

## **UNICEF Pre-Bid Notice RFP-DAN-2023-503628 for the supply of Safe Injection Equipment (SIE)**

Date: 3 October 2023

Revision no.: 1

UNICEF would like to call attention to the upcoming Safe Injection Equipment (SIE) tender, planned to be launched on the 1<sup>st</sup> of November 2023. Once the tender is launched, it will remain open for 3 weeks.

The scope of the bidding exercise is to:

- Cover the range of Auto-Disable (AD) syringes including the option to offer with SIP feature, Sharps Safety Boxes (SB), Re-Use Prevention (RUP) syringes including the option to offer with SIP feature, Disposable syringes, Insulin syringes, Needles, Spinal needles, Scalp vein sets and three-way (luer) valves. Details on item specifications and requirements will be provided at the time of bid issuance.
- Establish non-exclusive Long-Term Agreements (LTAs) with successful proposers for a duration from 1 April 2024 to 31 December 2025. The resultant LTAs will be a combination of Target bound LTAs and Time bound LTAs.

We recommend the potential bidders to:

- Attend the UNICEF webinar planned to take place on the 25<sup>th</sup> of October 2023.

The confirmed date, time and the link to attend the webinar will be sent by email prior to the webinar launch.

- Visit UNGM website and check how to become a UN vendor: [www.ungm.org](http://www.ungm.org)

All proposers are requested to become a UNICEF vendor by creating a vendor profile and submitting their national incorporation license/certificate at the Level 1 stage of vendor registration process on UNGM website.

- Start as soon as possible the preparation of their company and product(s) documentation to be able to demonstrate compliance to the declared specifications.

All proposers should be aware that the third-party type test certificates must not be older than 4 years from the date of tender closing.

We look forward to your participation.
