Three-zone humanitarian response strategy

UNICEF is using a zonal differentiated approach to its humanitarian response in Ukraine. In the east (Zone 1), UNICEF is using rapid response teams and inter-agency humanitarian convoys, and is engaging partners to implement its response. Supplies are also prepositioned therein to support children, women and other vulnerable people.

In the central and western parts (Zones 2 and Zone 3), which have security risks but little to no access challenges, UNICEF is using existing national systems and structures and is engaging local authorities (regional, municipal) and civil society partners to implement its humanitarian response. Since the war escalated, UNICEF Ukraine has also increased its response capacity with personnel in Lviv, Kyiv, Dnipro, Kropyvnytskyi, Donetsk, Luhansk, Vinnytsia, and other areas within Ukraine.

Scale-up in Operational Capacity

UNICEF has recently approved the scale-up of its operational capacity in Ukraine and prepares to recruit 195 new staff members (111 fixed term and 84 temporary appointment posts) to support the response to the emergency."

Humanitarian Cash Transfer

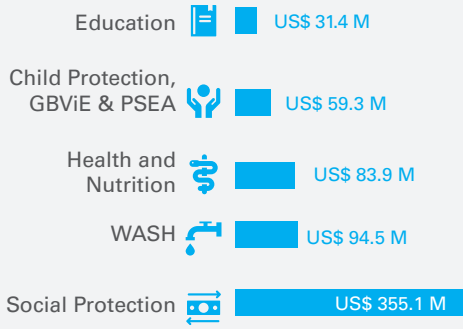

During the reporting period, UNICEF Ukraine has measured a substantial increase in its programmatic effectiveness for households reached with UNICEF funded multi-purpose humanitarian cash transfers. UNICEF programmatic reach increased from 1,251 to 17,497 households.
