

Humanitarian Response for Children Inside Ukraine

Factsheet No. 3 (May 13 - May 20 2022)

Ukraine situation

The map does not reflect a position by UNICEF on the legal status of any country or territory or the delimitation of any frontiers.
*UNICEF Response Outside of Ukraine
¹The zones refer to UNICEF's three-zone humanitarian response strategy.
²The figures represent IDP estimates as per IOM's May 3rd survey.

Ukraine Programme Targets and Results for 2022¹

Results from previous reporting period 

Increase during current reporting period 

Health and Nutrition

children and women accessing primary health care in UNICEF-supported facilities

Education

children accessing formal or non-formal education, including early learning

of girls and boys benefitting from supplied education, ECD and recreation kits or learning materials

children accessing psychosocial support, social and emotional learning, or life skills education

Cross-sectoral

people reached through messaging on access to services

people sharing their concerns and asking questions/clarifications to address their needs through established feedback mechanisms

Water, Sanitation and Hygiene

people accessing a sufficient quantity of safe water for drinking and domestic needs

people reached with critical WASH supplies

Child Protection, Gender Based Violence and Prevention of Sexual Exploitation and Abuse

children and caregivers accessing mental health and psychosocial support

children who have received individual case management

women, girls and boys accessing GBV/VAC response interventions

Social Protection

of households reached with UNICEF funded multi-purpose humanitarian cash transfers

¹ 6 months target until August 2022.

² This result is calculated based on the delivery of supplies from UNICEF to implementing partners.

³ Overachievement reported on the case management indicator is mainly due to: (i) under-estimation of target at the planning stage, to be adjusted in a future revision; and (ii) the increase of the coverage of case management through hotlines, 50 multidisciplinary mobile teams and social workers from NGO partners.

⁴ This result does not include GBV risk mitigation and prevention across sectors.

⁵ Unique numbers that contacted the hotline (one number could call 1-3 times per period).

Scaling-up UNICEF operational capacity for the response

Prior to the response, UNICEF had **98 regular staff** in the Ukraine Country Office (UCO).

Currently, UNICEF has **28 surge staff on the ground** to support the response.

*UCO is currently preparing a second round of recruitment scale up which will result in an increased number of posts.

UNICEF aims to scale-up operational capacity by recruiting **17 new staff members** for UCO.*

as of May 20 2022

Partners

UNICEF has

85 Government and civil society implementing partners engaged in UNICEF-supported response actions across all of Ukraine.

UNICEF has signed

US\$14.5 M worth of new implementing partnership agreements for Ukraine since March 1 2022.

as of May 20 2022

Supply

Supplies already purchased (PO) **US\$ 74 M**

Supplies that have arrived to Ukraine **US\$ 15 M**

Supplies distributed to partners in Ukraine **US\$ 12.6 M**

Three-zone humanitarian response strategy highlights

UNICEF is using a zonal differentiated approach to its humanitarian response in Ukraine.

In the east (**Zone 1**), UNICEF is using rapid response teams and inter-agency humanitarian convoys, engaging partners to implement its response.

SPILNOS*

UNICEF and a partner conducted non-formal learning activities for more than **2,700 children** in **86 locations**, including in **15 Spilno Child Spots** located in **Zone 2** and **Zone 3**, across **Lviv, Ternopil, and Ivano-Frankivsk** oblasts. A new Spilno Child Spot was opened in **Poltava**, providing integrated PSS, health, and education services to approximately **1,500 children and caregivers** daily and connecting internally displaced people to local services.

WASH

During the reporting period, **21,600 litres of drinking water** were distributed in **Kharkiv** for seven key medical centres and families sheltering in subway stations. In addition, UNICEF and partners provided Kharkiv's subway shelters with **water filters and hygiene kits for 3,000 families**.

SUPPLIES

UNICEF noted increasing **access constraints** in **Druzhkivka, Kostiantynivka, Soledar and Bakhmut and Kramatorsk**, all located close to the eastern frontline. Supplies have been prepositioned for up to three months in these locations. The UNICEF Dnipro team is currently prepositioning **over 240 metric tons (MT) of RRM life-saving supplies** in Donetska (**Kramatorsk, Pokrovska, Bakhmut, Siversk, Kostiantynivka, Soledar, Druzhkivka**), Kharkivska (**Lozova, Kharkiv**), Zaporizska (**Zaporizhzhia**) and Dnipropetrovska (**Dnipro, Kryvyi Rih**) oblasts.

EVACUATION

UNICEF responded to the needs of over **700 people evacuated from frontline locations** during the reporting period. UNICEF provided remote support to evacuate **Spilno centres** in Donbass – Siversk and secured alternative locations. Both locations were shelled the following day, resulting in significant damage to the buildings.

*Spilno means "together" in Ukrainian. A Spilno spot is a center for connecting children with child protection services (including mental health and psycho-social support), learning, first aid and referrals for additional health services, and registration for humanitarian cash assistance.
