

UNICEF CPHA – UASC ToC Monitoring Framework

2022.09.16

Level	Indicator	Linked to	Means of Verification	Type	Source	Response Options
Impact	UASC inside and outside their country of nationality, regardless of their legal and migration status, access and enjoy their rights to care, protection, and a family environment					
Impact	Proportion of children in need in humanitarian settings requiring alternative care and or reunification	Impact	HAC for the children in need (denominator) Program document review for the children requiring services (numerator)	%	HAC	percentage
Impact	Proportion of UASC targeted that have been reunified with their families/caregivers	Impact	Program document review	%	CCC 4, 6	percentage
Impact	Rate of children in residential care (in humanitarian settings)	Impact	Government data	Rate	CP TOC	percentage
Outcome 1	Family separation is prevented, and children are better protected					
Outcome	Proportion of targeted children, families, communities, government and civil society stakeholders equipped with knowledge and skills to prevent/respond to separation	Outcome 1	Program document review	%		percentage
Outcome	Proportion of targeted staff from allied sectors (transportation, camp management, health, food security...) equipped with knowledge and skills to prevent/respond to separation	Outcome 1	Program document review	%		percentage
Outcome	Number of countries that have an analysis of the causes, patterns of separation, community-based modalities of care, with an attention to highly vulnerable children such as children on the move, children with a disability, children associated with armed forces/groups.	Outcome 1	Program document review	#	CCC 2, 4, 6	absolute number
Output	A monitoring system is in place at the community level to identify children at risk of separation.	Output	Programme document review (monitoring system)	Boolean	CPMS 13.2.5	"yes" or "no" or "don't know"

Output	Number and Proportion of surveyed caregivers who report that unnecessary separation was successfully averted due to participation in project activities.	Output	Structured interview (assessment or survey at baseline and endline, final evaluation to identify attribution using a counterfactual); programme document review (monitoring system with a record of children at risk)	# and %	CPMS 13.2.6.	absolute number
Output	Status of analysis of the causes and patterns of separation	Outcome 1	Country Office SMQs / HAC Reporting	Boolean	CCC	Scaling: i) Do not have an analysis ii) Assessment of family separation has been conducted and includes analysis of the causes and patterns of separation iii) Assessment of family separation has been conducted; includes analysis of the causes and patterns of separation; and priority actions to prevent separation are being implemented.
Output	Number of family contacts restored between separated family members	Outcome 1	UNHCR systems	#	UNHCR FOCUS	absolute number
Outcome 2	UASC are identified, family ties are restored, and reunified with their families, when in their best interests					
Outcome	Proportion of targeted UASC that are identified and provided with family tracing services through a case management approach	Outcome 2	CPIMS SMQs Program document review	%	CCC 2, 4, 6	
Outcome	Number of countries with an (UASC) integrated case management system, including referral pathways for services, periodic review of placement in care and a safe information management system, in place*	Outcome 2	CPIMS SMQs Program document review	#	CCC 2	

Output	How many unaccompanied and separated children in humanitarian situations were targeted by UNICEF through alternative care and or reunification during the calendar year (denominator)?	Outcome 2	Country office annual reporting SMQ	#	SMQ-23-01-3.a.5.b-35	Absolute Number
Output	Of the unaccompanied children targeted by UNICEF through alternative care and or reunification during the reporting year, (a) how many were provided with alternative care services and (b) how many were reunified with their primary caregiver?	Outcome 2	Country office annual reporting SMQ	#	SMQ-23-01-3.a.5.b-36	Absolute number Disaggregation requirements: a) Reunified with their families as a result of UNICEF support; b) Provided with family-based care or appropriate alternative services through UNICEF support. Note the numbers under the two types of services should not be added as the same child might benefit from both over the calendar year.
Output	Percentage of UNICEF targeted girls and boys in humanitarian settings who have received individual case management	Outcome 2	Country office annual reporting SMQ	#	New SMQ	absolute number
Output 3	All UASC without protective and suitable care are provided with adequate alternative care					
Outcome	Proportion of targeted UASC provided with adequate alternative care (Community-based vs. residential)	Outcome 3	CPIMS SMQs Program document review	%	CCC 4, 6	percentage
Outcome	Number of countries (in emergency settings) that have legislation and policies that promote prevention of family separation and promotion of family-based alternative care, in line with the 2009 Guidelines for the Alternative Care of Children*	Outcome 3	SMQs Program document review	#		absolute number
Outcome	Proportion of targeted UASC accessing child welfare, child justice, education, skills training, livelihood opportunities and health services, as required	Outcome 3	CPIMS SMQs Program document review	%		percentage

Output	Number of identified foster caregivers/mentors trained and provided with supervision support.	Outcome 3	Programme document review (training records)	#	CPMS 19.2.4	absolute number
Output	Proportion of staff trained on alternative care.	Outcome 3	Programme document review (training records, registry of trained foster caregivers/mentors including which ones are receiving supervision support)	%	CPMS 19.2.2	percentage
Output	Proportion identified UASC in suitable alternative care	Outcome 3	CPIMS SMQs Program document review	%	CCC	percentage
