

UNICEF CPHA – PSEA ToC Monitoring Framework

2022.09.16

Level	Indicator	Means of Verification	Type	Source	Response Options
Impact	Humanitarian assistance delivered free from Sexual Exploitation and Abuse				
Impact					
Outcome 1	Strengthened reporting: All children, women and communities have access to safe, confidential and child-sensitive reporting mechanisms				
Outcome	Number of reported allegations of SEA (Disaggregated by age and sex (0-17))	UNICEF Notification Alert (SIRs)	#	HQ PSEA monitoring framework	Absolute number
Output 1.1.	Safe, accessible, and child-sensitive reporting mechanisms are in place for PSEA				
Output	Status of roll-out of UNICEF internal reporting system	CMT minutes CO PSEA Action Plans	Rating	SMQ: Annual HQ PSEA internal monitoring platform: Quarterly	SMQ - Check
Output	Status of development of Inter-agency SOPs on Community Based Complaint Mechanism	UN Country Team/ Humanitarian Country Team meeting minutes; PSEA Network CBCM SOPs	Rating	RAM: Annual Others: 6 months	SMQ - Check
Output	Number of children and adults who have access to a UNICEF-supported SEA reporting channel	Routine programme monitoring report	#	SMQ: Annual	Absolute Number
Output 1.2.	Community mobilization and awareness raising on PSEA in each community receiving assistance from UNICEF.				
Output	Number of children and young people reached through awareness activities and UNICEF supported community mobilisation interventions on PSEA	Routine programme monitoring report	#	SMQ: Annual	Absolute number
Output	Percentage of UNICEF-supported sites which have communications materials on how to report on SEA and on survivor-centered assistance	Routine programme monitoring report	%	SMQ: Annual	Percentage of sites reporting
Output 1.3.	HCT PSEA Action Plan is developed.				
Output	Status of development of the HCT PSEA Action Plan	HCT minutes	Rating	SMQ: Annual	SMQ - Check
Output 1.4.	SEA risk assessment is carried out by the PSEA Network				
Output	Number of locations where an SEA risk assessment is carried out	HCT minutes	#	SMQ: Annual	Absolute number

Outcome 2	Children, women and communities have access to quality PSEA prevention and response services, and they are engaged in risk mitigation strategies and in decision-making processes				
Outcome	Percentage of reported child survivors who accessed SEA survivor assistance within 48 hours of referral/receipt of case by UNICEF	Routine programme monitoring report; GBVIMS; UN Notification Alert	%	SMQ: Annual	Percentage of reported child survivors
Output 2.1.	Allied sectors* have increased capacity and resources to identify and mitigate risks, and to provide support to women and children that contribute to reducing their vulnerability				
Output	Number of communication strategies to raise awareness about SEA developed with information on prevention and response services	Knowledge management of PSEA network in UNICEF	#	PSEA internal monitoring platform: Annual	Absolute number
Output	The mapping of CP & GBV government and CSO services at all levels has been completed with UNICEF support	Routine programme monitoring reports	Boolean	PSEA internal monitoring platform: Annual	“yes” or “no” or “don’t know”
Output	Number of PSEA workforce trained and supported in the development of sector-specific risk mitigation plans to allied sectors	Routine programme monitoring reports	#	PSEA internal monitoring platform: Annual	Absolute number
Output 2.2.	Women & children have increased knowledge on PSEA & participation in decision-making processes at community level				
Output	Number of research and evidence products in PSEA and SBC learning agendas on PSEA and its drivers to better understand the context, the situation, and required communication approaches/strategies	Knowledge management	#	PSEA/SBC learning and evidence agendas: Annual	Absolute number
Output	Availability by 2025 of PSEA communication & engagement strategy, through a participatory approach and with M&E plan, produced together with SBC section	Knowledge management	Boolean	PSEA internal monitoring platform: 2025	“yes” or “no” or “don’t know”
Outcome 3	Child victims/witnesses of SEA have their case investigated/processed following international standards and SEA survivors have access to quality support				
Outcome	Percentage of reported child survivors who accessed SEA survivor assistance within 48 hours of referral/receipt of case by UNICEF	Routine programme monitoring report; GBVIMS; UN Notification Alert	%	RAM: Annual	Percentage of reported child survivors
Output 3.1.	UNICEF’s IPs have increased capacity and resources to apply child-friendly principles to SEA investigations				
Output	Number of personnel from Child Protection and GBV partner agencies trained on good practices for intake as first responders and for GBV case management (Survivors/ Victims Assistance Protocol).	Routine programme monitoring report	#	SMQ: Annually	Absolute number
Output 3.2.	Child survivors of SEA are supported to access justice and or redress, in accordance with their wishes				
	Number of child survivors supported by UNICEF to access justice/redress	Training reports	#	PSEA internal monitoring platform	Absolute number
	Proportion of UNICEF partners with PCAs trained on child-sensitive, survivor-centered standards for SEA investigations	Training reports	%	PSEA internal monitoring platform	Percentage of UNICEF partners

	Number of personnel from Child Protection and GBV partner agencies trained on good practices for intake as first responders	Routine programme monitoring report	#	PSEA internal monitoring platform	Absolute Number
