

Humanitarian Response for Children Inside Ukraine

End-of-Year Factsheet (24 February – 31 December 2022)

Ukraine situation

5.9 million internally displaced in Ukraine (IDP)

OCHA, Ukraine Situation Report, 19 December 2022

3.3 million children in need in Ukraine

Ukraine Flash Appeal 2022, August revision

17.7 million people in need in Ukraine

Ukraine Flash Appeal 2022, August revision

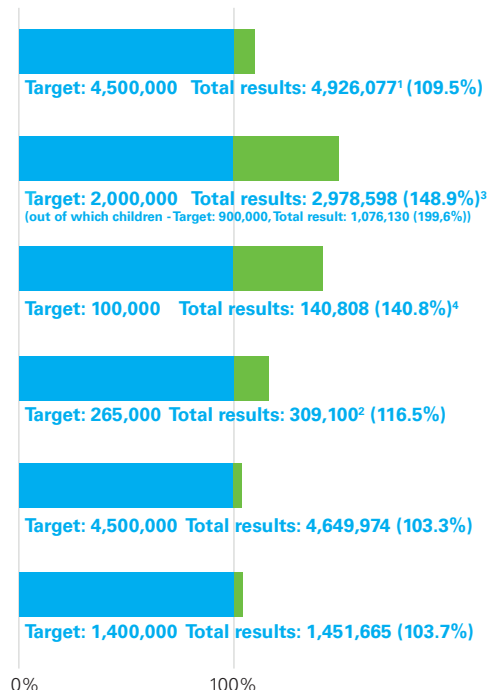

2.3 million children targeted by UNICEF Response in Ukraine from March to December 2022

UNICEF revised HAC appeal as of November 2022

Ukraine Programme Key Targets and Results*

Targets** ■ Overachievement of the result ■

	Health and Nutrition	# children and women accessing primary health care in UNICEF-supported facilities and mobile teams
	Child Protection, Gender Based Violence and Prevention of Sexual Exploitation and Abuse	# children and caregivers accessing mental health and psychosocial support (MHPSS) ² # women, girls and boys accessing GBV/VAC response interventions
	Social Protection	# of households reached with UNICEF funded multi-purpose humanitarian cash transfers
	Water, Sanitation and Hygiene	# people accessing a sufficient quantity of safe water for drinking and domestic needs
	Education⁵	# children accessing formal or non-formal education, including early learning

* Progress is reported against the revised targets for the UNICEF response inside Ukraine, reflected in the updated [2022 Ukraine Humanitarian Action for Children \(HAC\) Appeal](#). Results reporting covers the period 01 March 2022 – 23 December 2022.

** All indicated targets are set for 2022.

¹ This result is calculated based on the delivery of supplies from UNICEF to implementing partners.

² The funds (USD 95,914,319.4) were received, but Humanitarian Cash Operations and Programme Ecosystem (HOPE) not yet updated.

³ Since MHPSS needs of the overall child- and caregiver population became one of the most pressing issues and MHPSS 2022 targets appeared to be less than the real demand, UNICEF increased its investments in MHPSS. As a result of available service diversification, leveraging the digital-savviness of the general population, UNICEF was able to reach almost 3 million children and caregivers. The high demand for this service is also why in the [2023 HAC Appeal](#), UNICEF has re-set the target to reach 3.1 million children and caregivers.

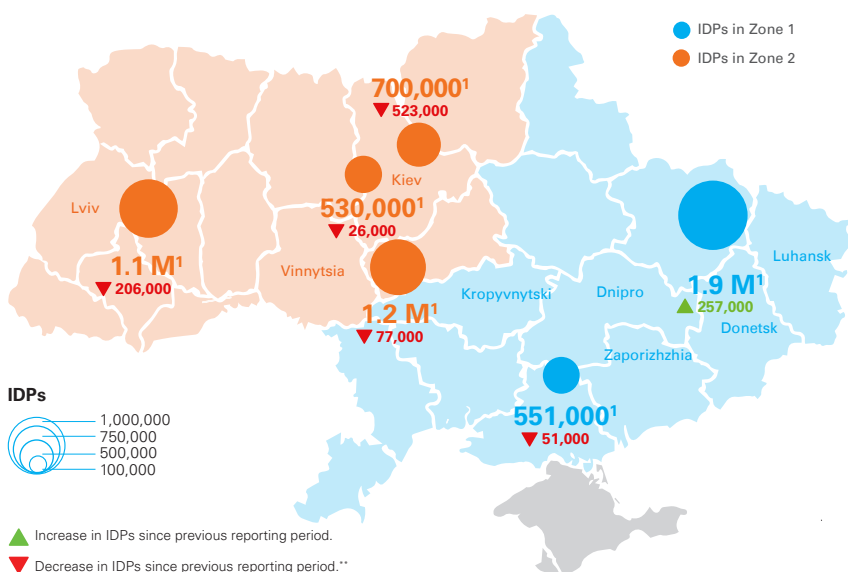

⁴ Significant achievements were made in the provision of VAC and GBV response services due to the cost effective and scalable delivery to children and families highly concentrated in urban centers and the rapid scale up of mobile services. A high level of demand for such services has also prompted the increase in the [2023 UNICEF HAC Appeal](#).

⁵ This includes cumulative results since the response started and results for some interventions were only reported at the end of the year.

as of December 23, 2022

UNICEF Programme Response in Ukraine

Estimated Location of Internally Displaced Persons by Macro-Region*

The map does not reflect a position by UNICEF on the legal status of any country or territory or the delimitation of any frontiers.

¹ The figures represent IDP variation estimates as per IOM's November/December 2022 survey (11th Round).

* A macro-region is a territorial unit comprised of multiple oblasts (regions), as defined by the Law of Ukraine "On the Principles of State Regional Policy" (Article 1, item 2).

** The relative decrease in the IDP figure may partially be related to recent expansion of phone service coverage to newly accessible areas, where fewer IDPs reside.

as of November 30, 2022

Situation Overview and Humanitarian Needs

The ongoing war significantly increased humanitarian needs in 2022 and continues to have a brutal impact. By the end of 2022, a total of 17.7 million people were estimated to be in need of urgent humanitarian assistance, including 3.4 million children requiring protection interventions.¹ Since February 2022, 1,148 children have been killed or injured² while millions have fled, uprooted from their homes, separated from their families or put at risk of violence.³ There are currently 5.9 million people internally displaced inside Ukraine, a reduction from the 6.5 million recorded at the end of October⁴, but a still extremely significant number. Furthermore, in November and December, yet another 680,000 people were forced from their homes, 40 per cent fleeing from the east and 25 per cent from the south of the country.⁵

In areas affected by intense fighting, services were decimated, leaving protection mechanisms no longer able to adequately support vulnerable children and families. The war heightened children's risk of disease, violence, family separation, child trafficking and unexploded ordnances. Schooling has been disrupted for 5.7 million children⁶, around 1.5 million children in Ukraine are reported to have been left at risk of mental health issues as a result of being exposed to the horrors of war⁷ and humanitarian access to vulnerable families in areas under active fighting still remains challenging.

Funding

Funding requirement US\$ 987.3 M

Funding status as of 31 December*

UNICEF received US\$813.9 million for its response inside Ukraine, out of its revised funding ask of US\$987.3 million, resulting in the appeal being 82% funded for 2022.

*The overall HAC funding gap status does not represent gaps by sector. Figures reported to the FTS may differ for the same period due to in-process allocation of flexible funding. Funding information is preliminary and subject to change until the closure of the financial year in March 2023. Deviations from the [End-of-Year SitRep 24](#) are due to corrections in the funding information. The funding ask reflects the 2022 [HAC appeal](#) updated in November 2022.

Top 5 public sector donors for UNICEF's Ukraine response*

United States	US\$ 71.80 M
Germany	US\$ 38.62 M
European Commission / ECHO ¹	US\$ 36.60 M
The United Kingdom	US\$ 18.34 M
Japan	US\$ 17.40 M

Top 5 National Committee donors for UNICEF thematic pool**

United States Fund for UNICEF	US\$ 223.18 M
German Committee for UNICEF	US\$ 72.00 M
Japan Committee for UNICEF	US\$ 66.63 M
United Kingdom Committee for UNICEF	US\$ 51.02 M
Swedish Committee for UNICEF	US\$ 44.42 M

* Includes only the response under Pillar 1 (Inside Ukraine) as of updated HAC Appeal.
** Includes the response under Pillar 1 (Inside Ukraine) and Pillar 2 (Refugee Receiving Countries).

Human Resources

as of December 22, 2022

Supply

To address emerging needs for electrical power, generating equipment, and heating for educational and care giving facilities, UNICEF procured

910 gensets
valued at

US\$12.2 M

90 modular boiler systems valued at

US\$5.7 M

to be delivered and installed across Ukraine.

* US\$ 64 million worth of supplies were dispatched from UNICEF-controlled warehouses and US\$ 8.7 million worth of supplies were delivered to implementing partners directly from local vendors while \$830,000 remained in transit.

as of December 31, 2022

Partners

UNICEF worked with the Government of Ukraine, United Nations (UN) agencies, civil society organizations (CSOs)/non-governmental organizations (NGOs) and other humanitarian partners. Close consultations were also held with Presidential advisors, key ministries (Foreign Affairs; Social Policy; Education; Youth; and Health), and mayors in several cities (including through Child and Youth Friendly Cities) and the Ombudspersons Office. Through its longstanding presence in Ukraine, UNICEF has established partnerships in key hromadas (municipalities) and continued to expand these in all oblasts (regions). A total of 95 government, civil society and financial services partners engaged with UNICEF to respond to the critical needs of children and families across Ukraine.
