		Clear referral pathways and professional accountabilities established for child and gender-sensitive responses to violence, abuse, exploitation and neglect for all sectors in contact with children.	National Development Plan 2013-2018 proposes developing specific guidelines for preventing and responding to violence against children.  Two federal protocols and several local protocols exist for inter-sectoral response to violence against children, but are not adopted on a national scale.	Capacities, especially in Social Welfare and Justice organs, strengthened for applying child and gender sensitive protocols and working practices in relation to protection risks
