The UNFPA-UNICEF Joint Programme on the Elimination of Female Genital Mutilation: Delivering the Global Promise is pleased to launch the 2024 theme for the International Day of Zero Tolerance for Female Genital Mutilation (FGM):

**Her Voice. Her Future.**
Investing in Survivor-Led Movements to End Female Genital Mutilation

For more than a decade, the Joint Programme has supported survivors of FGM, prioritizing investments in survivor-led initiatives, centered around empowerment, agency and access to essential services.

As we have seven years to eliminate FGM, our collective actions need to be accelerated by at least ten-fold. Girls and women survivors are important voices and actors in challenging social norms. Investment in FGM-survivor led initiatives contributes into creating environments where girls and women's rights are upheld promoting their wellbeing and healthy lives.
