UNICEF RESPONSE HIGHLIGHTS & URGENT ACTIONS REQUIRED FOR CHILDREN

- 3,480 children were admitted for SAM and MAM treatment in community based programmes supported by UNICEF between January and April,2020
- 303,000 people were provided with access to health services across the country between January and April,2020
- 44,750 people were reached with safe water in Harare urban from January-April,2020
- 249 unaccompanied children were identified and provided with UNICEF supported protection services from January-April,2020

UNICEF appeals for more funding to continue to advocate for and support the Government of Zimbabwe in scaling up humanitarian interventions to reduce acute malnutrition, common diseases and increase access to safe water, education, protection services and antiretroviral treatment in most vulnerable communities
