**NUTRITION GOVERNANCE**

**What is Nutrition Governance and Why is it Important?**

Good nutrition governance entails making adequate policy decisions in a timely manner, committing the necessary financial and organizational resources to their effective implementation, i.e. ensuring that benefits reach most of the population, preferably the most vulnerable. It also entails a sustained political commitment to ensure that nutrition programs and policies can withstand threats and constraints from changes in district leadership, political and socioeconomic upheavals (Solon 2007).

**Nutrition Governance Activities Supported in the District**

- A stakeholder and mapping exercise was conducted where it was found that, Abim District Local Government has 20 stakeholders either overseeing or implementing Nutrition specific and sensitive interventions as well as and creating an enabling environment for Nutrition implementation within the district.

---

**NUTRITION GOVERNANCE FRAMEWORK**

**Pillars of Governance**

- International Cooperation
- Capacity Building
- Advocacy
- Monitoring
- Evaluation
- Communication
- Resource Mobilization
- Policy and Legal Framework
- Coordination and Partnerships
- System Capacity Building
