

Dear Sir/Madam,

Please find below the answers to the following clarification questions:

- 1) In the Terms of Reference, it is mentioned that "the Tenderer must have developed any logistics management information system in the health sector and should be able to demonstrate the software that was successfully deployed in any country". **In what way and at what stage we have to organize a demonstration?**
Answer: The tenderer can include the url, user id and password for the demo site to test the system or present it if online if the Tenderer is short listed for demonstrating the software subject to qualifying in the technical assessment.

- 2) In case a complete description of **the system requirements (technical requirements) exists, we'd like kindly to request it.**
Answer: The technical requirement document is available as an attachment at <https://www.ungm.org/Public/Notice/100565> (file Annex 1 Technical Requirement Final 4 Nov 2019)

- 3) **How to consider correctly "and/or" in the phrase «Uzbek and/or Russian language».**
Answer: please consider it Russian AND Uzbek.

Sincerely,
Supply Operations
UNICEF CO Uzbekistan
