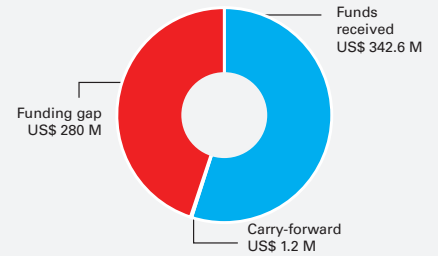

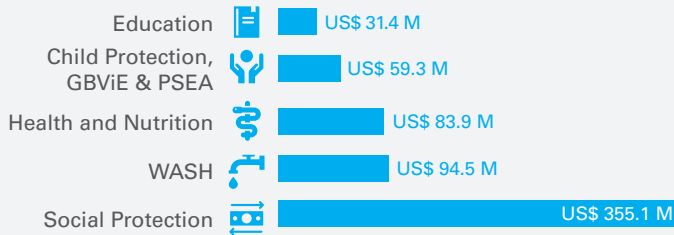

⁴ This result does not include GBV risk mitigation and prevention across sectors.

⁵ Unique numbers that contacted the hotline (one number could call 1-3 times per period).

Human Resources

Scaling-up UNICEF operational capacity for the response

Prior to the response, UNICEF had **98 regular staff** in the Ukraine Country Office (UCO).

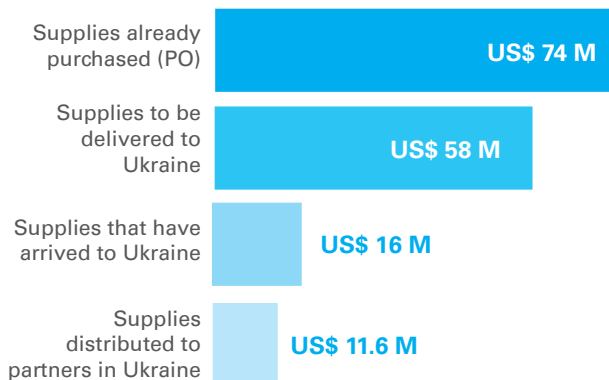

UNICEF aims to scale-up operational capacity by recruiting **17 new staff members** for UCO.*

Currently, UNICEF has **29 surge staff on the ground** to support the response.

*UCO is currently preparing a second round of recruitment scale up which will result in an increased number of posts.

as of May 13 2022

Supply

as of May 13 2022

Partners

UNICEF has

80 Government and civil society implementing partners engaged in UNICEF-supported response actions across all of Ukraine.

UNICEF has signed

US\$10.7 M worth of new implementing partnership agreements for Ukraine since March 1 2022.

as of May 13 2022

Three-zone humanitarian response strategy

UNICEF is using a zonal differentiated approach to its humanitarian response in Ukraine.

In the east (**Zone 1**), UNICEF is using rapid response teams and inter-agency humanitarian convoys, engaging partners to implement its response.

WASH*. Supplies distributed to 5,000 IDPs in **Kropyvnytskyi**. Additional 40,000 people reached in hard-to-reach and contested areas in Lyman and Bahmut.

Health*. 10 metric tons of health supplies were delivered to health facilities in **Zaporizhzhia, Dnipro** and **Kharkiv**, as well as an ambulance to be used as a mobile unit for paediatric support in **Zaporizhzhia**.

Humanitarian Cash Transfer*. 500 families were registered in the multi-purpose cash assistance programme in **Dnipro**.

Evacuation*. During the reporting period, UNICEF supported the evacuation of 1,500 people from **Mariupol and frontline locations**, including 50 people (11 children) evacuated from the Azovstal plant.

In the central and western parts (**Zones 2 and 3**), which have security risks but little to no access challenges, UNICEF is using existing national systems and structures and is engaging local authorities (regional, municipal) and civil society partners to implement its humanitarian response.

Since the war escalated, UNICEF Ukraine has also increased its response capacity with personnel in **Lviv, Kyiv, Dnipro, Donetsk, Luhansk, Vinnytsia**.

*Figures measured during the reporting period.
