#Backtoschool
As schools reopen, UNICEF and partners are helping create a safe environment for children to stay healthy and learn. UNICEF supplies include hygiene kits, WASH items to prevent the spread of infection, and thermometers to catch early warning signs of fever.

Notes:
1. Weight of supplies in metric tonnes (MT) describes internationally procured supplies and includes packaging, but excludes pallets.
2. 1 MT = 1,000 KG.
3. Procurement values (in US $) exclude freight costs.
