

UNICEF CPHA – GBViE ToC Monitoring Framework

2022.09.16

Strategic Plan Indicator 3.A.6: Percentage of UNICEF-targeted women, girls and boys in humanitarian situations provided with risk mitigation, prevention or response interventions to address gender-based violence through UNICEF-supported programmes (humanitarian).				
Indicator	Key Definitions	Method of Computation	Sources	Reporting frequency
Outcome 1: Support survivors with access to a comprehensive set of services.				
Outcome 1.1: Minimum coordinated life-saving services are in place				
Indicator: % of service delivery points and providers in programme areas implementing survivor-centred standards for responding to survivors (disaggregated by type of response service and if local/national services)				
Availability and accessibility of quality GBV health, psychosocial and safety services are increased				
<p># and % of service delivery points that have been supported with technical capacity and/or supplies to provide life-saving services to survivors (disaggregated by type of response service)</p> <hr/> <p># and % of trained service providers who exhibit competence in providing survivor-centred care to GBV survivors (disaggregated by type of response service and local/national service providers)</p>	<p>Received technical and/or financial assistance on:</p> <ul style="list-style-type: none"> • Strengthening service providers' competencies through training (WHO/IRC Caring for Survivors of Sexual Assault, UNICEF/IRC Caring for Child Survivors, UNICEF Communities Care, etc.) • Financial or in-kind support to fill gaps in equipment or supplies • Improving facility characteristics, for example technical and financial assistance to help facilities and service delivery points provide safe and ethical care <p>Life-saving services for survivors, such as:</p> <ul style="list-style-type: none"> • Health: age-appropriate GBV-related health services, with a priority on post-rape care to adult and child survivors (including post-exposure prophylaxis and emergency contraception) • Psychosocial: crisis support, case management • Safety: safe shelter, emergency cash 	<p>Numerator: Sum of service delivery points supported</p> <hr/> <p>Denominator: Sum of all service delivery points</p> <hr/> <p>Numerator: Sum of trained service providers who exhibit competence in their area of GBV service provision</p> <hr/> <p>Denominator: Sum of trained service providers working in GBV service provision</p>	<p>Programme monitoring reports</p> <hr/> <p>Training reports</p>	<p>Every 6 months</p>
Outcome 1.2: Girls and women safely access multi-sectoral GBV services				
Indicator: # of survivors who receive GBV response services (disaggregated by sex and age)				
Output 1.2: Referral pathways are developed and functional				

Output Indicator 1.2.a # and % of operational sites where UNICEF has provided technical support on strengthening referral pathways	Received technical and/or financial assistance on: <ul style="list-style-type: none"> • Developing referral pathways • Ongoing monitoring to check functionality and gaps • Coordinating referral pathways and case coordination • Promoting community awareness about how and where to access services 	Numerator: Sum of service sites that have received technical assistance on GBV referral pathways from UNICEF or an implementing partner Denominator: Total number of sites where UNICEF or implementing partners are working on GBV prevention and response	Programme monitoring reports Review of GBV sub-cluster and service Provider documents GBVIMS	Every 6 months
Outcome 1.3: Communities are aware of the availability and value of GBV services				
Indicators: # or % of targeted community members who exhibit knowledge on available GBV services and how to access them (disaggregated by sex and age)				
Output 1.3: Local and national capacity for service delivery to GBV survivors is increased				
Output Indicator 1.3.a # of people reached through GBV community awareness activities to promote access to services to respond to incidents of GBV (disaggregated by age and sex)	Community awareness activities may include group discussions, dissemination of information on available GBV response services, estimated number of individuals listening to radio programmes with GBV messages, etc. Received technical and/or financial assistance on: <ul style="list-style-type: none"> • Developing clear messages about GBV and available GBV response services • Disseminating information on GBV and services (through info boards, radio, safe spaces etc.) in a safe and appropriate way • Community consultations on availability and accessibility of GBV services 	Output indicator 1.3.a: Sum of community members reached through GBV awareness activities (disaggregated by age and sex)	Programme monitoring reports Training reports	Every 6 months
Output Indicator 1.3.b # of local and national service providers trained on GBV outreach and engagement with communities		Output indicator 1.3.b: Sum of local and national service providers trained on GBV outreach and community engagement		
Outcome 2: Mitigate risk of GBV across humanitarian sectors.				
OUTCOME 2.1: Humanitarian assistance and programmes are safe, protective and responsive to the needs of girls and women				
Indicator: # of UNICEF-targeted women, girls and boys in humanitarian situations benefiting from GBViE risk mitigation implemented by UNICEF sectors (disaggregated by sex, age and sector)				
OUTPUT 2.1: Humanitarian actors across UNICEF sectors and clusters design and implement programming in line with the IASC GBV Guidelines				
Output Indicator 2.1.a # and/or % of UNICEF-funded projects or agreements with implementing partners with evidence of integration of GBV risk mitigation, in	Evidence of GBV risk mitigation integration may include:	Output indicator 2.1.a Numerator: Sum of emergency projects or agreements with	Training and programme monitoring reports	Every 6 months

line with recommendations from the IASC GBV Guidelines and/or sector-specific guidance that already integrates such recommendations	<ul style="list-style-type: none"> • Institutionalization of GBV risk mitigation considerations in UNICEF planning documents such as Country Programme Documents, Annual Work Plans, etc. • Assessment tools that integrate GBV risks relevant to one or more programmatic sectors • Mechanisms and systems to include girls' and women's voices in programme design, implementation and M&E processes 	<p>implementing partners that demonstrate evidence of implementation and monitoring of GBV risk mitigation strategies</p> <p>Denominator: All emergency projects or agreements with implementing partners</p>	<p>CO planning documents and results frameworks (e.g., integration of specific GBV risk mitigation related indicators, targets etc.)</p> <p>PDs/PCAs/SSFAs with Implementing partners</p>	
Output Indicator 2.1.b # of UNICEF sectors that integrate and measure at least 2 GBV risk mitigation strategies, in line with recommendations from the IASC GBV Guidelines and/or sector-specific guidance that already integrates such recommendations ⁸⁵	<ul style="list-style-type: none"> • Inclusion of quantitative and/or qualitative indicators to monitor GBV risks and results of GBV risk mitigation strategies • Initiatives to increase the capacity of UNICEF and implementing partners to integrate GBV risk mitigation into their programmes, in line with the IASC GBV Guidelines recommendations 	Output indicator 2.1.b Sum of sectors that integrate and measure at least 2 GBV risk mitigation strategies		
Output Indicator 2.1.c # of humanitarian practitioners trained in integrating GBV risk mitigation in their programmes (disaggregated by sex and sector)	<ul style="list-style-type: none"> • Initiatives to increase the capacity of UNICEF and implementing partners to safely refer survivors utilizing the GBV referral pathway <p>Received technical and/or financial assistance on:</p> <ul style="list-style-type: none"> • Capacity-building on GBV risk mitigation to make programming safer and in line with recommendations from the IASC GBV Guidelines and/or sector-specific guidance that already integrates such recommendations • Monitoring uptake, implementation and outcomes of GBV risk mitigation strategies throughout assessment, design, implementation and M&E phases of the humanitarian programme cycle 	Output indicator 2.1.c Sum of UNICEF staff and/or implementing partners trained on GBV risk mitigation		
Outcome 2.2: Girls and women are resilient against GBV				
Indicator: % of girls and women surveyed that report increased perception of safety and protection from GBV risks (disaggregated by age)				
Output 2.2.: Community-based safety plans to improve safety and reduce GBV risks are implemented in all operation areas				
Output Indicator 2.2.a	Received technical and/or financial assistance on:	Output indicator 2.2.a:		Annually

# of community safety plans developed and implemented	<ul style="list-style-type: none"> Supporting community-based safety planning and action Providing assistance on GBV assessments and analysis Identification of geographical hotspots to inform safety planning an action 	Sum of implemented community safety plans	Programme documents	
Output Indicator 2.2.b # of recommendations from safety plans to address GBV risks implemented		Output indicator 2.2.b: Sum of # of safety plan recommendations made and acted upon	Assessment and monitoring reports	
Outcome 2.3: Girls and women gain greater mobility, dignity and agency and are less vulnerable to GBV				
Indicator: % of girls and women surveyed that report improved mobility, dignity and/or agency (disaggregated by age)				
Output 2.3: Girls and women have access to information, resources, and services that build their safety and resilience				
Output Indicator 2.3.a # of adolescent girls and women who receive a dignity kit or other risk-reduction supplies provided through a UNICEF-supported programme (disaggregated by age)	<p>Received technical and/or financial assistance on:</p> <ul style="list-style-type: none"> Providing technical assistance on assessments related to dignity kit composition and distribution planning Provision of dignity kits and/or other supplies. Monitoring dignity kit /supply distribution (including post-distribution monitoring) Building capacity for the development and ongoing implementation of safe spaces for girls and women 	Output indicator 2.2.a: Sum of girls and women accessing dignity kits/supplies, (disaggregated by age)	<p>Programme documents</p> <p>Monitoring data collected by programme areas</p>	Every 6 months or annually
Output Indicator 2.3.b # of static and/or mobile safe spaces established or supported by UNICEF partners		Output indicator 2.2.b: Sum of static/mobile safe spaces		
Output Indicator 2.3.c # of girls and women accessing safe spaces (disaggregated by age)		Output indicator 2.2.c: Sum of girls and women accessing safe spaces (disaggregated by age)		
Outcome 2.4: Action is taken with duty bearers to reduce conflict-related sexual violence and sexual exploitation and abuse.				
Indicators:				
# of relevant COs where UNICEF is a lead actor in the PSEA Task Force				
# of relevant COs contributing resources (technical, material and/or financial) to CRSV monitoring and response efforts				
Output 2.4: UNICEF contributes to PSEA systems and CRSV monitoring and reporting (where relevant)				
Output Indicator 2.4.a # and % of COs with functioning internal UNICEF PSEA efforts in place	<p>Received technical and/or financial assistance on:</p> <ul style="list-style-type: none"> Training of UNICEF and implementing partners on PSEA Development of SEA victim assistance in coordination with GBV response services Development of and/or support to community-based complaints mechanisms Development of survivor-centred reporting processes for SEA 	<p>Proportion of CO staff trained on PSEA</p> <p>Evidence of advocacy actions taken to address CRSV (could be a UNICEF Representative speaking at the HCT/UNCT on addressing CRSV)</p>	<p>Training and programme monitoring reports</p> <p>Programme/ project strategies and results frameworks</p>	Every 6 months or annually
Output Indicator 2.4.b # and % of countries with a functioning MRM system that includes sexual violence (and/or inclusion of sexual violence in MARA efforts)				

	<ul style="list-style-type: none"> • Training to address sexual violence through the MRM or MARA • Advocacy to address CRSV • Strengthening linkages between MRM/MARA data collection and GBV response services/referral pathways 			
Outcome 3: Prevent GBV by addressing its underlying conditions and drivers.				
Outcome 3.1: Laws and policies that promote girls' and women's rights are implemented by governments				
Indicator: # of new and/or reformed laws and protocols that promote girls' and women's rights and address GBV				
Output 3.1: Governments are supported to develop and implement policies, laws and protocols that address GBV				
Output indicator 3.1.a # of new or updated policies, laws and protocols to address GBV that received UNICEF support	Received technical and/or financial assistance on: <ul style="list-style-type: none"> • Mapping gaps in policies, laws and protocols relevant to addressing GBV • Advocacy to enact changes in policies, laws and protocols • Developing or updating of policies to address GBV • Developing of action plans to implement policies, laws and protocols 	Sum of mapping or assessment reports related to policies, laws and protocol review Sum of policies, laws and protocols that address GBV	Mapping or assessment reports Updated and new policies, laws and protocols Programme reports	Annually
Outcome 3.2: Harmful norms begin to shift and norms that promote equality, safety and dignity begin to take hold				
Indicator: % of target communities where harmful beliefs and norms that foster GBV have been challenged				
Output 3.2: Strategies to shift harmful norms and foster community-led actions against GBV are implemented				
Output Indicator 3.2.a # of social norm change interventions underway to address GBV (disaggregated by type)	Received technical and/or financial assistance on: <ul style="list-style-type: none"> • Community discussion and dialogue to question harmful norms and promote gender-equitable, respectful social norms • Social norms communications campaigns • Community mobilization and action against GBV 	Output indicator 3.2.a: Sum of social norm change interventions being implemented (disaggregated by type)	Project monitoring reports Communication materials produced	Annually
Output Indicator 3.2.b # of women, men, girls and boys reached by social norm change interventions (disaggregated by sex and age)		Output indicator 3.2.b: Sum of people participating in social norm change interventions (disaggregated by age and sex)		
Output Indicator 3.3.c # of collective community actions taken to prevent GBV		Output indicator 3.3.c: Sum of community actions against GBV (disaggregated by type of action)		
Outcome 3.3: Girls and women are empowered economically and socially				
Indicator: # of UNICEF programmes that successfully promote the economic and social empowerment of girls and women (disaggregated by age)				

Output 3.3: GBV programmes build girls' and women's assets and agency				
Output Indicators 3.3.a: # of asset-building interventions implemented (disaggregated by type)	Received technical and/or financial assistance on: Activities to build human assets, such as: <ul style="list-style-type: none"> • Sexual and reproductive health education and services; • Non-formal education to improve literacy, communication, critical analysis, problem-solving and life skills; • Recreational activities; and/or • Awareness-raising and education on children's rights. Activities to build social assets, such as: <ul style="list-style-type: none"> • Girls' social groups and clubs; • Peer support networks; and/or • Mentoring programmes. Activities to build economic assets, such as: <ul style="list-style-type: none"> • Vocational and business skills training; • Financial education; • Group and individual savings and credit schemes; • Small-scale income-generating activities; and/or • Cash transfer and other social protection measures for girl-headed households. 	Output indicator 3.3.a: Sum of asset-building interventions offered	Programme monitoring reports	Every 6 months or annually
Output Indicator 3.3.b: # of adolescent girls and women benefitting from asset-building interventions (disaggregated by activity type ⁸⁹ and age)		Output indicator 3.3.b: Sum of girls and women in asset-building interventions (disaggregated by type of asset building activity and age)
