Data shows awarded price per dose (in USD or EUR) per product, per supplier, per calendar year, based on their long-term supply agreements with UNICEF.

Prices are based on Free Carrier-(named place) FCA incoterms.

* The price applies to 64 countries which were eligible for Gavi support in 2003 based on GNI/capita of = or < than USD 1,000, provided that procurement takes place through UNICEF.

They include currently Gavi eligible, transitioning, and transitioned countries. They exclude PAHO, fully self-financing middle-income countries that have not introduced RV, and three traditionally self-procuring countries - India, Indonesia, and Viet Nam.

** The price applies to Namibia, Eswatini, and Pacific Island Countries (non-Gavi eligible middle-income countries).

*** The price applies to India only.
