

This Facts and Figures sheet incorporates UNICEF Whole of Syria data

JAN - JUN 2019

Total number of people reached by UNICEF WASH interventions

3.7 million
not including water treatment chemicals reach

People reached in hard to reach locations by UNICEF WASH interventions (convoys and regular programmes)

892,000

Beneficiaries (estimated) served with essential WASH supplies through convoys

52,000

HtR locations reached

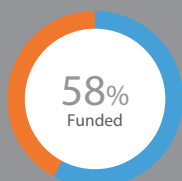

215

FUNDING STATUS

77.5 million required

44.8 million available

SITUATION ANALYSIS

- In Syria, eight years into the crisis, access to sufficient quantities of safe water remains limited, with increased water quality assurances and support to water systems rehabilitation, operation and maintenance unconditionally needed.
- There is a need to maintain the provision of adequate WASH services and supplies for IDPs especially in the northeast and northwest, and to promote transition to more sustainable solutions while acknowledging that more emphasis on IDPs in collective centers and open areas is also needed.

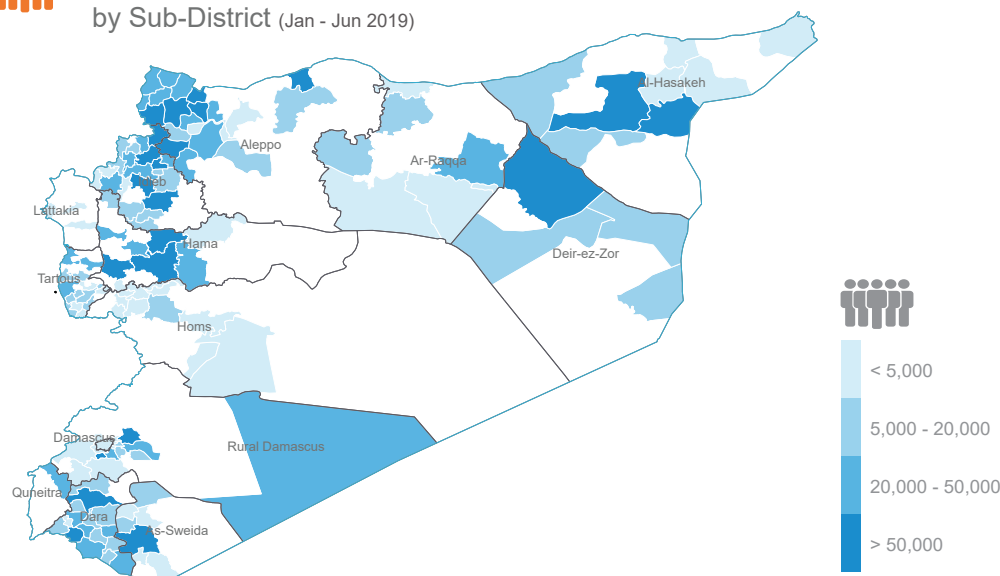

RESULTS

■ beneficiaries reached by UNICEF interventions (Jan - Jun 2019)
■ beneficiaries targeted (2019)

INDICATORS	RESULT	% REACHED	TARGET
1 Estimated number of people with access to improved water supply	2.1 m	58%	3.7 m
2 Estimated number of people have improved access to sanitation services	697,000	54%	1.3 m
3 Number of school children benefited from improved WASH facilities and services	77,500	20%	390,000
4 Number of people supported with access to essential WASH NFIs including in hard to reach areas	826,000	52%	1.6 m
5 Number of people reached with hygiene promotion interventions	174,000	33%	525,000
6 Number of people benefited from access to improved lifesaving/emergency WASH facilities and services	649,000	43%	1.5 m

PEOPLE REACHED

by Sub-District (Jan - Jun 2019)

RECENT HIGHLIGHTS

- During the first half of the year, UNICEF reached 2.1 million people with improved and sustained access to safe water, and almost 700,000 people through enhanced sanitation services.
- WASH in schools reached over 77,000 children including children with disabilities.
- Moreover, over 826,000 people were reached through distribution of WASH non-food items (NFIs) including family hygiene kits, soap and aqua tabs.
