UNICEF South Sudan Response to the Sudan Crisis - as of 7th July 2023

Key Figures:

- **Arrivals (Returnees and Refugees)**
  - 157,098 individuals included 91% returnees
  - 35,900 households
  - 50% Female
  - 45% Children

**Key Highlights:**

- **Call to reinforce the health system**
  The conditions of Women and Children arriving are increasingly deteriorating with many already sick and malnourished on arrival. Acute Respiratory Infectious and acute Water Diarrhea are the leading cause of morbidity in the transit sites whilst measles is the leading cause of mortality in the children. Scaling up health services in Sudan and South Sudan is essential to protect life.

- **WASH Scale up in Renk**
  UNICEF and partners are scaling up WASH services in Renk to improve sanitation conditions and reduce related disease. UNICEF and partners started desludging latrines, deploying emergency personnel and started repairs to the Town water network.

**UNICEF and Implementing partners Key Response:**

**HEALTH**

- **NUTRITION**
  - 34,195 children under five and pregnant and breast-feeding women screened or acute malnutrition in all affected locations.
  - 8,391 children and pregnant and breast-feeding women treated for SAM (2,211) and MAM (6,180) across all the locations.

**EDUCATION**

- **3,045 children enrolled in schools in Upper Nile, NBeG and Unity States and Abyei Administrative Area.**

**CHILD PROTECTION**

- **1,517 children reached with PSS recreational activities in the transit center in Renk and Malakal transit site, Upper Nile State and in Rotriak in Unity State.**

**WASH**

- **57,603 people reached with water supply and safe water in Malakal transit site, Upper Nile State and Kiir Adem, NBeG State.**
- **1,700 people have access to appropriate sanitation facilities in Malakal transit site through 34 latrines (18 rehabilitated and 16 newly constructed).**

**Appeal:**

8.6M USD to deliver essential Nutrition, Health, WASH, Child protection and Education services to the children and women fleeing conflict in Sudan.
