In early January, heavy rains caused floods and rising water levels in Malawi displacing 120,000 people and leaving hundreds of schools inaccessible. UNICEF’s local and international response was immediate.

From the Region:
- School tents from Rwanda
- Ready-to-Use Therapeutic Food from South Africa
- Education Kits, school tents
- Health Kits, medicines
- Telecommunications equipment

Malawi (locally prepositioned & procured):
- Long Lasting Insecticidal Bednets
- Emergency Survival Kits, NFIs
- Chlorine, assorted water & sanitation supplies

Copenhagen Global Supply Hub (100MT)
- Water & sanitation supplies, Family Hygiene & Dignity Kits
- Nutrition items
- Telecommunications equipment

Local, regional and international supply response

UNICEF COs responding with prepositioned & locally procured supplies

Most affected districts of Nsanje, Chikwawa, Phalombe and Zomba
